COMMISSIONER'S REPORT			1-24
	ACCOMPANIMENTS.		
1.	FINANCIAL	Report of the Chief Accountant with Tabular Statements	25-145
2.	REVENUE	Report of the Assessor and Collector	147-153
		Report of the Revenue and Refund Audit Officer	155-166
3.	PUBLIC WORKS	Report of the Executive Engineer.	167-432
		Introductory Remarks	169-170
		New Works, General	171-184
		Drainage, Special Works	185-198
		Drainage, Ordinary Works.	199-209
		Water Works	210-216
		Regulation of Streets and Buildings	217-255
		Roads, Footpaths, &c.	256-257
		Public Lighting	258-261
		Workshops	262-266
		General	267-432
		Report of the Chief Officer of the Fire Brigade	433-438
		Report of the Superintendent of Gardens	439-445
		Report of the Secretary and Curator, Victoria & Albert Museum.	446-447
4.	PUBLIC HEALTH	Health Officer's Report and Vital Statistics	449-660
		License Department Report	661-664
		Market Report and Statements	665-674
		Return of Street Accidents	675-678
		Report of Medical Officer, Infectious Diseases Hospital	679-690
5.	EDUCATIONAL	Report of the Joint Schools Committee	691-706
6.	AUDITORS' REPORT		707-720

Review by the Standing Committee of the Administration Report of the Municipal Commissioner for the year 1900-1901.

General.

At the first Corporation Meeting of the year, held on the 5th April 1900, Mr. C. T. Burke, B. E., M.Inst.C.E. (Chairman of the Bombay Port Trust), was appointed President. He held the office till the 20th December 1900, when he retired from Government Service and proceeded to Europe. Mr. S. Rebsch, M.Inst.C.E. (Chairman of the City of Bombay Improvement Trust), was then appointed President and held the office till the end of the year. Mr. Mooljee B. Barbhaya was Chairman of the Standing Committee throughout the year.

2. It is satisfactory to record that there was no death among Councillors during the year of report. The Corporation met 64 times and the Standing Committee 52 times. There were 91 meetings of Committees of the Corporation and 18 of Sub-Committees of the Standing Committee. H. E. Lord Curzon, Viceroy and Governor-General, visited the City in November 1900, and was pleased to receive and reply to an address from the Corporation.

3. Mr. W. L. Harvey, I.C.S. (now C.I.E.), continued to hold the appointment of Commissioner during the year of report, excepting a period of about six weeks, when he was on privilege leave, and Mr. J. Sladen, I.C.S., officiated for him. The report is submitted by Mr. W. D. Sheppard, I.C.S., who is now acting as Commissioner during Mr. Harvey's absence on furlough.

Financial.

4. The year's income aggregated Rs. 84,02,848, which was less by over a lakh of rupees than the Budget Estimate, and less by over 4¼ lakhs of rupees than the previous year's income, taxation under all heads being the same as in the previous year, *viz.*, the maximum leviable under the Municipal Act, except in the case of the tax for the Fire Brigade, which was ¼ per cent. less than the maximum. The expenditure of the year was Rs. 85,84,058, and shows an advance

of nearly a lakh of rupees over the original budget estimate and of nearly 12 lakhs of rupees over the expenditure of 1899-1900. The result of the year's financial transactions was therefore a deficit of Rs. 1,81,210. This deficit is, however, more than covered by the large uncollected outstandings of the year, *viz.*, Rs. 3,74,234, which exceeded those of the previous year by Rs. 1,92,672. The opening balance of the year was Rs. 20,99,822, excluding the value of reserve stock and the lapsed grants of previous years requiring renewal during the year. With the deficit above noted, the closing balance would have been smaller than the opening balance, but it stood at the larger figure of Rs. 21,66,762, because the sum required for the renewal of lapsed grants was only Rs. 8,16,938 against Rs. 9,51,910 in the previous year, and because the balance of reserve stock in hand was reduced to a value of Rs. 7,20,456 against Rs. 8,33,633, at the close of the preceding year. If the sum of Rs. 1,92,672, which represents the excess outstandings of the year, were added to the closing balance it would make the total surplus amount to Rs. 23,59,434 or Rs. 22,59,434 more than the minimum of one lakh required by law. But it must again be remarked, as was done last year, that the actual financial prosperity of the Municipality cannot exactly be gauged from these book figures, for they include provision for a payment of Rs. 5,00,000 made to the City Improvement Trust immediately after the close of the year, and also include a total advance of Rs. 12,98,478 made for plague expenditure. On the strength of this large closing balance, taxation has been reduced, and a deficit of Rs. 4,16,000 has been budgetted for in the current year.

5. The statement given in the margin shows the taxation* revenue and expenditure during the five years ending with the year of report. It will be seen that a steady increase in expenditure has taken place year by year. In the first two years, expenditure exceeded income

	1896-97.	1897-98.	1898-99. *a*	1899-1900. *b*	1900-1901.
	Rs.	Rs.	Rs.	Rs.	Rs.
Revenue ..	62,08,978	67,08,506	71,61,911	88,29,417	88,02,848
Expenditure..	70,04,743	70,59,914	73,39,086	73,92,479	86,84,058

(*a*) In this year the General Tax was increased from 8¼ to 9½ per cent., and the Town Duties on Grain, Firewood and Ghee were increased from annas two per candy, anna one per candy and annas eight per maund, to annas four per candy, annas two per candy, and annas ten per maund, respectively.

(*b*) In this year the General Tax was raised from 9½ to 12½ per cent., and the duty on grain was increased from 4 annas to 6 annas per candy.

causing a reduction in the balances. To restore equilibrium between Income and Expenditure taxation was raised for 1898-1899, but the expenditure still exceeded the income by about Rs. 1¾ lakhs. In the following year over 8 lakhs of rupees were temporarily withdrawn from Surplus Balances on the transfer to the City Improvement Trust of the frontage lands acquired in Agripada and elsewhere from current revenues, and provision had to be made for the first time for a contribution amounting to 2 per cent. of the General Tax payable to the Trust immediately after the close of the year. All Municipal Taxes were therefore raised to the maximum, which, combined with an abnormally high revenue from Town Duties due to large imports of grain which took place on account of the Famine, produced in that year an excess of revenue over expenditure to the extent of over 14 lakhs. In 1900-1901, with the maximum taxation still in force, although the imports and the gross collections thereon were even larger than in the previous year, the refunds given were so heavy* that the net Town Duty collection was less by over 4½ lakhs of rupees, and the total revenue of the year shows a fall of over 4¼ lakhs as compared with 1899-1900. On the other hand, the payment of the first contribution to the Trust on 1st April 1900 and heavier disbursements in almost all Departments, but especially under Public Health and Municipal Debt, made up a total expenditure nearly 12 lakhs in excess of that of the previous year. The financial operations of 1900-1901 thus seemingly compare very unfavourably with those of 1899-1900, but when the causes are investigated, it is clear that there is no room for alarm that requirements are out-growing resources.

6. Coming to details of revenue and expenditure for the year of report it appears that the *General Tax* realized Rs. 30,15,618, which is over Rs. 7,000 more than the Budget Estimate and over Rs. 20,000 more than the actuals for 1899-1900; that the *Wheel Tax* brought in Rs. 3,21,365, which is less than the Budget Estimate by about Rs. 23,000 and more than the previous year's collection by about Rs. 18,000; that the *Halalkhor Tax* collected amounted to Rs. 7,14,439 or less by about Rs. 40,000 than the Estimate and by about Rs. 11,000 than the previous year's.

* The refunds included 2 lakhs for 5,000 claims of the previous year (*vide* para. 17 below). If these claims had been paid in the year in which they arose, the collections for the two years would have been nearly equal.

amount; and that the *Water Tax* and *Other Miscellaneous Water Works Revenue* brought in Rs. 17,35,634, which was less by a lakh and half of rupees than the Estimate and by about Rs. 37,000 than the income from this source of the previous year. With the above figures must be noted the figures marginally given* which represent the excess of the outstandings at the end of 1900-1901 over the outstandings at the end of 1899-1900. *Town Duties*, which were cautiously estimated to realize Rs. 12,35,000 against the abnormal revenue of Rs. 15,94,720 in the previous year, actually brought in only Rs. 11,31,370. Under *Returns from Property and Miscellaneous* most items show increases both over Budget Estimates and over the actuals of 1899-1900, and the total sum realized (Rs. 10,28,037) is more than the estimate by about Rs. 1,68,000, and more than the previous year's receipt by about Rs. 44,000.

Water ,, ...	39,407
Halalkhor ,, ...	49,769
Wheel ,, ...	7,094
Rs. ...	1,92,672

7. On the expenditure side the chief item of increase as compared with 1899-1900 is the contribution of Rs. 4,74,605 paid to the City Improvement Trust for the first time on the first day of the year. There was an increase of Rs. 1,17,371 in the amount of *Grain Compensation* paid, on which account the previous year's expenditure was only Rs. 14,857. The *Public Works Department* spent Rs. 85,516 and the *Public Health Department* Rs. 1,38,035 more than in the previous year. Under *Municipal Debt*, owing to increased payments of interest and increased investments of sinking funds for new loans raised and owing to larger discharges of the principal of the Drainage Loan of 1878, there was an increase of expenditure to the extent of Rs. 1,63,041. Under *Town Duty Collection* Rs. 48,103 were spent in excess of the previous year's expenditure, as a much larger amount was actually collected, although, by payment of refunds, the figure of net revenue became smaller.

8. The total increase in the ordinary expenditure of the Municipality (leaving out the contribution to the City Improvement Trust) was about 7 lakhs. Of this the Chief Accountant estimates that over 3½ lakhs is of a permanent nature and will have to be annually provided for. Large though the expenditure was, it left a margin of over

10¾ lakhs over the liberal provision made for it, for although with "original," "additional" and "renewed" grants Rs. 96,57,650 were made available for expenditure, only Rs. 85,84,058 were actually spent.

9. In addition to the expenditure from Revenue above recorded, a sum of Rs. 8,44,134 was spent from *Loan Funds* on Capital works. The principal loan expenditure was on Sewerage and Drainage, which absorbed Rs. 7,20,185. On other sanitary works and minor works Rs. 90,379 were spent. Rs. 30,544 were spent on the making of new roads, and there was a small loan expenditure of Rs. 3,025 on water works. The total amount was less than in the previous year by over ¾ths of a lakh of rupees.

10. The total *Plague Expenditure* of the year was Rs. 7,40,242 against Rs. 9,53,969 in the previous year. The decrease of Rs. 2,13,727 is to be noted with satisfaction. From the commencement of the Plague to the end of the year of report, Rs. 50,77,738 were spent on ordinary Plague operations, and Rs. 2,38,042 on building of camps and discretional relief. The latter amount has been paid entirely by Government. To the former Government have contributed Rs. 14,50,000. Of the remaining sum of Rs. 36,27,738, Rs. 12,00,000 have been met by loan, Rs. 11,29,260 by advance from Loan Fund Balances, and Rs. 12,98,478 by advance from the General Fund.

11. A sum of Rs. 12 lakhs having been borrowed during the year and Rs. 91,125 having been paid towards discharge of the Vehar Debt and the Drainage Loan of 1878, the *Municipal Debt* was increased to Rs. 4,44,04,760. Against this there was an accumulated Sinking Fund amounting to Rs. 30,48,527.

12. Adding to the gross Municipal Debt as above, the amounts of deposits by contractors and certain charges admitted but not paid and other miscellaneous liabilities, the total amount of *Liabilities* comes to Rs. 4,50,52,756. Against this there are for *Assets* Municipal property of the estimated value of Rs. 5,19,67,249, and balances, investments, advances and reserve stock to the extent of Rs. 87,12,862—total Rs. 6,06,80,111. The excess of *Assets* over *Liabilities* is therefore Rs. 1,56,27,355. The Commissioner, however explains that "while the liabilities are correctly represented

at Rs. 4,50,52,756, the assets require investigation owing to the values assigned to properties and reserve stock not having been revised for years, to properties which no longer exist not having been written off, and owing to the non-inclusion of properties which have been acquired from revenue sources." The Standing Committee regret to see that it has not yet been possible to effect the correct revaluation of assets suggested by them in reviewing the report for 1897-98.

Property Taxes and Wheel Tax.

13. The number of properties on the Assessment Book increased from 53,502 in 1899-1900 to 53,864 in the year of report: of these 34,792 were "Buildings," 146 salt pans, and 18,926 "Lands, including tanks and wells." Although the total number of registered properties had increased, the number assessed for the General Tax decreased from 42,281 to 41,316. 4,743 properties were exempted under Section 143 (1) (*a*) and (*b*) against 4,724 in 1899-1900, and for 7,805 properties, against 6,497 in 1899-1900, bills were not issued, as being small plots of unproductive land. Again, although a smaller number of buildings was assessed, the rateable assessment on them increased from Rs. 2,49,61,166 to Rs. 2,56,68,486, which increase is stated to be due to rise in rents, correction of under-assessments, and erection of new or enlargement of existing buildings. Exclusive of outstandings of previous years to be collected during the year, the amount of General Tax levied during the year was Rs. 32,08,565, against Rs. 31,20,157 in 1899-1900, the rate being 12½ per cent. in both years. The total amount collected in the year (including adjustments) was Rs. 30,09,087, against Rs. 29,86,065 in 1899-1900.

14. The demand for *Water Tax* aggregated Rs. 17,50,013 against Rs. 17,84,769 in 1899-1900. The actual collection was Rs. 17,13,682 against Rs. 17,62,701 in the previous year. For *Halalkhore Tax* the demand and collection were respectively Rs. 7,70,557 and Rs. 7,19,995 against Rs. 7,41,218 and Rs. 7,30,019 in 1899-1900.

15. The outstanding balance for property taxes which stood at Rs. 1,70,211 on 31st March 1900 rose to Rs. 3,52,296 on 31st March 1901, collection work having been much hampered by census operations, by the general elections, by

depression in trade generally and in the mill industry particularly, and by disputes about special Halalkhore Tax and charges for water by meter measurement.

16. The amount of *Wheel Tax* collected during the year on account of private vehicles and animals was Rs. 1,57,778 against Rs. 1,62,291 in the year before, the difference being due to larger outstandings, *viz.*, Rs. 17,711 against Rs. 8,852. Among the different descriptions of private vehicles which came under the tax may be noted 1,400 bicycles against only 910 in the previous year. Under Act VI of 1863, 862 victorias, 6,344 labour carts and 204 riding hackeries were licensed by the Commissioner during the calendar year 1900, and the amount of revenue, including fees for badges, &c., was Rs. 1,43,589, being an advance of only Rs. 3,690 over the previous year, when there was a substantial falling off on account of the prevalence of high prices of grain and fodder.

Town Duties.

17. These were levied in the year of report at the same rates as in the year previous. The gross collection, exclusive of the previous year's outstandings, was Rs. 30,84,008 against Rs. 26,88,002 in the previous year, but as the refunds on all articles were larger, the net revenue fell from Rs. 14,83,027 to Rs. 12,17,020*. The increase in gross collections was chiefly caused by large importations of sugar, Mauritius sugar exceeding the previous year's imports by over 38,000 tons, and German sugar by over 14,000 tons. The increase in refunds is chiefly made up by increased refunds on grain and sugar (the excess in each case amounting to slightly over three lakhs of rupees). About two lakhs were paid in refunds during the year in respect of the 5,000 claims held back from the preceding year which are referred to in para. 17 of the review of the previous year's report.

Engineer's Department.

18. Consequent on the death of Mr. J. W. Smith, M.I.C.E., Special Drainage Engineer, an important change in the constitution of the Executive Engineer's Department

* These figures are taken from the Refund Officer's Report. They differ from the figures in paras. 5 and 6 as they do not take account of outstandings.

was made by the Corporation placing the Special Drainage Department under the Executive Engineer as a Branch of his Department, and giving him the assistance of a Second Deputy for Special Drainage. Mr. C. C. James, M.I.C.E., Deputy Executive Engineer in charge of Ordinary Drainage, was placed in charge of the new appointment, and Mr. N. Maughan succeeded Mr. James as Deputy Executive Engineer, Ordinary Drainage Branch. The appointment of Executive Engineer was held throughout the year by Khan Bahadur M. C. Murzban, M.I.C.E., C.I.E.

19. In the General Branch of the Executive Engineer's Department the new works under construction were mostly of a minor character. The only remaining portion of the works for the disposal of Town-sweepings at Deonar, *viz.*, the construction of a bund about three miles in length round the boundary of the Khajan of Deonar, was undertaken during the year and fair progress made. The proposed Nasarvanjee Manockjee Petit Public Hall was finally abandoned as the executrix of the donor insisted on a condition for the maintenance of the Hall which was not in accord with the original agreement with the donor.

20. The number of applications to build or rebuild houses, &c., totalled 2,248 or 226 more than in 1899-1900. Only 26 of these were rejected and the rest were passed as submitted or subject to alterations.

21. 897 prosecutions against house-owners were instituted in the Magistrates' Courts under different sections of the Municipal Act. More than one-half of these were under Section 347, and of the fine of Rs. 1,025 levied by the Magistrates 60 per cent. was in respect of that section alone.

22. In spite of 568 notices issued for removal of unsafe buildings and wholly or partly complied with, 33 buildings which had not come under observation collapsed, in 4 of which 8 persons were injured and 10 killed.

23. Rs. 1,05,008 were spent during the year on street improvements, and a further large liability was incurred which was to be met in the current year. 3,844 square yards of ground were added to streets, the price paid for the ground amounting to Rs. 96,551.

24. 6,371,354 square feet of road surface was metalled at a cost of Rs. 2,42,255, which gives a rate of 7·3 pies per square foot. The Executive Engineer complains once again of scantiness of funds for road repairs and road watering, and the Commissioner has accordingly proposed a larger grant in his Budget Estimates for 1902-1903.

25. The Corporation decided in the year of report to exercise the option given by Section 30 of Act I of 1874 to purchase the Tramways of the City from the Bombay Tramway Co., Ld. An agreement was entered into with Mr. W. Gentry Bingham for taking over the concession of working the Bombay Tramways and supplying Electric Light and Power in the City, the fulfilment thereof being fully guaranteed by the Brush Electrical Engineering Co., Ld., of London. This agreement provides for the conversion of the Tramways from the present horse traction to electric traction within three years of the date on which the Promoter gets possession of the undertaking. The actual taking over of the Tramways by the Municipality and the handing over of them to the new concessionaire has, however, been delayed by litigation which is now proceeding in the Bombay High Court.

26. The City was lighted with 3,945 gas and 1,741 kerosine oil lamps, the former costing Rs. 2,28,573 and the latter Rs. 30,804. The gas lighting was not satisfactory, but as the contract with the Bombay Gas Company, Limited, includes no penalty for dim or imperfect lighting, the Executive Engineer was helpless in the matter. The Electric Light Installation for the Crawford Markets and the Municipal Offices worked satisfactorily, barring one accident which caused a stoppage of the lights for one night only. The cost for the year was Rs. 10,580.

27. The value of work, departmental and private, turned out by the Municipal Workshops during the year of report was Rs. 1,34,546. The shop levies 35 per cent. for supervision, tools, &c., on the cost of labour employed and materials used for works executed by it, and this percentage brought in a profit of Rs. 8,943.

28. The work of improving or demolishing insanitary buildings under the Epidemic Diseases Act was proceeded with as usual. Out of 1,809 blocks of buildings inspected, 1,363 were found to be in need of improvement and 443 fit for demolition as being incapable of improvement. 144 houses and sheds were actually demolished. 490 certificates were issued of houses improved and made fit for human habitation.

Special Drainage.

29. The works executed or under execution in the Special Drainage Branch during the year included the ovoiding and constructing of masonry side drains and the construction of storm-water drains in various parts of the City, the improvement of roadside drains and water courses in and about Dadar Road, the erection of machinery for various Sectional Sewerage Works, the construction of the Mazagon Sectional Sewerage Works, the Fergusson Road and Chinchpokly Sewerage Works, and the Parel Sectional Sewerage Works. During the year the Corporation, after obtaining the opinion of the late eminent Sanitary Engineer, Mr. Santo Crimp, sanctioned the construction of certain works, costing in the aggregate Rs. 13,49,068 for the drainage of the lower parts of the City. The scheme involves the cutting off of all tidal communication from Mahim Bay at a certain point, and Government are about to undertake legislation extinguishing all tidal rights and rights of navigation at that point. When the Act is passed, it will be possible to proceed with the works.

Ordinary Drainage.

30. In April, 1900, the Corporation passed a Resolution expressing opinion that the work of house connections should be pushed on with as great a rapidity as may be compatible with efficiency. The street portions of house drainage connections were carried out for 6,002 houses at a total cost of Rs. 1,39,497. The engines and pumps at the Love Grove Pumping Station worked continuously and efficiently during the year with the exception of only one stoppage of about seven hours. The various Drainage sluices and penstocks were worked satisfactorily. The manufacture of electrolized sea-water was finally abandoned on the advice of Mr. Santo Crimp.

Water Works.

31. Although the rainfall at the *Tansa Lake* was 104·6 inches against 40·07 inches in the previous year, and the quantity of water received in the lake was 41,888 million gallons against 12,714 million gallons in the previous year, yet, owing to the early cessation of the rains, the lake fell to the lowest recorded level, 391·6, T. H. D. The daily draw-off from the lake between October 1st, 1899, and June 10th, 1900, is estimated at 40·4 million gallons. Nearly half of this was lost by evaporation and soakage, and only 23·1 million gallons per diem reached the aqueduct. Before the water could reach the supply mains at Ghat Cooper there was a further loss, estimated at a million and a half gallons per diem, by leakage, evaporation, or discharge at overflow weirs. A portion of the Tansa Duct at Bhandup gave way on the 18th February 1901, but repairs were effected and the water turned on again to the duct by March 1st.

32. At *Vehar Lake* the rainfall gauged was 72·96 inches against 35·26 in 1899-1900, replenishing the lake to the extent of 4,650 million gallons of water. In addition to this, 261 million gallons were received from the Tansa Duct. There was no overflow of water from Tulsi into Vehar. The daily draw off is estimated at 12·5 million gallons and the loss by evaporation between 4 and 5 million gallons.

33. 93·02 inches of rain were gauged at *Tulsi Lake* against 43·80 of the previous year. Nevertheless, when the next monsoon burst, there was only about 3 weeks' supply in stock, and the lowest recorded level was reached, *viz.*, 408·68 T.H.D. For the last two years the lake has not overflowed. The rainfall added only 2,778 million gallons of water to the lake, and the draw off was at the rate of 5 million gallons a day, including evaporation and leakage. The bad quality of Tulsi water has claimed a good deal of public attention, and a special enquiry is now being made as to the causes of it.

34. The total number of water connections in the City was 20,394, there having been a further increment of 190 connections during the year. The number of meters fixed

increased from 2,501 to 2,929. The quantity of water sold by meter measurement increased from 1,533,074,634 to 1,670,202,045 gallons.

35. The work of fixing the sluices in the Vehar Outlet Tower was carried out during the rains. It was entrusted to Mr. Hewett, Assistant Engineer, Mechanical Branch, and successfully carried out by him, at much personal inconvenience, the Water Engineer being unwilling to undertake responsibility for the success of the work unless it was done in the hot weather while the water in the lake was low.

Fire Brigade.

36. The water-supply at fires was satisfactory in all cases, and the assistance of the Water Works staff was prompt and helpful. No case of loss of life by fire where the Brigade was concerned occurred. The engines and men had to turn out to 80 calls, of which 11 were false alarms. 23 fires were put out before the Brigade could arrive and 46 by the Brigade. Arrangements were completed during the year for rescuing persons overwhelmed in the debris of fallen buildings, in which work the Fire Brigade have to help.

Public Gardens and Museum.

37. The Victoria Gardens received much attention during the year from a Committee appointed by the Corporation to consult with the Commissioner as to the best steps to be taken for their improvement. Many improvements were made and some rare animals added to the zoological collection, amongst which an ourang-outang, obtained by purchase, and an elephant, generously presented by H. H. the Gaekwar of Baroda, formed great attractions to the masses. The number of visitors to the Gardens therefore reached the unprecedented figure of 16,53,639 or nearly 5½ lakhs more than in the previous year. The other eight Municipal Gardens were maintained in a fair state of efficiency. 824,289 persons visited the Victoria and Albert Museum, the daily average being 2,641 against 2,182 in the previous year, from which the Curator infers the presence of a larger population in the City despite the fact that, with plague and other epidemics raging, the year was one of the unhealthiest that the City has passed through.

Health Department.*

38. After a long and arduous service as Health Officer of ombay extending over a period of 27 years Col. T. S. Weir, I.M.S., left the Health Department in June 1900 to rejoin Government service on promotion. The Corporation, being anxious to secure as successor to Col. Weir an officer of thorough competency, had the pay of the Health Officer increased by legislation from Rs. 1,200 per mensem for minimum and Rs. 1,500 for maximum to Rs. 1,500 per mensem for minimum and Rs. 2,000 for maximum. A special provision was also introduced in the Pension Regulations to secure a pension of Rs. 500 per mensem to the Health Officer after a service of 15 years only. Out of a large number of applicants Mr. John Andrew Turner, M.B., D.P.H. (Cambridge), who had acquired an extensive experience as Medical Officer of Health in several districts of England, was appointed to the post, and he assumed charge of his duties in February 1901. In the interval the post was held as Acting Health Officer by Mr. J. Leask, Divisional Health Officer, No. 2 Division. Dr. Turner's report of the Health Department is, therefore, necessarily meagre and consists mainly of statistical tables with brief commentaries on them.

39. The number of births registered in the calendar year 1900 was 12,688. These were more by 2,064 than in 1899, giving a birth-rate of 15·43 per mille against 12·92 in the year before. 6,552 of the children born were males and 6,136 females. The registration system being still admittedly faulty these figures are by no means reliable. The highest birth-rate (39·09) is claimed by low-caste Hindus, and the next highest (23·50) by Jews. In E Ward the birth-rate was higher than in any other ward of the City. The total registered births of the year are less than those of each of the years from 1872 to 1896. In the last-named year the figure stood at 15,890. Then Plague broke out, and in 1897 there was a drop to 9,336. A very gradual recovery seems now to be taking place.

40. On the other hand, a fearful mortality prevailed, the population being literally decimated. Exclusive of still-born, 79,350 persons died in the City, giving the enormous death-

* The vital statistics in this section are for the calendar and not the official year, and are based on a population of 821,764 as estimated by the census of 1891.

rate of 96·56 per 1,000 of the population by the census of 1891 and of 102·25 per 1,000 of the population by the census of 1901. Roughly speaking this is about five times the death-rates of London, Paris, Berlin or New York ; more than double that of Calcutta ; more by about one-third than the death-rate of Bombay in 1899, which year was noted as the most unhealthy in the modern history of the City ; and three times the average death-rate of Bombay in years prior to the advent of Plague. Excluding the very small communities of Lingayets and Negro Africans (who number only 784 and 146 and whose death-rate on those numbers works out to 237 and 568 per mille respectively) the highest death-rate (214·57) was among low-caste Hindus, and the next highest, 102, among Mussalmans. The lowest was among Europeans (26·92), the Parsees coming next with 37·63. The lowest death-rate (2·53) was in Southern Fort. Chowpati comes next with a rate of 29·79. The highest is in Mahim (173·46), Byculla being next with 146·04.

41. Five different epidemics, *viz.*, those of Plague, Cholera, Measles, Small-pox and Relapsing Fever, raged in the City. Plague did slightly less havoc than in 1899, the number of deaths recorded being 13,285 against 15,796. From Measles also fewer deaths (1,500) were registered than in the previous year (1868). From Cholera, Small-pox and Relapsing Fever, however, the mortality was 4,273, 3,018, and 1094 against 111, 440, and 829 of the year before. To Remittent Fever 7,278 deaths are put down against 4,761 of the previous year. 8,199 deaths are recorded from Phthisis against 6,029 in 1899. 601 persons are stated to have died of privation against 129 in the previous year—a bad record for a city noted for its wealth and charity. Altogether the year of report, the last of the century, was a most fateful one for the inhabitants of Bombay, especially the poorer classes.

42. The control of Plague measures continued to be with the Municipal Commissioner working directly under the orders of Government. The only measure enforced was disinfection. Compulsory evacuation of infected houses and removal of sick persons to hospital were not resorted to. Hindus generally were the greatest sufferers, and next to them were Mussulmans. Europeans, and next to them Jews, and next to Jews, Parsees show the lowest death-rate from

Plague. Of the large number of deaths returned as due to Remittent Fever many were, no doubt, due to Plague. It is noticeable that the Fever mortality rose and fell with the mortality from Plague, being highest in March when Plague was at the highest and nearly the lowest in July when Plague was at its lowest. Dongri, Byculla, Parel and Mahim gave the highest incidence of Fever mortality and were also among districts which suffered most severely from Plague.

43. How difficult the conditions of life were for tender childhood and feeble old age is again apparent from a mortality of 13,492 among children up to one year of age and of 9,862 among persons of 60 and over. The corresponding figures for the previous year were only 8,351 and 7,095, and were noted as "appalling" in reviewing the report of the year.

44. The improvement of birth and death registration has been energetically taken in hand by the new Health Officer who hopes to be shortly able to put a better system into working order.

45. The total expenditure on the Health Department came to Rs. 21,63,683, and the income of the Department was Rs. 8,04,983, leaving Rs. 13,58,700 for actual cost. On the average, 6,862 men and women, 1,188 scavenging and drain carts and 204 night-soil and cesspool carts were at work each day. 348,152 tons of garbage (giving an average of 954 tons a day) and 172,459 tons of night-soil and cesspool matter (giving an average of 473 tons a day) were collected and removed, the figures for the previous year being slightly less. 202 miles of covered drains were opened and cleaned against 167 miles in 1899. 1,642 building plans were received and disposed of against 1,411 in 1899. 4,231 notices and 3,271 summonses were issued against 3,924 and 2,066 respectively in 1899. Three cases were prosecuted under the Ghee Act, a conviction being obtained in each. The preparation of, and experiments with, Lustig's serum were continued. The water-supply was continually analysed, chemically and becteriologically. An hospital for road-side cases was opened at Grant Road under the gratuitous management of Mrs. Adams Wylie, who deserves great credit for the philanthropic work done by her.

Markets.

46. The total market receipts under all heads, exclusive of Slaughter-house receipts, aggregated Rs. 2,58,960, which is about Rs. 12,000 more than in the previous year. On the other hand, the receipts connected with the Slaughter-houses, which aggregated Rs. 1,60,086, were less by about Rs. 13,000 than in the previous year when, owing to famine, the slaughter of animals was immense. 2,483 buffaloes, 40,454 cows, bullocks and calves and 6,31,190 sheep and goats formed the meat-supply of Bombay and Bandra during the year of report. 1,56,208 lbs. of food unfit for human consumption, particularly meat and fish, was destroyed under the provisions of the Municipal Act.

License Department.

47. This Department issues licenses for, and controls, dangerous and offensive trades. The License Fees were levied during the year according to a revised scale in which certain fees were reduced with the object of giving relief to petty tradesmen dealing in licensable commodities. As a result, although the number of licenses increased from 5,831 in 1899-1900 to 5,912 in the year of report, the fee receipts fell from 63,732 to 63,689. The largest receipts were from Firewood (Rs. 8,835), Timber (Rs. 7,324) and Kerosene Oil (Rs. 5,815). The Department instituted 2,143 prosecutions for carrying on licensable trades without licenses or for infringement of licenses.

Arthur Road Hospital.

48. The report submitted by the Special Assistant Health Officer in charge of the Arthur Road Hospital for infectious diseases deals with the year 1900 and has been brought up to the end of May 1901.

49. During the period of report the admissions to the hospital decreased substantially, as under the orders of Government compulsory removal of the sick to hospital was abandoned as a Plague measure. In the 17 months ending May 1901 there were 4,603 admissions against 5,453 in the 17 months ending May 1900. The yearly increasing virulence of Plague has been mentioned in previous years. In the period of report also the nature of the disease was most virulent.

Complications were present in greater frequency and the mortality rate was higher. Relapsing Fever also is stated to have become severe in its fatality, "not so much from a change in its type and virulence as from the low and debilitated condition of the lower classes in whom it mostly prevails." Later on Dr. Choksey remarks that it is now found that Relapsing Fever is not, as was at one time thought, a disease peculiar to the lower classes only, and he instances the fact that it has been observed among Parsees. It is presumed these cases were observed outside the hospital, since figures given in the report show that out of a total of 4,499 patients received in the hospital, the Hindus numbered 4,101 and Parsees only 2, both of whom recovered. Cholera also appears to have been more virulent, the mortality rate being 76 against 71 in 1899. The Small-pox mortality in the hospital for the twelve months of 1900 was 26·59 against 13·95 for the twelve months of 1899. 9 patients died of measles out of 64 admitted for the disease, giving a death-rate of 14. Out of 149 patients admitted for Chicken-pox only one died.

Education.

50. The Joint Schools Committee had in hand, at the beginning of the year, the large balance of Rs. 64,639 which has accumulated as, owing to the closing of schools and other disorganization caused by plague, it was unnecessary to spend full budgetted amounts under various heads. The receipts for the year aggregated Rs. 1,38,973, of which Rs. 80,000 was the Municipal and Rs. 42,666 the Government contribution. The fee receipts came to only Rs. 15,766 or about 11 per cent. of the total expenditure of the year, which amounted to Rs. 1,41,281. The balance at the end of the year stood at Rs. 62,331. With this large sum available for expenditure in addition to the ordinary receipts, the Committee will, no doubt, be able to make many improvements in their schools.

51. One Gujarati school was closed during the year and two new Urdu schools opened, making the total number of Municipal schools 82. In these 5,484 pupils were taught at an average cost per head of 21·9 against 5,018 in the previous year at an average of 21·9. By increasing the scale of salaries the Committee are endeavouring to attract a

better class of teachers to their schools. A beginning has been made with the Kindergarten method of instruction. Revised standards of primary education, which include the rudiments of English for the higher standards, have been framed and submitted to the Corporation for approval. It has been arranged to put the pupils through a course of light physical training under the supervision of a special drill master. The commodious and healthy housing of schools has received attention.

52. Besides maintaining their own schools, the Committee gave grants-in-aid to 90 schools against 89 in the previous year. The pupils in these schools increased from 6,651 to 7,773. The total amount paid as grant-in-aid was Rs. 15,927, besides a fixed annual grant of Rs. 5,000 paid to the Anjuman-i-Islam schools.

Audit.

53. There is nothing calling for special notice in the report of the Municipal Auditors. The Report does not show whether the securities given by the Municipal Officers and servants are annually verified by the Auditors as required by Corporation Resolution No. 2930, dated the 15th June 1891.

Conclusion.

54. Before concluding this review the Standing Committee must take note again of the efficiency of Mr. Harvey's administration, and they record with gratification his recent appointment to a Companionship of the Order of the Indian Empire.

T. W. CUFFE,

Chairman of the Standing Committee.

BOMBAY, 11*th December* 1901.

Annual Administration Report of the Municipal Commissioner for the City of Bombay for the Year 1900-1901.

Introductory.

Mr. W. L. Harvey, I.C.S., continued to hold the appointment of the Municipal Commissioner during the year and was on privilege leave from 7th November 1900 to 18th December 1900, both days inclusive, during which period Mr. J. Sladen, B.A. (Oxon), I.C.S., acted for him.

2. The general health of the City was not satisfactory, chiefly owing to plague, cholera, and small-pox.

3. No circumstances arose in any Department of the Municipality in which it was necessary to put into operation the provisions of the Municipal Servants' Act.

I.—Corporation and Standing Committee.

CORPORATION.

4. Mr. C. T. Burke, B. E M. INST. C. E. was appointed President of the Corporation at the Meeting of the 5th April 1900, and held that appointment until the 20th December 1900. Mr. S. Rebsch, M. INST. C. E., was appointed on the 7th January 1901, and he held the appointment for the remainder of the year.

5. Sixty-four Meetings of the Corporation, one attendance of Councillors for the presentation of an address to H. E. Lord Curzon, Viceroy and Governor-General of India, on his visit to Bombay, and ninety-one Meetings of Committees of the Corporation were held.

6. The changes in the *personnel* of the Corporation were as follows :—

Mr. C. T. Burke resigned on the 20th December 1900. Mr. S. Rebsch was appointed in his place by Government Resolution No. 6650, dated the 24th December 1900.

Mr. Abdul Hussein Adamji Pirbhoy left for Persia on the 19th February 1900, and returned on the 10th September 1900.

*Mr. H. O. Campbell resigned on 3rd May 1900. Dr. Dimmock was appointed in his place by Government Resolution, No. 2645, dated the 15th May 1900. Mr. Campbell was re-appointed by the Chamber of Commerce in place of Mr. T. W. Cuffe who resigned on 29th March 1900. Mr. Campbell again resigned on 21st January 1901.

Sir George Cotton, Kt., resigned on 18th May 1900. Mr. John R. Greaves was appointed in his place by the Chamber of Commerce on 19th May 1900.

Mr. Hasambhai Visram left for Europe on the 30th April 1900 and returned on the 22nd November 1900.

Mr. Hormusji S. Vakil left for England on the 20th June 1900 and returned on the 6th December 1900.

Mr. Kaikhosro N. Kabraji left for England on the 11th May 1900 and returned on the 8th November 1900.

Mr. Karimbhai Adamji Pirbhai left for England on the 28th July 1900 and returned on the 19th November 1900.

Mr. G. Lund left for England on the 13th October 1900 and returned on the 25th January 1901.

Mr. A. McKenzie left for England on the 4th May 1900 and returned on the 6th December 1900.

Professor O. V. Muller left for England on the 5th March 1900 and returned on the 11th March 1901.

THE STANDING COMMITTEE.

7. Mr. Mulji B. Barbhaya was appointed Chairman of the Standing Committee at the meeting held on the 4th April 1900 and held that appointment throughout the year.

8. There were fifty-two meetings of the Standing Committee and eighteen meetings of the Sub-Committees thereof; and two Sub-Committee meetings were convened but not held for want of a quorum.

9. There were one hundred and ten attendances of members for signing cheques, and fifty for the audit of Municipal Accounts.

10. The changes in the *personnel* of the Committee were as follows:—

Mr. George Lund was elected by the Corporation on the 19th April 1900 in place of Professor O. V. Muller, resigned.

11. The following is the list of the Municipal Councillors who held office on the 31st March 1901:—

S. REBSCH, MR., M. INST. C. E., *President*, J. P., *G.*

ABDUL HUSSEIN ADAMJI PIRBHAI, MR., J. P. *R* (C Ward)
ARDASIR FRAMJI UNWALLA, MR., B.A., J. P. *R* (G Ward)
BADRUDIN BIN ABDULA KUR, MR., J. P. *R* (C Ward)
BHAGWANDAS NAROTAMDAS, MR., J. P. *R* (F Ward)
SIR BHALCHANDRA K. BHATAWADEKAR, KT., L. M., J. P. *R* (D Ward)
BOMANJI BYRAMJI PATEL, KHAN BAHADUR, J. P. *J*
BYRAMJEE NUSSERWANJEE SEERVAI, MR., J. P. *G*
CAMPBELL, H. O., MR., *C C.* (Resigned on the 21st January 1901, and no one appointed in his place)
CHIMANLAL H. SETALWAD, MR, B.A., LL.B. J. P. *J*
COWASJEE HORMUSJEE, MR., G.G.M.C., J. P. *J*
DARASHAH RATANJI CHICHGAR, KHAN BAHADUR, J. P. *J*
D'MONTE, DOMINICK A., MR., M.D., L.R.C.P. (London), L. M. & S., M.R.C.S., L.M. F.S.A., F.R.G.S., M.R.A.S., J. P. *J*
DeSILVA DIAGO MANUAL, MR., L. M. & S., *R* (C Ward)
DHAKJI KASHINATHJI, RAO BAHADUR, J. P. *R* (C Ward)
DIMMOCK, H. P. LIEUT.-COL., M. D. (Durham), M.R.C.S., L.R.C.P., L.M.S. *G*
DINSHA BOMANJI MASTER, MR., L.M. & S., J. P. *J.*
DINSHA EDULJI WACHA, Mr., J. P. *R* (A Ward)
ELAPPA BALARAM, RAO BAHADUR, J. P. *R* (E Ward)
F. SORABJI TALEYARKHAN, MR., J. P. *J*
FAZALBHAI JUMABHAI LALJI, MR., *R* (B Ward)
FAZALBHAI KARIMBHAI IBRAHIM, MR., *R* (B Ward)
FAZULBHAI VISRAM, MR., C.I.E., J. P. *G*
GELL, H. G., MR., J. P. *J*
GOVERDHUNDAS KHATAV, MR., J. P. *G*
GREAVES, JOHN R. MR., J. P. *C C*
HARI SITARAM DIKSHIT, MR., B.A., LL.B., *R* (D Ward)
HASAMBHAI VISRAM, MR., J. P. *J*
HORMUSJI CURSETJI COORLAWALLA, MR., J. P. *J*
HORMUSJI SHAPURJI VAKIL, MR., J. P. *R* (D Ward)
HURKISONDAS NAROTUMDAS, MR., J.P. *G*
IBRAHIM RAHIMTOOLA, THE HON'BLE MR., J. P. *R* (B Ward)
ISMAIL JAN MAHOMED, MR., L. M. & S., J. P. *R* (B Ward)
JAFARBHAI RAHIMTULA, MR., B. A., BAR-AT-LAW., *R* (B Ward)
JAMSETJI CURSETJEE JAMSETJI, MR. J. P. *J.*
SIR JAMSETJEE JEJEEBHOY, BART. J. P. *G*
KAIKHOSRO NOWROJI KABRAJI, MR., J. P. *J*
KALABHAI LALUBHAI, (MR.) J. P. *G*
KALIANDAS KESHAVDAS, MR., B.A., J. P. *R* (A Ward)
KARIMBHAI ADAMJI PIRBHAI, MR. *R* (G Ward)
KARSANDAS CHABILDAS, MR., *R* (C Ward)
KAVASJI EDALJI DADACHANJI, MR., L.M. & S. *R* (D Ward)
K. M. SHROFF, MR., J. P. *R* (A Ward)
KAZI KABIRUDIN, MR., *R* (E Ward)
KENNEDY, H., MR., *G*
KER, L. B., MR., G
KHARSEDJI NASARWANJI WADYA, MR., *R* (F Ward)
LUND, G., MR., J. P. *J*
MACDONALD, JAMES. MR., J. P. *G*
MANMOHANDAS RAMJI, MR., J. P. *R*, (C Ward)
MAYNE, C. B., MAJOR R. E. *G*
McKENZIE, A., MR., J. P. *G*
MIR AUN ALI, MR., BAR.-AT-LAW, J. P. *R* (A Ward)
MIRZA HUSSEIN KHAN, MR., J. P. *G.*
MULJI BHOVANDASS BARBHAYA, MR., J. P. *G* Chairman, Standing Committee.
MULLER, O. V., PROF., M.A., J. P. *U*
NANABHAI NAVROJI KATRAK, MR., L. M. & S., J. P. *R* (A Ward)
NOWROJI JEHANGIR GAMADIA, MR., J. P. *R* (A Ward)
PESTONJI NASSARWANJI WADIA, MR., J. P. *J*
PHEROZESHAH M. MEHTA, THE HON. MR., M.A., C.I.E., J. P. *J*
RAHIMTULLA KHAIRAZ, MR., J. P. *R* (B Ward)
RAHIMTULLA MOHAMED SAYANI, MR., M.A., LL. B., J. P. *G.*
RASTAM K. R. KAMA, MR., B.A., LL.B. *U*
SARAFALI MAMUJI, MR., *R* (E Ward)
SORABJI KHARSETJI DHONDI, MR., *R* (E Ward)
SUNDERNATH D. KHOTE, MR., J. P. *R* (D Ward)
TRIBHOWANDAS MUNGULDAS, NATHOOBHOY, MR., J. P. *R* (C Ward)
UNDERWOOD, EDWARD FREEMAN, MR. M. A., M.D., PH.D., F. R.M.S., F.M.S., J. P. *J*
VIEGAS, ACCACIO GABRIEL, MR., L.M. & S., J. P. *R* (B Ward)
VITHALDAS DAMODAR, MR., J. P. *R*, (C Ward)
VITHALRAO KRISHNAJI VANDEKAR, RAO BAHADUR, J. P. *R* (B Ward)
HAJI YOOSOF HAJI ESMAIL, MR., J. P. *R* (E Ward)

M. N. WADIA, MR., B.A., J. P., Municipal Secretary.

NOTE.—The letters against the names signify—*R.* that the member was elected by the Ratepayers; *J.* by the Bench of Justices; *C C*, by the Chamber of Commerce; *U*, by the University and *G*, appointed by Government.

II.—Heads of Departments.

12. Mr. M. N. Wadia, Municipal Secretary, was on privilege leave from 18th April to 22nd June 1900, and Mr. L. W. Michael, Assistant Assessor, was appointed to act for him.

13. Mr. W. E. Waite, Chief Accountant, was on leave on medical certificate up to 19th May 1900, during which period Mr. W. Pearson, Revenue and Refund Audit Officer, continued to act for him, Mr. Sorabji Bomanji Master, Superintendent of Licenses, continuing to act as Revenue and Refund Audit Officer, and Mr. Behramji Dorabji Banaji, 1st Assistant Assessor, as Superintendent of Licenses.

14. Mr. N. B. Masani, Secretary, Joint Schools Committee, was granted furlough for 6 months from 10th May to 9th November 1900, and Mr. R. S. Taki, Deputy Educational Inspector, Marathi Schools, was appointed to act for him.

15. The services of Col. T. S. Weir, I.M.S., having been replaced at the disposal of the Government of India, Mr. J. Leask was appointed Acting Executive Health Officer. He held the appointment from 26th June 1900 to 23rd February 1901, when Dr. John A. Turner, M.B., D.P.H., assumed charge of the office of the Executive Health Officer, as per Corporation Resolution No. 9266 of 19th November 1900.

16. Dr. W. Venis, Divisional Health Officer, No. 3 Division, was on privilege leave from 15th November 1900 to 19th December 1900, during which period Dr. Sorab C. Hormasji, Divisional Health Officer, No. 4 Division, held charge of that division in addition to his own duties.

17. Mr. R. P. Brunton, Assessor and Collector, having proceeded on privilege leave for 3 months from 21st April to 20th July 1900, Mr. J. Leask, Divisional Health Officer, No. 2 Division, was appointed to act for him up to the 25th June, and Mr. W. Pearson, Revenue and Refund Audit Officer, from 26th June to 20th July 1900, during which latter period Mr. R. N. Coyaji acted as Revenue and Refund Audit Officer.

18. During Mr. Leask's deputation to the Assessment Department, Dr. K. B. Shroff, Deputy Health Officer, acted as Divisional Health Officer, No. 2 Division, and continued to hold the appointment till Mr. Leask's reversion.

19. Mr. H. Holmes, Assistant to Commissioner, was on privilege leave from 8th February to 7th April 1900, and Mr. Anandrao Waman Shete, Head Clerk to the Commissioner, was appointed to act for him.

20. Mr. Douglas Bennett, Superintendent of Markets, was allowed 2 months' privilege leave from 21st April to 20th June 1900, during which period Mr. H. Holmes was appointed to act for him and Mr. Anandrao Waman Shete was appointed to act for Mr. Holmes.

21. Mr. C. C. James, M.I.C.E., Deputy Executive Engineer, Drainage, was in charge of the Ordinary Drainage Works from 1st April to 21st July 1900, and after the death of Mr. James W. Smith, M.Inst. C.E., which occurred on the 21st July 1900, Mr. James was placed in charge of the Special Drainage Works in addition to his own duties from 23rd July to 31st October 1900.

22. The Special Drainage Department was placed under the Executive Engineer as a branch of his department under the Resolution of the Municipal Corporation, No. 5983, of 27th August 1900, and Mr. C. C. James was placed in charge of that branch with the designation of Deputy Executive Engineer, Drainage, Special Branch.

23. Mr. C. C. James was allowed 1 month and 19 days' privilege leave from 7th May to 25th June 1900, and 4 days' leave without pay in continuation thereof up to 29th June 1900.

24. Mr. Maneckji Sheriarji Bharucha, L.C.E., Assistant Engineer, General Branch, was placed temporarily in charge of the Ordinary Drainage Branch from 1st November 1900 until the arrival from England of Mr. Nicholas Maughan, C.E., who was appointed Deputy Executive Engineer, Ordinary Drainage Branch, on the 26th January 1901.

25. Mr. A. Fairlie Bruce, M.I.C.E., Deputy Executive Engineer, Water Works, was allowed privilege leave for 3 months from 3rd January 1901 and 2 days' leave without pay in continuation thereof, and Mr. Nasserwanji Dorabji Bhada, L.C.E., M.I.C.E., was appointed to act for him.

III.—Financial.

I.—General.

General results.

*26. The transactions of the year resulted in a deficit of Rs. 1,81,210-3-2, the Income amounting to Rs. 84,02,848-4-2 and the Expenditure to Rs. 85,84,058-7-4. If allowance be made for the outstandings at the close of the year, which exceeded the outstandings for 1899-1900 by over Rs. 1,90,000, the deficit of the year is converted into a slight surplus.

Working Cash Balance.

*27. The working cash balance (excluding reserve stock) closed at Rs. 29,83,701 against an opening balance of Rs. 30,51,734. The reduction during the year, therefore, amounted to Rs. 68,033. The reduction would have corresponded with the deficit for the year, had it not been that a sum of Rs. 1,13,177 was set free by a decrease of the capital locked up in reserve stores from Rs. 8,33,634 to Rs. 7,20,457.

Surplus cash balance.

28. Of the closing working cash balance of Rs. 29,83,701, Rs. 14,93,218 represents recoverable advances made for plague and administrative purposes, and Rs. 8,16,939, the sum required for the renewal of lapsed grants for 1900-1901 and previous years. The unhypothecated balance at the close of the year thus aggregated Rs. 6,73,544. The sum of Rs. 14,93,218 being treated as a recoverable advance, the surplus cash balance, *excluding* the one lakh required by law, available for further expenditure stood at the close of the year at Rs. 20,66,762 as brought out in Appendix No. 8 to the Chief Accountant's report. To this surplus cash balance *as booked* has to be added the excess of outstandings at the close of the year over those at the close of 1899-1900 amounting to Rs. 1,92,672, while allowance has to be made for payment from this source of the deficit of Rs. 4,16,000 provided during 1901-1902, and the contribution to the City Improvement Trust of Rs. 5,00,000 on the 1st of April 1902—a net reduction of Rs. 7,23,328—which brings the available surplus to Rs. 13,43,434. The apparent financial prosperity of the Municipality here indicated is contingent, however, on the total advances amounting to Rs. 12,98,478 made from revenue sources to finance plague being recouped to revenue either by loan or by contribution from Government or from both these sources.

II.—Income.

Income Outstandings.

29. A just appreciation of the income of the Municipality during the year either as compared with the estimates or with the preceding year is impossible without taking into consideration the heavy outstandings at the close of the year, which were in excess of those at the close of 1899-1900 by the following sums :—

	Rs.
General Tax	96,402
Water Tax, &c....	39,407
Halalkhore Tax	49,769
Wheel Tax	7,094
Total Rs. ...	1,92,672

Actuals with Estimates.

30. Allowing for this disturbing factor, which could not under any circumstances be foreseen, the income for the year aggregating Rs. 84,02,848 is increased to Rs. 85,95,520, and shows an advance on the original budget estimate of Rs. 75,520, and a slight decrease on the revised estimate of Rs. 2,480. These results ensue notwithstanding the fact that the amount charged for water consumed by Municipal Departments was less than the estimates by Rs. 1,08,925. In "Taxation proper" (with the exception of Town Duties), in "Services rendered," and in "Returns from Property and Miscellaneous," expectations were realized and the actuals in the more important sources of our income approximated very closely to, or exceeded the estimates. "General Tax" realized Rs. 7,618 more than the original estimate, while if allowance be made for the heavier outstandings at the close of the year, the deficit of Rs. 92,382 on the revised estimate is converted into a surplus of Rs. 4,020. So with the receipts from "Services rendered," which as booked show a falling off on the original estimate of Rs. 1,90,926 and on the revised estimate of Rs. 1,95,926—decreases which disappear when we take into consideration the larger outstandings at the close of the year amounting to Rs. 89,176 and the reduction of Rs. 1,08,925 in the charge for inter-departmental supplies of water. The "Returns from Property and Miscellaneous" give large increases in "Market" and "Miscellaneous receipts" and in the "Interest on the investment of surplus loan and other balances."

The most serious fluctuations in the income for the year were in "Town Duties," which show a decrease on the original budget estimate of Rs. 1,03,629, and an increase on the revised estimate of Rs. 46,371. These variations are due to the refunds made during 1900-1901 (in consequence of the heavier imports owing to famine during the preceding year) not having been anticipated when preparing the budget estimate and having been over-estimated in the revised estimate.

Comparison with income of 1899-1900.

31. As compared with the receipts during the preceding year, which aggregated Rs. 88,29,817, the income for the year shows a nominal falling off of Rs. 4,26,969—nominal inasmuch as the outstandings at the close of the year under review were greater by Rs. 1,92,672 than in the preceding year, and the heavy revenue derived from exceptional causes from "Town Duties" in 1899-1900 reacted unfavorably upon the income for the year under report, the decrease in the net receipts for "Town Duties" alone amounting to Rs. 4,63,350. The more stable sources of our income such as "Taxation proper" and returns for "Services rendered" (when due allowance is made for heavier outstandings at the close of 1900-1901), either show an increase or have during the year maintained the high level they reached in 1899-1900. Excluding Town Duties, the income from "Taxation proper" expanded by Rs. 1,15,718, while in the receipts from "Services rendered," the nominal decrease of Rs. 48,156 is, by allowing for heavier outstandings, converted into an increase of Rs. 41,020. In the words of the Chief Accountant "it may "be stated that allowing for outstandings and non-recurring "factors of increase and decrease, the results indicate "a substantial increase of about one and a half lakhs "in the stable sources of our income."

III—Expenditure.

Comparison of expenditure with allotments.

32. The total sum finally allotted for expenditure during the year aggregated Rs. 96,57,651. The expenditure amounted to only Rs. 85,84,058, thus leaving an unexpended balance of Rs. 10,73,593, of which Rs. 8,16,939 are to be renewed for expenditure in 1901-1902 and following years. The gross savings on the final allotments thus amounted to

Rs. 2,56,654. Out of this sum, Rs. 1,08,925 represents inter-departmental charges for water which were not levied, and the actual savings are thus reduced to Rs. 1,47,729. The completion of new works within the amount of their allotments accounts for Rs. 20,823 of the saving, and of the balance, Rs. 92,859 accrued in the Public Works Department, Rs. 95,768 in the Public Health Department, and Rs. 16,570 in grain compensation.

Comparison of expenditure during 1899-1900 and 1900-1901.

33. As compared with the year 1899-1900, the expenditure during 1900-1901 shows the very material increase of Rs. 11,91,579 distributed as follows :—

	Rs.
General Superintendence	30,401
Assessment and Collection Department...	53,869
Public Works Department	85,516
New Works	13,764
Public Health Department	1,38,035
Miscellaneous...	1,63,955
Contribution to the City Improvement Trust	4,74,605
Municipal Debt	1,63,041
Investments	23,084
Rebate...	42,771
Total Rs.	11,89,041

Permanent additional expenditure.

34. The variations between the two years have been fully dealt with by the Chief Accountant in para. 29 of his report, from which it will be seen that during the year the increase in expenditure, which, as far as can be seen at present, will form a permanent addition to the revenue liabilities, amounted to Rs. 8,32,000. The gradual extension of house connections in the City, the greater consumption of coal for sewerage pumping purposes and the opening of a new air-compressor station at Love Grove necessitated an extra expenditure of Rs. 28,000. The re-organization scheme of the Health Department having been still more extensively introduced during the year, resulted in an increased expenditure of Rs. 79,000, and the scheme for the disposal of town sweepings at Devnar, which was in operation for only 9 months in 1899-1900 against the full year in 1900-1901, threw an additional burden of Rs. 29,000 on the tax-payer. A small increase of Rs. 4,000 in the expenditure on "Dispensaries" is noticed only because of the recognized benefit which gratuitous relief to the poor, limited though it is at present, has conferred. The payment of the first

contribution to the City Improvement Trust imposed an additional charge of Rs. 4,74,605 on the City, and owing principally to the raising of an additional sum of Rs. 50 lakhs in 1899-1900 the interest, &c., charges for the year under review advanced by Rs. 1,77,000.

Special and non-recurring expenditure.

35. In addition to the permanent increased expenditure of Rs. 8,32,000, which is dealt with above, increases occurred amounting to Rs. 3,59,579 owing to causes which might be termed special and non-recurring. Of these slightly over Rs. 46,000 was due to commission payable on Town Duty collections, the gross income from which was heavier than in 1899-1900, Rs. 20,000 was in connection with affixing meters to properties and nearly Rs. 51,000 was incurred on the discharge of liabilities in connection with "street improvement." The outlay on "new works" was in excess of the previous year by nearly Rs. 14,000 and additional expenditure amounting to Rs. 33,000 was incurred on the Health Department owing to the payment of arrear charges for 1899-1900 and to special expenditure in connection with gully flushing and water supply. The further additional outlay calling for special mention was an increase of Rs. 1,58,760 in miscellaneous expenditure composed of extra payments of pensions and compassionate allowances, amounting to Rs. 9,894, triennial election expenses aggregating Rs. 7,120, the payment of grain compensation involving additional expenditure to the extent of Rs. 1,17,371, and a special write-off of depreciation on stores amounting to Rs. 24,375.

IV. Loan and Plague Expenditure.

Loan works expenditure.

36. The loan expenditure of the year, excluding that on plague measures, aggregated Rs. 8,44,135 against Rs. 9,19,915 in the preceding year and was distributed thus :—

	Rs.
Sewerage and Drainage Works	7,20,185
Water Works	3,025
Roads	30,545
Sanitary and Minor Works	90,380
Total Rs.	8,44,135

37. The amount expended from Municipal funds on plague operations during the year totalled Rs. 6,80,425. In addition to this Rs. 59,817 were spent from the contributions received from Government for the construction of Health Camps and for discretional relief, raising the total plague expenditure for the year to Rs. 7,40,242. The corresponding figure for the preceding year was Rs. 9,53,969. There was thus a satisfactory decrease during the year of Rs. 2,13,727. Plague expenditure.

From the commencement of operations to the close of the year the expenditure on plague measures aggregated Rs. 53,13,780 distributed thus :—

	Rs.
Ordinary plague measures	50,77,738
Camps built from Government funds	1,25,921
Discretional relief	1,12,121
Total Rs.	53,15,780

The expenditure was financed as follows :—

	Rs.
A.—From Municipal funds—	
By loan	12,00,000
By overdrawal from existing loan balances....	11,29,260
By advances from Revenue General Balances.	12,98,478
	36,27,738
B.—From Government Funds—	
By contribution toward general plague expenses.	14,50,000
By contribution for camps	1,25,921
By contribution for discretional relief ...	1,12,121
	16,88,042
Grand Total Rs.	53,15,780

V. Debt and Sinking Fund.

38. During the year 12 lakhs were raised by loan, 6 lakhs from the public, at an average rate of Rs. 96-6-8 per cent. and 6 lakhs from local banks at Rs. 95⅞ per cent. net. The discount paid amounted to Rs. 46,238. Debt and Sinking Fund.

The original intention was to raise 30 lakhs, but owing to the funds in hand being greater than anticipated, the sum was reduced by 18 lakhs. This sum included Rs. 6 lakhs on account of the first instalment of the 24¾ lakhs Loan, which was intended to be taken up by the Municipality for the investment of the Sinking Funds of the different 4 per cent.

Municipal Loans and Surplus moneys. Owing, however, to the sanction of Government not having been received up to the close of the year, this intention could not be carried out, and the total amount of the Loans raised during the year amounted to Rs. 12 lakhs only.

The capital debt during the year being reduced by the discharge of principal to the extent of Rs. 91,125, the net addition to debt during the year aggregated Rs. 11,08,875. The debt which at the beginning of the year amounted to Rs. 4,32,95,885 thus stood at the close of the year at Rs. 4,44,04,760, of which Rs. 24,88,260 were due to Government and Rs. 4,19,16,500 to the public.

The Sinking Fund was augmented during the year by Rs. 4,14,868 and stood at the close of the year at Rs. 30,48,527, against Rs. 26,33,659 at the beginning of the year. Taking this cash asset as a set-off against the total gross debt owing by the Municipality, the net debt liability is reduced to Rs. 4,13,56,233.

VI.—Assets and Liabilities.

Assets and Liabilities.

39. The assets and liabilities of the Municipality at the close of the year compare as follows :—

Assets	Rs.	6,06,80,111
Liabilities	„	4,50,52,756
Excess of assets over liabilities ...	Rs.	1,56,27,355

Of the liabilities Rs. 4,44,04,760 form the gross debt due by the Corporation ; Rs. 5,50,328 are deposits, Rs. 79,798 represent charges admitted but not paid, and a small item of Rs. 17,870 makes up the balance.

The assets are composed of the following : —

A. Cash and paper available for expenditure on revenue and capital projects—

		Rs.
(1)	Cash balance	4,07,688
(2)	Surplus cash deposit	15,22,791
(3)	Loan funds...	20,15,894
		39,46,373
B.	Sinking Fund Investments	30,48,527
C.	Special Funds Investments	5,94,765
D.	Advances recoverable and Paper deposit ...	4,02,740
E.	Reserve Stock	7,20,457
F.	Properties	5,19,67,249
	Total Rs.	6,06,80,111

As compared with the preceding year, there is a decrease in the excess of assets over liabilities of Rs. 12,47,904 due principally to the write-off of plague expenditure amounting to Rs. 23,47,313 which last year was treated as an asset, but has now been excluded as not representing any tangible asset, and to the contribution of Rs. 14½ lakhs from Government having been deleted from the liabilities in consequence of the provisional payment towards plague expenses by Government having been converted into a final contribution.

While the liabilities are correctly represented at Rs. 4,50,52,756, the assets require investigation owing to the values assigned to properties and reserve stock not having been revised for years, to properties which no longer exist not having been written off, and owing to the non-inclusion of properties which have been acquired from revenue sources.

VII.—Special.

Reserve Stock Account.

40. Attention is drawn (1) to the large reduction made in the reserve stock balances, and (2) to the continued loss in the working of the Water Works. At the end of the year the reserve stores balances stood at Rs. 7,20,457 against Rs. 8,33,634 at the beginning of the year. I agree with the remarks of the Chief Accountant that a still further reduction is undoubtedly possible and will be obtained when the Water Works stores are systematically examined and the Drainage stock reduced to market rates.

Water Works Account.

The loss on the working of the Water Works during the year aggregated Rs. 2,56,481, showing an increase on the loss in the preceding year of Rs. 1,55,856. Part of this was due to the outstandings on account of Water Works revenue being nearly Rs. 40,000 heavier than in the preceding year. More careful estimating and a stricter observance of the law will, in future years, it is hoped, make the repetition of such heavy losses an impossibility.

Net Revenue and net expenditure.

41. As required in the Standing Committee's Resolution No. 12212, dated 2nd February 1892, the net revenue and net expenditure for 1900-1901 and the preceding year are given in the following statement:—

Particulars.	1899-1900.			1900-1901.		
	Rs.	a.	p.	Rs.	a.	p.
Net Revenue after deducting Refunds, Drawbacks and charges in respect of Assessment and Collection and granting of Refunds.						
General Tax	27,79,456	12	10	28,01,342	0	10
Water Tax and other Miscellaneous Water Works Revenue	2,22,728	2	5	1,05,593	2	11
Wheel Tax and Tolls	2,95,372	12	8	3,09,269	15	9
Town Duties	15,16,123	4	1	9,99,270	11	5
Receipts from Government for Liquor Licenses and Tobacco Duty	3,65,087	15	3	3,60,679	8	0
Market Receipts	2,28,847	6	9	2,19,684	3	5
Returns from other Property and Miscellaneous	2,33,933	5	1	2,72,880	4	6
Net Receipts...Rs.	56,41,549	11	1	50,68,719	14	10
* **Deficit** ... ... Rs.	.....			**1,81,210**	**3**	**2**
Total... Rs.	56,41,549	11	1	52,49,930	2	0
Net Expenditure after deducting Receipts.						
General Superintendence	1,72,689	13	8	1,98,637	0	6
Fire Brigade	731	11	11	1,759	9	0
Public Gardens	67,486	1	8	62,251	7	5
Public Works (Engineer's Department, excluding Water Works)	12,98,958	14	1	13,52,590	2	9
New Works (excluding Water Works) ...	54,553	3	9	55,369	0	2
Public Health Department (excluding Markets)	10,44,449	3	3	11,89,058	4	1
Municipal Debt (excluding Water Works).	8,59,125	8	10	9,94,707	12	1
Police	5,00,000	0	0	5,02,454	12	3
Education	1,11,990	9	1	1,11,930	2	0
Hospitals	54,997	4	2	58,976	10	10

Miscellaneous...	35,394	14	2	1,91,418	11	9
Contribution to the City Improvement Trust	.....			4,74,605	0	0
	42,47,906	6	10	52,50,852	8	10
Less—Rebate to current revenue... ...	43,694	5	7	922	6	10
Net Expenditure... Rs.	42,04,212	1	3	52,49,930	2	0
Surplus	**14,37,337**	**9**	**10**	.....		
Total Rs.	56,41,549	11	1	52,49,930	2	0

42. The revenue, expenditure and balances of the last five years have been contrasted in the following table :—

	1896-97.	1897-98.	1898-99.	1899-1900.	1900-1901.
	Rs.	Rs.	Rs.	Rs.	Rs.
Revenue	62,08,978	67,08,506 *c*	71,61,911 *f*	88,29,817 *j*	84,02,848 *m*
Expenditure	70,04,743 *a*	70,59,914 *d*	73,39,026 *g*	78,92,479	85,84,058 *n*
Closing balance (including recoverable advances to Loan Works, Reserve Stock, &c., and excluding minor deposits, &c.) ...	29,76,553 *b*	26,25,144 *e*	24,48,030 *h*	38,85,368 *k*	37,04,157 *o*
Add—Recoverable Revenue Outstanding	2,75,000	83,000	1,00,000	1,68,000	3,56,000
	32,51,553	27,08,144	25,48,030	40,53,368	40,60,157
Deduct—Uncompleted Works, &c., the unexpended balances of the grants for which were required for payment in the following year ...	6,71,162	5,20,070	7,49,471 *i*	9,34,073 *l*	8,16,939
Net workable balance available for requirements of the following year...	25,80,391 *b*	21,88,074 *e*	17,98,559 *h*	31,19,295 *k*	32,43,218 *o*

a Including Rs. 4,37,055-0-1 on account of Plague expenses debited to revenue in 1896-97.

b Excluding Rs. 9,01,841 on account of the value of Reserve Stock on hand on 31st March 1897, the net closing balances amounted to Rs. 20,74,712 and Rs. 16,78,550.

c Excluding Rs. 4,37,055-0-1 on account of rebate to current Revenue in respect of Plague expenses incurred in 1896-97, which has been shewn by a deduction from the expenditure. The sum of Rs. 67,08,506 includes over Rs. 2½ lakhs on account of outstandings recovered.

d Includes Rs. 5 lakhs on account of Plague expenses debited to Revenue in 1897-98 and a rebate of Rs. 4,37,055 on account of Plague Expenses debited to Revenue in 1896-97.

e Excluding Rs. 9,03,587 on account of the value of Reserve Stock on hand on 31st March 1898, and Rs. 8,12,546 on account of net advance made for the purchase of frontage lands in the Agripada, &c., Estate, the net closing balances amounted to Rs. 9,09,011 and Rs. 4,71,941.

f In this year the General Tax was increased from 8½ to 9½ per cent. and the Town Duties on Grain, Firewood and Ghee were increased from annas two per candy, anna one per candy, and annas eight per maund to annas four per candy, annas two per candy and annas ten per maund, respectively.

g Includes a debit of Rs. 8,12,546-4-8 on account of the write-off of the net amount advanced for the purchase of frontage lands in the Agripada, &c., Estate and a credit of Rs. 5 lakhs on account of rebate of Plague expenses debited to revenue in 1897-98.

h Excluding Rs. 8,75,554 on account of the value of Reserve Stock on hand on 31st March 1899, the net closing balance amounted to Rs. 15,72,476 and Rs. 9,23,005.

i Excluding Rs. 70,000, being a portion of the unexpended balance of the grant on account of compensation for insanitary buildings demolished, which was subsequently treated as a saving.

j In this year the General Tax was raised from 9½ to 12½ per cent. and the duty on grain was increased from 4 annas to 6 annas per candy. The amount of Rs. 88,29,817 included an abnormally high revenue from Town Duties amounting to about Rs. two lakhs and a quarter.

k Excluding Rs. 8,33,634 on account of the value of Reserve Stock on hand on 31st March 1900, the net closing balance amounted to Rs. 30,51,734 and Rs. 22,85,661, respectively.

l Excluding Rs. 17,838 on account of certain lapsed grants not renewed in 1900-1901.

m The outstandings of rates and taxes at the close of the year amounted to Rs. 3,74,234 against Rs. 1,81,562 in the preceding year.

n Includes Rs. 4,74,605 on account of the first contribution paid to the City Improvement Trust and increased expenditure under Municipal Debt, Public Health and Engineer's Departments, &c., and grain compensation to Municipal employés.

o Excluding Rs. 7,20,457 on account of the value of Reserve Stock on hand on 31st March 1901, the net closing balances amounted to Rs. 29,83,700 and Rs. 25,22,761, respectively.

IV.—Assessment and Collection of Revenue.

43. The total amount collected under all heads, exclusive of miscellaneous receipts, was Rs. 56,00,542 against the estimate of Rs. 57,83,000, the outstanding balances at the end of the year being Rs. 3,68,242-7-8. The amount of miscellaneous receipts aggregated Rs. 22,823-5-7.

44. The number of properties on the Assessment Book at the close of the year was 53,864 against 53,502 for the preceding year.

45. Complaints against the assessments numbered 2,760.

46. The total demand on account of property taxes amounted to Rs. 57,59,523-15-1 out of which Rs. 1,10,564-13-5 were allowed as 1/5 draw-back on the general tax, the number of claims for the draw-back being 16,422.

47. The demand on account of the tax on private vehicles and animals for the four quarters ending 31st December 1900 was Rs. 1,65,980-3-0. To this may be added Rs. 8,852-3-4 outstanding on the 31st March 1900, and Rs. 657-1-0, being charges for former years, thus making the total of Rs. 1,75,489-7-4 for recovery. The amount collected up to the expiry of the year was Rs. 1,57,778-5-9. 3,357 four-wheeled vehicles, 717 two-wheeled vehicles, 368 vehicles not drawn by horses, 1,400 bicycles, 5,495 horses, 182 ponies, 664 bullocks and 2 donkeys, were taxed during the year.

48. There were 26 appeals to the Chief Judge of the Small Causes Court, out of which 16 were settled by consent, 6 were withdrawn, 3 were allowed or partly allowed and 1 was dismissed.

REVENUE AUDIT.

49. The books and balances of the ward clerks in the seven ward offices were duly examined at the end of each quarter, and the bills checked in detail after comparison with the Head Office Accounts. The Assessment Books in the Head Office were also examined with a view to ascertain that no taxation of property had been evaded. The revenue from public land conveyances was also audited, and the certificates of issue of licenses were duly checked with the Register. The number of claims for 1/5 draw-backs was 16,412

out of which 12,814 were admitted. 8,109 entries relating to alteration in valuation and in demand were checked. The number of complaints against valuations under Section 163 of the Municipal Act, heard by the Revenue and Refund Audit Officer, amounted to 837 against 915 for the previous year, and the number of decisions on complaints against amendments under Section 167 scrutinized amounted to 273.

50. The revenue receipts or vouchers of the different Departments checked are as follow :—

	No. of Receipts.	Amounts. Rs.	a.	p.
Engineering Department ...	7,734	30,790	3	4
Health Department	27,063	59,569	11	0
Licensing Department ...	5,950	64,467	0	0
Markets and Slaughter Houses	14,275	4,16,096	1	4
Victoria Gardens	5,296	7,194	0	0

51. The number of claims for refund for vacancy under Sections 174 to 179 and on account of over collections scrutinized and sanctioned amounted to 1,121, representing Rs. 25,968-2-0.

TOWN DUTIES.

52. The total collections for the year amounted to Rs. 30,84,008-10-4 against Rs. 26,88,002-13-1 in the preceding year. Out of this the amount refunded was Rs. 18,66,982-2-0, showing the net revenue at Rs. 12,17,026-8-4.

53. The number of claims disposed of was 71,699 against 49,362 during the previous year.

V.—Public Works.

SPECIAL DRAINAGE.

54. The Special Drainage Department was placed under the Executive Engineer as a branch of his Department. The works carried out under the supervision of this branch are detailed in the Engineer's report.

55. The machinery at the compressor station and several ejector stations worked satisfactorily during the year.

56. The hearing of the suit brought by the contractors for the construction of Vincent Road against the Municipality, commenced on the 14th February 1901, and was not concluded before the close of the year.

DRAINAGE.

57. *Pumping station at Love Grove, Worlee.*—The engines and pumps worked satisfactorily during the year. There was a stoppage of the pumps for about 7 hours on the early morning of the 26th July 1900. This was immediately remedied. The efficiency of the pumps as tested by monthly observations showed an average of 88·58 per cent. The average daily consumption of coal was 10 tons 17 cwts. 2 qrs. and 10 lbs. against 8 tons 4 cwts. 3 qrs. and 8 lbs. in the previous year. The rent of Rs. 80 per month continued to be realized for the Bungalow rented by the Municipality from Messrs. Tribhuwandas and Jagmohandas Varjiwandas.

HOUSE CONNECTIONS.

58. The street portions of house drainage connections carried out by the contractors numbered 6,002 at a cost of Rs. 1,39,497-14-9.

ELECTROLIZED SEA WATER.

59. The manufacture of electrolized sea water has been discontinued.

60. Several latrines and urinals have been constructed at different places to meet the public convenience.

61. The sluices and penstocks in charge of the Drainage Branch worked satisfactorily. The fixing of the third pair of gates for the Love Grove sluices was completed and that of the fourth pair was in progress at the close of the year.

62. Works in connection with the sanitary arrangements of the various Health Camps, Observation Camps and Plague Hospitals were carried out by the Drainage Branch.

WATER WORKS.

63. *Tansa Lake.*—The rain-fall for 1900 was 104·60 inches against 40·07 inches for 1899. Owing to the early cessation of the rain the Lake fell to 391·6 T. H. D. the lowest level on record. The total quantity of water received in the Lake was 41,888 million gallons or 52 per cent. of the rain-fall on the catchment area of 52·5 square miles. A large number of old trees, which had been left in the

Lake when it was constructed were cut down and removed at the end of the hot weather when the level of the Lake was at its lowest. On the night of the 18th February 1901 a portion of the Tansa Duct gave way. The repairs were executed by the evening of the 28th and water was turned on again in the Duct on the 1st March. One burst on the 48″ pipe necessitated the water being shut off for nearly 36 hours.

64. *Vehar Lake.*—The rain-fall for 1900 was 72·96 inches against 35·26 inches for 1899. The total quantity of rain which fell in the whole drainage area of 3,900 acres was about 6,450 million gallons, of which about 4,650 million gallons reached the Lake, or 72 per cent. of the total rain-fall. The margin of the Lake was thoroughly cleared of weeds which were rooted out as the water receded. Much weed in the deeper parts of the Lake was dredged out and burnt. One burst occurred on the 24″ main.

65. *Tulsi Lake.*—The rain-fall for 1900 was 93·02 inches against 43·80 inches for 1899. The total quantity of rain-fall on the whole drainage area of 1,700 acres was about 3,602 million gallons, of which about 2,778 million gallons reached the Lake or about 77 per cent. of the total rainfall.

66. *Supply and Distribution, &c.*—There were 135 bursts in several mains. 379 new connections were made and 189 connections were cut off for various reasons. The total number of connections is 20,394.

REGULATION OF STREETS AND BUILDINGS.

67. The number of applications for permission to either build or rebuild houses, &c., aggregated 2,248 or 226 more than in the preceding year. 568 notices were issued for the removal of unsafe, dangerous and ruinous buildings which were either partly or wholly complied with. 33 buildings or parts of buildings fell down. In 29 cases no injury was caused, but in the remaining 4 cases 8 persons were injured and 10 killed. 3,840·92 square yards of ground at a cost of Rs. 96,651-5-0 have been added to streets.

ROADS.

68. The area of roads metalled during the year was 63,71,354 square feet at a cost of Rs. 2,42,255-14-7, the rate for metalling working out at 7·3 pies per square foot. The total quantity of road metal purchased was 815,914·11 cubic feet at a cost of Rs. 57,113-15-10.

TRAMWAYS.

69. The Corporation have decided to take over the Tramways from the Tramway Company, but a suit has been filed by the Company in the High Court contesting the right of the Municipality to do so.

PUBLIC LIGHTING.

70. The total number of gas lamps in the City at the end of the year was 3,945 and the total number of kerosine oil lamps was 1,741. The cost of gas lighting amounted to Rs. 2,28,573-15-0 and that of the kerosine lighting to Rs. 30,804-14-8. The total cost of lighting by electricity the Crawford Markets and the Municipal Offices amounted to Rs. 10,580-5-6.

WORKSHOPS.

71. The Municipal Workshops kept in repair numerous articles of plant and machinery used by different Departments, and a large number of new works were executed there. No ground rent was paid to Government during the year and the long standing dispute, as to the right of occupancy of the ground covered by the Workshops, the Municipal Stores, the Health Department Stables and Grant House at the nominal rental previously charged, has now advanced a stage further. A portion of the land comprising a strip of the Workshops Yard and a portion of the General Office and nearly the whole of the Stores Yard and the land on which the Grant House is situated have been handed over to Government. The Collector of Bombay, under orders from Government, presented himself at the Workshops on the 10th December 1900, and demanded possession of the land occupied by the Health Department stables, yard, chawls, &c., and the remaining portion of the Workshops premises, but the possession was refused as advised by the Municipal Solicitors.

72. The Hydraulic Lift worked satisfactorily at a total cost of Rs. 1,699-8-11.

73. The Garlic Incinerator was sold by public auction and pulled down in consequence of the arrangement made for the removal of the city refuse to Deonar and the engine used for driving the blast fan was transferred to the Love Grove Pumping Station for working the electric installation there.

IMPROVEMENT AND DEMOLITION OF INSANITARY BUILDINGS UNDER THE EPIDEMIC DISEASES ACT.

74. 1,809 houses were inspected, of which 1,363 were found more or less in need of improvement, 443 were found incapable of improvement and fit for demolition. In all 144 houses and sheds were demolished. 1,769 notices were issued requiring house-owners to improve their buildings. The overcrowding in houses has been abated in 98 cases.

FIRE BRIGADE.

75. The Fire Brigade was maintained with efficiency. No case of loss of life by fire occurred amongst the members of the Brigade, but several received injuries in the execution of their duties, of whom one fireman was incapacitated and had to be retired on pension. The water-supply at fires was satisfactory.

76. A new van has been provided for conveying men and appliances for the rescue of persons overwhelmed in the debris of fallen buildings.

77. The strength and equipment of the Brigade is as follows :—

Strength.

1	Chief Officer.	13	1st Class Tindals.
2	Clerks.	6	2nd do. do.
1	Head Foreman.	115	Men of grades.
5	Foremen.	8	Drivers.
7	Engineers.	8	Grooms.

Total ... 166

Equipment.

8	Steam Fire Engines.	6	Telescopic Ladders.
8	Manuals.	1	Brake.
16	Hose Reels.	1	Van.
7	Tender Carts.	16	Horses.

371 lengths of delivery hose comprising about 22,260 feet and other necessary fire-extinguishing appliances.

78. The number of calls to fires was 87, of which 11 were false alarms. The estimated damage to property amounted to Rs. 1,99,955, a decrease of Rs. 2,11,744 as compared with the preceding year.

PUBLIC GARDENS.

79. The following gardens were maintained during the year :—

Victoria Gardens.
Elphinstone Circle Garden.
Municipal Office Garden.
Bazar Gate Garden.
Dick's Tank Garden.
Northbrook Garden.
Falkland Road Garden.
Malabar Hill Garden.
Sir Cowasji Jehangir Garden.

80. The total number of visitors to the Victoria Gardens during the year under report was 16,53,639 as against 10,93,868 in the preceding year, showing an increase of 5,59,771. This increase is the largest recorded during the past ten years, and is due to the increasing popularity of the gardens which was this year enhanced by the addition of an ourang-outang and an elephant to the existing attractions. The elephant was obtained through the instrumentality of Sir Bhalchandra Krishna, Kt., from H. H. the Gaekwar of Baroda.

81. Some additional sanitary conveniences for the use of the public are in course of erection.

82. The work of constructing quarters for the smaller carnivora out of the donation of Rs. 4,000, granted by H. H. the Maharaja of Bhownagar, has been completed. It was arranged to construct four wings in the form of a cross, each wing having two cages, but only two wings with four cages have for the present been constructed. This gives accommodation to four different kinds of smaller carnivora.

83. The new deer paddocks were completed during the year under report.

VICTORIA AND ALBERT MUSEUM.

84. Some additions were made to various sections of the museum and the usual care was bestowed upon the preservation of the specimens in the various sections.

85. The museum was open to the public for 312 days and the total number of visitors was 8,24,289 against 6,83,277 during the preceding year. The daily average attendance of visitors was 2,641.

VI.—Public Health.

86. The state of the public health during the year was not satisfactory, the total mortality, exclusive of still-born, being 79,350. This mortality is the highest ever recorded for the City.

87. There were 13,285 deaths from Plague against 15,796 during the previous year. Plague measures have been carried out as before by a separate branch of administration.

88. 1,45,341 cases were treated at the three Municipal Dispensaries, *viz.*, at Kumbharwada, Dongree and Curry Road.

89. A temporary hospital was opened at Grant Road for the treatment of famine-stricken immigrants found suffering from exposure and destitution. Mrs. Adams Wylie has been rendering gratuitous service there. Much valuable work has been done at this hospital, the expenditure being met from funds provided by the Committee of the Bombay Presidency Famine Relief Fund.

90. The preparation of Professor Lustig's curative serum was continued throughout the year at the Municipal Laboratory.

91. On an average 6,862 men and women and 1,188 scavenging and drain carts and 204 night-soil and cesspool carts were at work each day. 3,48,152 tons of garbage, equal to 953·84 tons a day, were collected, removed and disposed of against 3,44,268·5 tons of garbage in the preceding year. 1,72,459·83 tons of night-soil and cesspool matter equal to 473·04 tons a day were collected and removed against 1,70,506·11 in the previous year. 202 miles of covered drains were opened and cleaned against 167·1 miles in 1899. 4,231 notices and 3,271 summonses were issued against 3,924 notices and 2,066 summonses in 1899. There were 14 horses and 2,527 bullocks in charge of the Health Department, of these 3 horses and 180 bullocks died and 131 bullocks were cast and sent to Panjrapole.

92. Three prosecutions were instituted in connection with the adulteration of ghee and convictions obtained in all the cases.

LICENSES.

93. The license fee receipts were Rs. 63,689 against Rs. 63,732-8-0 last year, the number of licenses issued being 5,912 against 5,831.

MARKETS.

94. The total revenue from Markets and Slaughter Houses was Rs. 4,19,096-1-4 against Rs. 4,20,155-13-2 in the preceding year.

95. The quantity of unwholesome food, for the most part meat and fish, destroyed was 1,56,208 lbs. against 1,85,144 lbs. in the previous year.

STREET ACCIDENTS.

96. The number of persons injured and killed in the public streets during the year was 688 and 31, respectively, the number for the preceding year being 524 and 38.

VII.—Education.

97. The Government grant was Rs. 42,666, as in previous years, the Municipal contribution being Rs. 80,000.

98. The Kindergarten method of instruction and light physical training have been introduced in Municipal Schools.

99. Two new Urdu Schools have been opened, one for boys in Rangari Street and the other for girls in Nizampura. The Guzerathi class, opened at Walkeshwar, had to be closed owing to failure of attendance.

100. The total number of Municipal Schools during the year were 82 with 5,484 pupils against 81 with 5,018 pupils for the preceding year.

W. D. SHEPPARD,
Ag. Municipal Commissioner
for the City of Bombay.

FINANCIAL.

REPORT OF Mr. W. E. WAITE, Chief Accountant, for the financial year 1900-1901, as forwarded with his No. 5729, dated 12th September 1901.

I have the honour to submit my report on the accounts of the Municipality for the financial year ending 31st March 1901. I regret the delay in its submission, but until Executive Officers are impressed with the necessity of adhering to the dates fixed for the rendering of their final accounts and statements, such delays will continue to occur.

GENERAL RESULTS.

Income and Expenditure.

2. The income for the year aggregated Rs. 84,02,848-4-2 against an expenditure of Rs. 85,84,058-7-4, thus resulting in a deficit of Rs. 1,81,210-3-2. as shown in Appendix No. 1, which was met from the surplus balances accruing in former years.

As compared with the original budget estimate of Rs. 85,20,000, the income shows a falling off of Rs. 1,17,151-11-10, and on the revised estimate of Rs. 85,98,000, there is a decrease of Rs. 1,95,151-11-10. It is in the receipts from "Taxation proper" and from "Services rendered" that the decreases have occurred. Owing to excessive uncollected outstandings, the diminished realizations are nominal and will exercise no effect on the financial position of this Municipality.

The expenditure of the year, *viz.*, Rs. 85,84,058-7-4, shows an advance of Rs. 91,964-7-4, on the original budget estimate of Rs. 84,92,094, attributable broadly to the payment of grain compensation. As compared with the finally amended estimate of Rs. 96,57,651-4-11 (*vide* Appendix No. 5) there was an unexpended balance of Rs. 10,73,592-13-7. Renewals of grants are required to be made to the extent of Rs. 8,16,938-15-4, for expenditure in 1901-1902 and future years. The net savings on the final estimates for the year thus aggregate Rs. 2,56,653-14-3 which were secured mainly under Public Works (Engineer's) Department, New Works, Public Health Department, and Miscellaneous.

Opening and closing working balances.

3. Including recoverable advances to the extent of Rs. 11,88,689-13-5 made for plague and administrative purposes and including also Rs. 9,51,910-13-6 reserved for the renewal of lapsed grants for 1899-1900 and previous years, the year opened with a working cash balance of Rs. 30,51,733-13-4.

It closed with a balance of Rs. 29,83,700-13-0, of which Rs. 14,93,217-11-8 represent recoverable advances made for plague and administrative purposes and Rs. 8,16,938-15-4, the sum required for the renewal of lapsed grants for 1900-1901 and previous years.

Reserve Stores Stock.

4. The value assigned to the stores in stock at 31st March 1901 aggregated Rs. 7,20,456-10-6, as compared with Rs. 8,33,633-13-4, at the beginning of the year, thus showing a satisfactory reduction of Rs. 1,13,177-2-10.

Additional and Lapsed Grants.

5. The sums made available for expenditure during the year in addition to the original budget grants aggregated Rs. 11,65,557-4-11. The grants lapsing to surplus cash balance and requiring renewal aggregate Rs. 8,16,938-15-4, as compared with Rs. 9,51,910-13-6 in the year 1899-1900.

Surplus Cash Balance.

6. Including all recoverable advances, except sums locked up in the reserve stock and lapsed grants renewed in 1901-1902, the surplus cash balance at the close of the year aggregated Rs. 20,66,761-13-8, as compared with Rs. 19,99,822-15-10, at the beginning of the year.

Taxation.

7. During the year the maximum rates of taxation leviable under the Municipal Act were in force, except in the case of the tax for Fire Brigade purposes, which stood at $\frac{1}{2}$ per cent. against the maximum of $\frac{3}{4}$ per cent. allowable under the Act.

Taking the population at 7,76,006, the incidence of taxation per head of population during each of the four years ending with 31st March 1901 was as follows :—

1897-1898	...	...	...	...	Rs. 7 7 8
1898-1899	...	...	...	...	,, 8 1 10
1899-1900	...	...	...	...	,, 10 1 4
1900-1901	...	...	...	...	,, 9 7 3

Income Outstandings.

8. The collection of taxes was impeded to a considerable extent by the deputation of a large proportion of the staff of the Assessment and Collection Department to Census duty, and the outstandings at the close of the year consequently stood at Rs. 3,74,234 against Rs. 1,81,562 in the previous year, showing an increase of Rs. 1,92,672 as follows :—

Outstandings.	General tax.	Water tax.	Halal-khor tax.	Wheel tax.	Meter hire.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
At 31st March 1900...	76,244	62,834	31,134	8,852	2,498	1,81,562
Do. 1901...	1,72,646	98,747	80,903	15,946	5,992	3,74,234
Increase ...	96,402	35,913	49,769	7,094	3,494	1,92,672

9. Compared with the year 1899-1900 when the income realized amounted to Rs. 88,29,817-1-2, the receipts for the year under review show a falling off of Rs. 4,26,968-13-0, owing entirely to the abnormally heavy imports of grain for the famine districts in 1899-1900. Eliminating the adventitious income from this source in 1899-1900, which might be put at Rs. two lakhs and a quarter and which in consequence of heavy refunds re-acted unfavourably on the receipts for the year under review, and allowing for the unexpectedly heavy outstandings amounting to Rs. 1,92,672 at the close of 1900-1901, the revenues of the Municipality still continue to show a material expansion in the direction of the more stable sources of its income such as General and Halalkhor Taxes, while the high level attained in 1899-1900 in the receipts from Water Tax and Returns from Property and Miscellaneous has been maintained.

Comparison with 1899-1900.

(a) Income.

The total revenue expenditure for the year shows the very considerable increase of Rs. 11,91,579-0-0, as compared with the previous year, amounting to Rs. 85,84,058-7-4, against Rs. 73,92,479-7-4, in 1899-1900. The payment for the first time of a contribution of Rs. 4,74,605 to the City of Bombay Improvement Trust and an increase of Rs. 1,17,371-0-0, in the amount of grain compensation paid account for Rs. 5,91,976 of the increase. The balance of Rs. 5,99,603-0-0 is represented by increases chiefly under "General Superintendence," in the "Assessment and Collection," "Public Works" (Engr.'s) and "Health" Departments and in the payments towards interest, reduction of debt and investment of sinking fund.

(b) Expenditure.

10. The Municipal Debt at 31st March 1900 stood at Rs. 4,32,95,885-2-9. During the year Rs. 12 lakhs were raised and Rs. 91,124-14-4 repaid. The Municipal Debt at 31st March 1901 thus amounted to Rs. 4,44,04,760-4-5. Adding to this sum Rs. 32¾ lakhs on account of loans sanctioned but not raised up to the close of 1900-1901, the total liability for loan capital to which this Municipality was committed at the close of the year under review amounted to Rs. 4,76,79,760-4-5.

Debt.

11. The Sinking Fund investments of the different Municipal Loans on 31st March 1900 amounted to Rs. 26,33,659-2-4. To this were added during the year Rs. 2,90,250 on account of the annual sinking fund instalments and Rs. 1,24,618-3-9 on account of interest realized during the year on the invested funds, thus bringing the total sinking fund investments at 31st March 1901 to Rs. 30,48,527-6-1.

Sinking Fund.

12. Against the original budget estimate of Rs. 36,81,653, and the Revised estimate of Rs. 20,26,488 the total expenditure incurred on Loan Works (including plague) during the year amounted to Rs. 15,24,560-2-2.

Loan Works Expenditure.

Plague Expenses.

13. The expenditure on Plague operations during the year aggregated Rs. 6,80,425-3-8, thus raising the total expenditure for plague purposes from the commencement of plague operations to the close of the year to Rs. 50,77,738-7-4.

INCOME.

I.—Comparison between Budget Estimates and Actuals.

14. A detailed comparison between the budget estimate and the actuals will be found in Appendix No. 2.

As already explained in para. 2, there was a falling off in revenue to the extent of Rs. 1,17,151-11-10. That this was entirely nominal will be apparent on a reference to para. 8 of my report, where I have compared the outstandings at the close of the year under review with those at the close of the preceding year, showing that the uncollected outstandings in the principal sources of our income had increased by Rs. 1,92,672. Decreases to the extent of Rs. 3,22,475 occurred, chiefly in the receipts from "Wheel Tax and Tolls," "Town Duties," "Halalkhor Tax" and "Water Tax and other Miscellaneous Water Works Revenue," but were somewhat counterbalanced by increases amounting to Rs. 2,05,323 accruing principally under "General Tax," "Receipts from Tobacco Duty," "Market Receipts," "Miscellaneous Receipts and Fees" and "Interest on investments of Surplus Loan and other Balances."

15. The principal variations are explained below :—

(*a*) *General Tax.*—Increase of Rs. 7,618-6-2. Under the new award fixing the contribution payable by Government in respect of the properties owned by them during the 5 years commencing from 1st April 1899, a sum of Rs. 32,557 was recovered from Government in excess of the budget estimate. The assessment of the Port Trust properties for the quinquennial period commencing from 1st April 1899 is still under settlement, but pending such settlement, a sum of Rs. 19,420 was received from the Port Trust in excess of the budget estimate towards the increased contribution payable by that body. Thus a total sum of Rs. 51,977 was received under this head in excess of the estimate. Owing, however, to a decrease of Rs. 44,358-9-10 in the receipts from the tax collected from the public, there was a net increase of only Rs. 7,618-6-2. The increase would have amounted to over a lakh of rupees, had not the outstandings at the end of the year been in excess of those at the end of the preceding year by over Rs. 96,000.

(*b*) *Wheel Tax and Tolls.*—Decrease of Rs. 23,634-0-3 which was made up of Rs. 7,270-10-3 under Private Conveyances, Rs. 12,050-12-0 under Public Conveyances, and Rs. 4,312-10-0 under Toll Fees. The decrease under the first head was almost entirely due to heavier outstandings at the close of the year. The decrease under the second head

was due partly to a falling off in the number of land conveyances, and partly to the tax on labour carts during the calendar year 1900 having been reduced from Rs. 15 to Rs. 12 per cart. As regards the third head, I have alluded in my report for 1899-1900 to the steady decrease in the income from this source. The revenue realized during the year under report, namely, Rs. 9,687-6-0, against an estimate of Rs. 14,000 is the lowest of the sums realized since 1890-91. An investigation into the causes of the decrease seems desirable.

(*c*) *Town Duties.*—Under this head there is a decrease of Rs. 1,03,629-4-6 solely due to unusually heavy refunds paid during the year under report. I have dealt with this subject fully at pages 33 and 34 of this Report.

(*d*) *Receipts from Government for Tobacco Duty.*—The increase of Rs. 17,929-8-0 is due to a much larger revenue having been realized than estimated by the Collector of Customs. I am unable to assign any special reason for the increase.

(*e*) *Halalkhor Tax* shows a decrease of Rs. 39,560-5-10 due to the outstandings at the end of the year being larger than those in the preceding year by nearly Rs. 50,000.

(*f*) *Water Tax and other Miscellaneous Water Works Revenue.*—Decrease of Rs. 1,51,365-3-7, of which Rs. 37,861-0-6 are under Water Tax, Rs. 1,08,925-7-7 under Water Supply to Municipal Departments and Rs. 4,578-11-6 under Miscellaneous Water Works Revenue. The decrease under the first head is almost wholly due to an increase in the outstandings at the close of the year, that under the second head is nominal, representing, as it does, a smaller charge made for supplying water for flushing chambers and cisterns, flushing latrines and urinals, playing fountains on public roads, &c. The decrease under the third head is due to the non-adjustment of the Water Works Stock Profit and Loss Account owing to the Water Works Stock Return not having been received in time.

(*g*) *Market Receipts* show a large increase of Rs. 23,936-9-4 which was derived principally from stall rents, squatters' fees from contractors and fair ground and feeding fees.

(*h*) *Miscellaneous Fines.*—The increase of Rs. 4,650-15-10 was obtained almost entirely from fines received through the Presidency Magistrates.

(*i*) *Miscellaneous Receipts.*—The sale of the Municipal land at Haines Road to the Khatav Mukunji Spinning and Weaving Co., and the sale of the Garlic Incinerator account for the increase of Rs. 50,629-8-5.

(*j*) *Miscellaneous Fees.*—The increase of Rs. 6,175-13-8 was derived from fees for erecting scaffoldings, occupying public roads and digging graves.

(*k*) *Interest on Investments of Surplus Loan and other Balances.*—This is a varying source of income dependent on the progress of income and revenue expenditure and the realization of anticipations formed much in advance of the progress of loan works expenditure. Owing to various causes, the expenditure was not as heavy as anticipated, resulting in larger balances being available for investment. The excess realization amounted to Rs. 80,467-15-4. Of the actual income amounting to Rs. 1,60,467-15-4, Rs. 69,717-1-2 were derived from investments in 4 per cent. and 5 per cent. Municipal bonds, and Rs. 90,750-14-2 from deposits in local banks. The average rate of interest received on fixed deposits was Rs. 4·23 per cent. per annum, against 4·19 per cent. per annum in the preceding year.

II.—*Comparison between Revised Estimate and Actuals.*

16. Appendix No. 2 gives details of the variations. It will be seen that the net result is a deficit of Rs. 1,95,151-11-10. Allowing for the heavy outstandings at the close of the year, aggregating Rs. 1,92,672 (*vide* para. 8) and which could not be foreseen, the income for the year practically coincides with the revised estimates.

Taking, however, the actual booked receipts the principal decrease are as under :—

(*a*) *Property Taxes* (*General, Halalkhor, Water and Wheel Taxes*).—Decrease of Rs. 3,11,941-3-6, due almost entirely to two factors, namely, the heavier outstandings amounting to Rs. 1,92,672 at the end of the year and the decrease of Rs. 1,08,925-7-7 for departmental water-supply.

(*b*) *Town Duties.*—Increase of Rs. 46,370-11-6, due to the sum of rupees one lakh and-a-half reserved for refunds not having been fully utilized during the year.

(*c*) The increases in *Licenses* (Rs. 7,701-14-0), *Tobacco Duty* (Rs. 7,929-8-0), *Miscellaneous Receipts* (Rs. 5,629-8-5), are comparatively small and call for no special remarks.

(*d*) The increase of Rs. 40,467-15-4 under *Interest on Investments of Surplus Loan and other Balances* is explained in para. 15 (*k*).

III.—Comparison between the Actuals for 1899-1900 and 1900-1901.

17. In para. 9 of my report I have dealt on broad lines with the differences between the revenue realized during the year under review and the preceding year. Though the net receipts during 1900-1901 show a falling off of Rs. 4,26,968-13-0, a more detailed examination of the results brings out the continued expansion of our more stable sources of income.

The figures in Appendix No. 2 will show that in "Taxation Proper," excluding "Town Duties," there was an increase of Rs. 40,667, which, but for the heavy outstandings at the close of 1900-1901 (*vide* para. 8), would have amounted to Rs. 1,44,163. Against this has to be set arrear recoveries for the past year from Government for general tax amounting to Rs. 13,445 and an increase of about Rs. 15,000 from increased taxation on public conveyances; but even allowing for these factors the expansion in the revenues during the year amounts to Rs. 1,15,718.

The reduced realizations from Town Duties amounting to Rs. 4,63,350 are the natural outcome of the unprecedentally high revenue from this source in 1899-1900, resulting, as it must, in heavier refunds in 1900-1901 for re-exported articles.

In the tax for "Services rendered" there is a nominal decrease of Rs. 10,824 in the Halalkhor Tax, which is converted into an increase of Rs. 38,945, when the heavier outstanding of Rs. 49,769 at the close of 1900-1901 is taken into consideration. Water Tax shows a decrease of Rs. 37,332 which is more than covered by the heavier outstandings amounting to Rs. 39,407 at the close of the year under review.

The returns from "Property and Miscellaneous" show an increase of Rs. 43,870; but of this Rs. 16,624 were derived from interest on the Municipal Loans Sinking Funds (which from the very nature of the funds must increase year by year) and the balance was more than covered by adventitious receipts, such as the sale of land and property.

Summing up the position in 1900-1901, as compared with 1899-1900, it may be stated that allowing for outstandings and non-recurring factors of increase and decrease, the results indicate a substantial increase of about one and-a-half lakhs in the stable sources of our income.

IV.—Octroi Duties.

18. As usual the various articles on which duty was levied at the time of import under the provisions of Section 192 (1) of the Municipal Act, the amount levied and the refunds allowed thereon under Section 192 (2) on their re-export are shown in Appendix No. 3.

19. The gross collections for the year were estimated at Rs. 23,50,000 and the refunds at Rs. 11,15,000. A net revenue of Rs. 12,35,000 was thus provided in the Budget for 1900-1901. The gross realizations were, however, more than the estimate by Rs. 7,34,009, principally under grain, sugar and ghee, and the refunds paid were in excess of the estimate by Rs. 8,34,207, chiefly under grain,

beer, sugar and ghee. There was thus a net decrease of Rs. 1,00,198, which together with the increase of Rs. 3,431, in the closing balance at the end of the year as compared with that in the beginning of the year brought the total decrease to Rs. 1,03,622.

20. The net revenue collected in the year amounted to Rs. 11,31,371, against Rs. 15,94,721 in the preceding year and the net realizations after deducting the cost of collection, &c., amounted to Rs. 9,99,133, against Rs. 15,16,009 in 1899-1900.

Articles.	Actuals for 1899-1900.	Actuals for 1900-1901.	More.	Less.
Grain	11,91,437	11,82,953	.. ...	8,484
Flour	82	61	.....	21
Wine & Spirits.	2,51,590	2,35,383	.....	16,207
Beer	38,571	36,204	.....	2,367
Sugar	7,43,912	11,54,320	4,10,408	.....
Ghee	2,58,922	2,77,499	18,577	.....
Timber ...	1,22,554	1,26,814	4,260	.....
Firewood ...	80,934	70,775	.....	10,159
Total Rs...	26,88,002	30,84,009	4,33,245	37,238
			37,238	
			3,96,007	

21. Comparing the gross collections for the year under review with those in the preceding year, it will be seen that there were increases amounting to Rs. 4,33,245 under sugar, ghee and timber, while there were decreases amounting to Rs. 37,238 under grain, wines and spirits, beer and firewood. The large increase under sugar was due to heavy imports, Mauritius sugar exceeding the previous year's imports by over 38,000 tons, while German sugar increased by over 14,000 tons.

REVENUE EXPENDITURE.

I.—Grants for Expenditure from Current Revenue.

22. From Appendix No. 4, it will be seen that the grants originally sanctioned by the Corporation, under Section 129 of the Municipal Act, aggregated Rs. 84,92,094. To this sum were subsequently added (1) Rs. 7,01,174-9-0 on account of lapsed grants for 1899-1900, renewed by the Standing Committee in 1900-1901, (2) Rs. 2,32,898-12-6 on account of lapsed grants for 1898-99 and previous years (including transfers not utilized in 1899-1900) sanctioned by the Corporation in 1900-01, (3) Rs. 3,20,483-15-5 on account of additional grants sanctioned for unforeseen expenditure during the year. The total grant thus arrived at amounting to Rs. 97,46,651-4-11, was reduced by savings amounting to Rs. 89,000 provided in the introductory remarks to the budget for 1901-1902. The final grants for revenue expenditure thus stood at Rs. 96,57,651-4-11. The transfers made from one budget head to another without in any way affecting the total budget provision for the year amounted to Rs. 62,052-11-9.

23. The principal items making up the additional grants of Rs. 3,20,483-15-5 above referred to were (1) Grain Compensation to Municipal employés drawing less than Rs. 16 per month each, Rs. 1,12,896 ; (2) Moiety of the cost of the census payable by the

Municipality, Rs. 25,000 ; (3) Depreciation on unserviceable stoneware pipes, &c., in the Municipal General Stores sold by auction, Rs. 24,375-7-9 ; (4) Excess in the grant for payment of commission for collection of Town Duties in 1899-1900 and 1900-1901, Rs. 37,048; (5) Cost of carrying out certain works in connection with the vacation of the Government land at Paltan Road, Rs. 16,935 ; (6) Compassionate allowance to the widow of the late Mr. James W. Smith, Rs. 12,160 ; (7) Substituting an iron pipe for the masonry duct for Tansa water near Bhandup, Rs. 12,000 ; (8) Measures to prevent the spread of the cholera epidemic, Rs. 10,000 ; (9) Excess on certain budget grants for 1899-1900, Rs. 9,105-7-0 ; (10) Excess on the water works materials grant for 1900-1901, Rs. 6,000, and other minor items aggregating Rs. 54,964-0-8.

24. In the Introductory Remarks to the Budget for 1901-1902 a sum of Rs. 3,64,729 was reserved from the working balance for additional grants to meet unforeseen expenditure and excesses during the official year 1900-1901, against which the additional grants sanctioned up to the close of the year amounted, as stated, to Rs. 3,20,483-15-5. The unappropriated balance of Rs. 44,245-0-7 lapsed to Surplus Cash Balance at the close of the year.

II. Comparison between Grants as Finally Amended and Actuals.

25. As noted in para. 22, the grants finally made available for expenditure during 1900-1901 aggregated Rs. 96,57,651-4-11 (*vide* Appendix No. 5). The actual booked outlay amounted to Rs. 85,84,058-7-4, thus leaving an unexpended balance of Rs. 10,73,592-13-7. Of this sum Rs. 8,16,938-15-4 require renewal for expenditure in 1901-1902, thus leaving a net saving against allotted grants of Rs. 2,56,653-14-3. Of this Rs. 1,08,925-7-7 represents a nominal charge for water for consumption by Municipal departments which was not levied (*vide* para. 15 (*f*) of my Report). The actual saving is thus reduced to Rs. 1,47,728-6-8.

26. The variations between the actuals and allotted grants call for remarks only in the case of the "Public Works (Engineer's) Department," "New Works," "Public Health Department," and "Grain Compensation," in which the savings were as follows :—

Public Works Department	... ...	Rs. 92,859
New works	... ...	„ 20,823
Public Health Department	... ...	„ 95,768
Grain Compensation ...	... ...	„ 16,570
	Total ...	Rs. 2,26,020

(A). *Public Works Department.*—Of the total saving of Rs. 92,859, a sum of Rs. 46,165 was secured by a reduction in the charge for water supplied to the Drainage and Streets and Buildings Departments, amounting respectively to Rs. 38,325 and Rs. 7,840. A further

saving of Rs. 8,148 in the Drainage Department is accounted for by less expenditure on cleaning drains, and repairs and alterations to miscellaneous drains and gutters. A saving of Rs. 13,525 accrued in the Water Works Department owing principally to the surrender by that department of two sums of Rs. 8,004 and Rs. 4,958, allotted for re-washing sand and other materials in the Bhandarwada filters and tools and plant for water works maintenance respectively. Savings to the extent of Rs. 9,977 resulted from the new air-compressor station being brought into working later than anticipated and to less expenditure on lighting and watering roads. The grant for compensation for insanitary buildings demolished proved to be in excess of requirements by Rs. 6,801, thus bringing the total explained savings to Rs. 84,616.

(*B*). *New Works.*—The saving of Rs. 20,823 is due to the completion of works within the grants allotted, and was distributed as follows :—

Drainage	Rs.	7,311
Water works	„	5,371
Streets and Buildings	„	1,068
Sanitary and other miscellaneous works...	„	7,073
Total ...	Rs.	20,823

(*C*). *Public Health Department.*—Of the saving of Rs. 95,768, "General Supervision" is responsible for Rs. 4,686 ; Rs. 71,611 accrued in the Conservancy Branch ; Rs. 7,140 under Markets and Slaughter-houses; and the balance of Rs. 12,331 under Registration of Births and Deaths, Milch Cattle Stables, Mahalaxmi Dhobiwada, Infectious Diseases and other minor heads.

(1). *General Supervision.*—The saving of Rs. 4,686 is due partly to acting arrangements made pending the appointment of the new Executive Health Officer, and partly to the contingent grant not having been fully utilized.

(2). *Conservancy Branch.*—Saving of Rs. 71,611. A diminution in the water charges accounts for a sum of Rs. 50,374. The balance of Rs. 21,237 was saved principally in consequence of various establishment, repairs and stores grants not being required in full as estimated.

(3). *Markets and Slaughter-houses.*—The saving of Rs. 7,140 accrued partly in the water-supply and partly in establishment charges consequent on the death of the Assistant Superintendent of the Bandora abattoirs.

(4). *Miscellaneous.*—Savings accrued to the extent of Rs. 12,331 partly in consequence of a decrease in the charges for water-supply and partly owing to minor savings distributed throughout the department.

(*D*).—*Grain Compensation.*—The saving of Rs. 16,570 is attributable to the non-employment of the full complement of low paid menials and to absentees and to a smaller sum being required for renewal in 1901-1902.

III. Lapsed Grants.

27. As noted in para. 2, the unexpended balances of allotted grants at the close of the year aggregated Rs. 10,73,592-13-7, of which Rs. 8,16,938-15-4 are proposed to be renewed during 1901-1902 for the payment of liabilities incurred but not discharged, and for the completion of works and projects. The principal heads under which renewals are required, the amounts to be renewed and the purposes to which they are to be devoted are explained below :—

(*a*) *General Superintendence.*—Rs. 11,928-13-4, required for payment of law charges and liabilities incurred for printing, advertisements and repairs to the Municipal Office Buildings.

(*b*). *Assessment and Collection Department.*—Rs. 4,953-13-7, chiefly on account of charges for unpaid establishment, rent, and contingencies and for commission payable to the B. B. & C. I. Railway Company for the collection of Town Duties.

(*c*). *Fire Brigade.*—Rs. 6,379-5-4 are to be renewed for payment of undischarged liabilities for clothing, repairs, rent, &c., and for outstanding interest on the Fire Brigade Loan of Rs. 4½ lakhs.

(*d*). *Public Gardens.*—(i). *Maintenance.*—Rs. 8,037-15-6 are required for the payment of stores, repairs, and feed charges and for carrying out certain works in connection with the improvement of the zoological portion of the Victoria Gardens.

(ii). *New Works.*—For the construction of an elephant cage and three water closets, the extension of the wild beasts' cage and the planting and turfing of new ground, a sum of Rs. 7,081-8-4 is set aside for renewal.

(*e*). *Public Works (Engineer's) Department.*—A sum of Rs. 2,09,289-2-1 is proposed to be renewed under this head, distributed as follows :—

(i). *Miscellaneous Drainage.*—Rs. 8,654-8-7 are to be renewed for carrying out repairs and alterations to miscellaneous drains sanctioned during the year and for payment of charges for stores, printing, establishment, rent and telephonic connections.

(ii). *Water Works Maintenance.*—A renewal of Rs. 49,766-11-10 is required for re-washing sand and other materials in filters at the Bhandarwada and Malabar Hill Reservoirs, for works in connection with tanks, wells and fountains and for payment of charges for tools and plant (including meters), for clothing, rent, repairs, establishment and contingencies.

(iii). *Road Watering.*—Of the renewal of Rs. 16,522-10-6 almost the whole sum is proposed to be expended on the purchase and fixing of new pattern hydrants.

(iv). *Roads, Footpaths, &c.*—A sum of Rs 8,107-6-6 is proposed to be renewed under this head for the completion of repairs to certain roads which could not be taken in hand during the year for want of sandstone and for the payment of liabilities incurred but undischarged at the close of the year.

(v). *Street Improvements* and (vi). *Compensation for insanitary buildings demolished.*—The renewals of grants under these heads amounting to Rs. 1,12,368-14-11 and Rs. 9,000, respectively, are required for the discharge of liabilities already incurred on account of set-backs and houses pulled down.

(*f*). *New Works.*—The amount to be renewed is Rs. 1,32,920-15-11, of which Rs. 22,612-13-11 are to be devoted to drainage works, Rs. 31,375-1-3 have been set aside for water works, and Rs. 78,933-0-9 are required for expenditure on latrines, bigaris chawls, cabstands, markets, and works of a miscellaneous character.

(*g*). *Public Health Department.*—The large sum of Rs. 1,64,381-8-10, proposed to be renewed under the Public Health Department, includes Rs. 1,28,805-14-9 for the Conservancy Branch, Rs. 7,883-2-6 on account of Infectious Diseases, Rs. 20,204-14-8 on account of Census, and Rs. 7,487-8-11 for minor services. Of the sum of Rs. 1,28,805-14-9 appertaining to the Conservancy Branch, Rs. 94,900 are required for the purchase of live stock, and the construction of scavengering, drain and dustbin carts, and the balance for the payment of charges for feed, stores, repairs, rents, taxes, haulage of waggons to Chimbur and bills in connection with the maintenance of the Deonar Works. The amount to be renewed under Infectious Diseases is required chiefly to meet charges in connection with the Arthur Road Hospital. The renewals for Census and minor services call for no remarks.

(*h*). *Miscellaneous.*—The renewal of Rs. 22,558-3-2 under this head includes Rs. 4,706-0-2 for payment of grain compensation, and Rs. 15,099-7-7 for unbooked liabilities in connection with the vacation of a portion of the ground occupied by the Municipal Workshops and handed over to Government.

(*i*). *Municipal Debt.*—A sum of Rs. 2,48,390-10-3 is required to be renewed for payment of outstanding interest on Loans, excluding the Fire Brigade Loan (*vide* Appendix No. 7), and of unpaid debentures of the Drainage Loan of 1878 (*vide* Appendix No. 6).

28. The grants renewed from allotments lapsing at the close of the year, namely, Rs. 8,16,938-15-4, are less by Rs. 1,17,134-6-2 than those in the preceding year 1899-1900 when they amounted to Rs. 9,34,073-5-6. The percentage of renewed grants to grants allotted (excluding actual savings) during the year under review, was 8·7 per cent. against 11·2 per cent. for the year 1899-1900.

The more satisfactory results obtained during the year under report are attributable to a more vigilant watch over the course of expenditure, and to the introduction of a revised system of accounts whereby service heads are debited with expenditure when cheques are drawn and not when the payees demand payment. A further and more marked improvement in this direction is practicable and revised methods of financing which are under consideration by me will, I trust, effect this end.

IV.—Comparison between the Actual Expenditure during 1899-1900 and 1900-1901.

29. The large increase of Rs. 11,91,579 in the revenue expenditure of the year under report as compared with the preceding year calls for an examination of the causes and an enquiry as to the extent to which such increased expenditure might be held to be recurring. The distribution of the principal items of the increase was as follows :—

General Superintendence	Rs.		30,401
Assessment and Collection Department	„		53,869
Public Works Department	„		85,516
New Works	„		13,764
Public Health Department	„		1,38,035
Miscellaneous	„		1,63,955
Contribution to the City Improvement Trust	„		4,74,665
Municipal Debt	„		1,63,041
Investments	„		23,084
Rebate	„		42,772
Total ...	Rs		11,89,042

(*a*) *General Superintendence.*—No appreciable permanent addition to expenditure has occurred under this head. The increase of Rs. 30,401 is due partly to heavy arrear payments of law charges appertaining to the year 1899-1900 and previous years, and partly to the salary paid to the Acting Commissioner when the permanent incumbent went on privilege leave.

(*b*) *Assessment and Collection Department.*—Increase Rs. 53,869. Of this the only addition which may be characterized as permanent is a charge of Rs. 6,290 incurred in connection with a revised system introduced for sealing ghee dubbers, in order to more efficiently safeguard the revenue accruing from the octroi duty imposed on ghee. Owing to increased imports of grain, sugar and ghee, the commission payable to the Port Trust and the G. I. P. Railway on revenues collected from octroi duties also increased and necessitated an extra grant of Rs. 37,047. From its very nature the expenditure is fluctuating and the present increase does not partake of the character of constant recurring expenditure. The charges for the year under review were also enhanced by arrear payments for commission on town duty collections to the extent of over Rs. 9,000.

Thus, of the total increase of Rs. 53,869, over Rs. 46,000 is due to abnormal characteristics of the year and only Rs. 6,290 can be looked upon as permanent.

(*c*) *Public Works Department.*—The net increase of 85,516 is composed of several items of increase and decrease.

(i) *Drainage.*—A decrease of Rs. 48,735 occurred under "Miscellaneous Drainage" owing to less consumption of water—a merely nominal adjustment. The increase of Rs. 24,448 accruing in the working of the pumping stations at Colaba and Love Grove must be looked upon as a permanent increase of expenditure, as a greater volume of sewage has now to be dealt with. Expenditure in this direction has also been increased by Rs. 3,471 owing to the opening of a new air-compressor station at Love Grove. Thus in connection with the disposal of sewage, an increased and very probably recurring extra liability of Rs. 28,000 was incurred during the year.

(ii) In "Water Works Maintenance" there was an increase of Rs. 28,436, of which nearly Rs. 20,000 was due to special expenditure in connection with affixing meters to properties—a charge which cannot be looked upon as recurring; the balance of the increase may be attributed to payments during the year of arrear charges pertaining to the year 1899-1900.

(iii) "Road Watering" shows an increase of Rs. 63,901, of which Rs. 54,810 is for charges for water used on roads which were levied for the first time and will not recur, and the balance is represented by special expenditure on the purchase and fixing of hydrants.

(iv.) Though the expenditure under "Roads and Footpaths" and "Street Improvements" show a decrease of Rs. 32,589 and an increase of Rs. 50,910 respectively, the figures do not indicate any permanent variation in the recurring expenditure. The decrease in "Roads and Footpaths" is the result of increased payments in 1899-1900 consequent on expenditure appertaining rightly to the year 1898-1899 having been discharged in the following year. The expenditure under "Street Improvements" varies, not with the provision for the expenditure, which is a fairly constant figure, but with the discharge of liabilities already incurred. The increase during the year, therefore, represents an excess of liabilities discharged.

Thus of the total increase of Rs. 85,516 in the Public Works Department it might be stated that the recurring expenditure of the department was enhanced during the year by Rs. 28,000 in connection with the maintenance of pumping and air-compressor stations.

(*d*) *New Works.*—Increase Rs. 13,764. This does not represent any permanent increase as the expenditure fluctuates every year according as the necessity for carrying out new works arises. The provision made in the budget for such works is practically the same every year.

(*e*) *Public Health Department.*—The year shows an increased expenditure of Rs. 1,38,035. This may roughly be attributed to an increase of Rs. 1,41,000 in the " Conservancy Branch, " of Rs. 6,000 in " Markets and Slaughter Houses, " of Rs. 8,000 in the " Registration of Births and Deaths, " of Rs. 4,500 in " Cemeteries," Rs 4,000 in the upkeep of " Dispensaries," and Rs. 4,800 under " Census, " making a total increase of Rs. 1,68,300. This was counterbalanced to the extent of Rs. 31,000 by a decrease under " Infectious Diseases. "

(i) In the " Conservancy Branch" the grand total increased expenditure amounted to Rs. 1,98,000, but owing to decreases aggregating Rs. 57,000 the net increased cost was only Rs. 1,41,000. The decreases consisting mainly of charges for water, stores, rent and live and rolling stock were counterbalanced to the extent of Rs. 52,000 by the higher amount paid for feeding the cattle owing, in consequence of the famine, to the rate per animal working out during the year to Rs. 21-15-7 against Rs. 17-2-9 in the previous year. The re-organization of the Health Department and the removal of kutchra from the town to Deonar are entirely responsible for the net increased cost of Rs. 1,41,000.

The principal permanent recurring expenditure of the Conservancy Branch was increased in round figures as follows during the year :—

I.	*Superintendence & Inspection*	Rs.	12,000
II.	*Labour* :—		
	(1) Scavengering	„	31,000
	(2) Surface Drain Cleaning	„	17,000
	(3) Halalkhor Branch	„	19,000
III.	*Disposal of Town Sweepings at Deonar*	„	29,000
		Total Rs.	1,08,000

The balance of Rs. 33,000, making up the net increased cost of Rs. 1,41,000, is attributable to arrear charges for 1899-1900, paid in 1900-1901, to special expenditure incurred in connection with gully flushing, and to a non-recurring extra charge for water supplied.

(i) The increase under " Markets and Slaughter Houses " is due to the cost of grazing cattle brought for slaughter having advanced in consequence of a large number of cattle being brought for slaughter.

(iii) *Registration of Births and Deaths.*—Increase of Rs. 8,000. Of this Rs. 6,500 is of a permanent character. The balance represents clothing charges which are incurred biennially, no expenditure having thus been incurred in 1899-1900.

(iv) The increase of Rs. 4,500 under " Cemeteries " is the result of the higher mortality in recent years and the extended aid given to paupers in the shape of free firewood for cremation purposes. The increase must for the time being, I think, be looked upon as permanent.

(v) The establishment of dispensaries for gratuitous relief at Dongri, Kumbharwada and Curry Road, which worked throughout the year 1900-1901 against only three months in 1899-1900, has caused the increase of Rs. 4,000 under "Dispensaries." The increase must be looked upon as permanent.

(vi) The expenditure of Rs. 4,800 for Census purposes was special and calls for no remarks.

(vii) The decrease of Rs. 31,000 under "Infectious Diseases" is the result of unusually heavy expenditure in 1899-1900 in connection with the cholera and small-pox epidemics. It cannot be stated that there was any reduction in the normal recurring expenditure during the year.

Summing up the position in the Public Health Department and laying aside the usual variations which occur between the expenditure of one year and another, it will be seen that of the increased expenditure of Rs. 1,38,035 nearly a lakh and quarter must be looked upon, with the data at present available, as forming a permanent addition to the cost of the Health Department, thus :—

	Rs.
Conservancy Branch...	1,08,000
Registration of Births and Deaths	6,500
Cemeteries	4,500
Dispensaries	4,000
Total Rs...	1,23,000

(*f*) *Miscellaneous.*—The increase under this head amounted to Rs. 1,63,955 and consists almost entirely of abnormal items of outlay as will be seen from the subjoined details :—

	Rs.
Pensions and compassionate allowances	9,894
Election expenses (triennial general election) ...	7,120
Grain compensation	1,17,371
Depreciation on stores	24,375
Total Rs...	1,58,760

(*g*) *Contribution to the City Improvement Trust.*—Increase of Rs. 4,74,605. This is a permanent increase, the contribution being payable by the Municipality under Section 72 (1) of Bombay Act IV of 1898.

(*h*) *Municipal Debt.*—The total increase of Rs. 1,63,041 is composed of Rs. 93,542 representing increased payments of interest, Rs. 32,553 larger discharges of the principal of the Drainage Loan of 1878, Rs. 27,000 on account of increased investments of Sinking Fund and Rs. 16,624 for accrued interest on sinking funds. There was a small decrease of Rs. 6,678 in commission paid to the Bank of Bombay for acting as agents for the payment of interest on behalf of the Corporation.

The payment of interest and the discharge of the principal of the Drainage Loan of 1878 is necessarily a fluctuating figure dependent on the demand made by the debenture holders. The extra interest paid during the year from charges appertaining to the year amounted to Rs. 1,40,192, and the outstanding interest for years prior to 1900-1901, which were claimed during the year under review, amounted to Rs. 48,569. Thus the total increase in the interest charges amounted to Rs. 1,88,761, but owing to a payment amounting to Rs. 95,219 made in 1899-1900, on account of interest on temporary loans aggregating Rs. 35 lakhs taken from the Bank of Bombay, the net increase in 1900-1901 was reduced to Rs. 93,542.

The increase of Rs. 32,553 under re-payment of principal is due to a larger number of debenture holders having surrendered their debentures for re-payment than in the preceding year.

The increase of Rs. 27,000 is a permanent one and represents the Sinking Fund instalment of the 25 lakhs loan which was due in 1900-1901 for the first time. The augmenting of the Sinking Fund implies an increase in the interest realized in the fund. Hence the increase of Rs. 16,624 which is also permanent.

The Bank of Bombay agreed during the year to reduce its rate for attending to the payments of interest, &c., on behalf of this Municipality from Rs. 4,000 to Rs. 2,000 per crore per annum. Hence the decrease of Rs. 6,678.

Of the total increase under Municipal debt, therefore, the permanent net addition that has been made during the year in the expenditure of the Municipality, amounts to Rs. 1,77,138, thus :—

	Rs.
Interest	1,40,192
Sinking Fund	27,000
Interest on Sinking Fund	16,624
Total Rs...	1,83,816
Deduct—	
Savings in charges on loans ... ... „	6,678
Net increase Rs...	1,77,138

(*i*). *Investments.*—The increase of Rs. 23,084 is permanent and represents the investment of the annual instalments on account of the Worn-out Mains Renewal Fund which was discontinued since 1897-1898 and has been restored during the year under review.

30. From para. 9 it will be seen that the increased revenue expenditure of the Municipality during the year, as compared with 1899-1900, was Rs. 11,91,579. In the preceding para. I have endeavoured to explain, with regard mainly to the broad features of the differences in

the two years, to what extent this increase might be looked upon as permanent. It will be seen that the increase of expenditure during the year, which might be considered as having to be permanently provided in future, amounted to Rs. 8,32,000 as follows :—

	Rs.
Assessment and Collection Department	6,300
Public Works (Engineer's) do.	28,000
Public Health Department	1,23,000
Contribution to the City Improvement Trust ...	4,74,600
Municipal Debt	1,77,000
Investments	23,100
Total Rs....	8,32,000

SURPLUS CASH BALANCE.

Appendix No. 8.

31. The Surplus Cash Balance at the close of the year, excluding the minimum balance of Rs. one lakh required by law, stood at Rs. 20,66,762 as shown in Appendix No. 8. This is an advance on the original budget estimate of Rs. 7,38,856 and on the figure estimated at the time of preparing the budget estimate for 1901-1902 of Rs. 2,36,762. The latter increase is made up thus :—

	Rs.
Savings in expenditure as shown in para. 25 ...	2,56,654
Savings in the amount of Rs. 3,64,729 reserved in the budget for 1901-1902 for additional grants to be sanctioned up to 31st March 1901 (*vide* para. 24)	44,245
Reduction in the balance of reserve stock (*vide* para. 4)	1,13,177
Lapses to Surplus Cash Balance on account of certain grants, which were intended to be renewed in 1900-1901, but which were either not required in that year or the renewal of which was not sanctioned by the Corporation.	17,838
Total Rs ..	4,31,914
Less—	
Deficit in Revenue (*vide* para. 16) ... Rs...	1,95,152
Net Surplus...Rs.	2,36,762

32. The sum of Rs. 20,66,762 represents the Surplus Cash Balance *as booked*. There are, however, various disturbing factors which must be taken into consideration if an accurate estimate is to be formed of the surplus balances really at our disposal for expenditure on works and projects not already specifically provided for. The first of these is the large outstanding balance of our income, which, as stated in para. 8, is in excess of the outstandings for 1899-1900 by Rs. 1,92,672. This sum can legitimately be considered as forming part of the surplus cash available for expenditure, which would thus be increased to Rs. 22,59,434. From this balance has, however, to be provided the deficit of

Rs. 4,16,000 during 1901-1902 and the payment to the City Improvement Trust of Rs. 5,00,000 on the 1st April 1902, thus reducing from Rs. 22,59,434 to Rs. 13,43,434 the surplus balance available for further expenditure not specially provided for up to 31st March 1901.

In my report on the accounts for 1899-1900 I brought to notice that advances were made from the surplus cash balance for financing plague expenditure. The total advance made for this purpose up to 31st March 1901 aggregated Rs. 12,98,478, and in representing the surplus cash balance at Rs. 13,43,434 this advance has been treated as recoverable either by loan or by a further contribution from Government. Should such contribution from Government not be forthcoming or should it be deemed inexpedient to finance plague expenditure wholly from loan funds, the surplus cash balance available will be reduced by the amount which it may be deemed advisable to charge as a final debit to revenue.

DEBT AND SINKING FUND.

Appendix No. 6.

33. The total debt due by the Municipality at the beginning of the year aggregated Rs. 4,32,95,885 of which Rs. 25,02,385 were due to Government, and Rs. 4,07,93,500 were owing to the public.

During the year Rs. 6,00,000 were raised from the public for plague expenditure, and Rs. 6,00,000 for the prosecution of sewerage, road and sanitary works. Rs. 14,125 were, however, repaid to Government for the Vehar debt and Rs. 77,000 to the public.

The total debt at the close of the year aggregated Rs. 4,44,04,760, of which Rs. 24,88,260 were due to Government and Rs. 4,19,16,500 to the public.

The increase in the total capital debt of the Municipality during the year was Rs. 11,08,875.

The various sinking fund investments at 31st March 1901 aggregated Rs. 30,48,527, which, if set off against the total gross debt owing by the Municipality, leaves a net debt liability of Rs. 4,13,56,233.

RAISING OF LOANS.

34. In the Loan Works Budget estimate for the year under review provision was made for the raising of a Loan of Rs. 30 lakhs, *i.e.*, Rs. 6 lakhs being the balance of the Rs. 19¼ lakhs Loan, Rs. 14 lakhs being the balance of the Rs. 20 lakhs Plague Loan and Rs. 10 lakhs being the 1st instalment of the Rs. 24¾ lakhs Loan for Sewerage and Water Works. This intention was not given effect to as a revised forecast of expenditure showed that with the available balances in hand there was no necessity to approach the public for so large a sum. The total amount to be raised was, therefore, reduced to Rs. 18 lakhs, *i.e.*, Rs. 6 lakhs on account of the 19¼ lakhs Loan,

Rs. 6 lakhs on account of the 20 lakhs Plague Loan and Rs. 6 lakhs on account of the 24¾ lakhs Loan. The original intention was to take up the last mentioned sum for the investment of the Sinking Funds of the different 4 per cent. Municipal Loans and Surplus moneys, but owing to the late receipt of Government sanction this project fell through.

The 2nd instalment of Rs. 6 lakhs of the 19¼ lakhs Loan was raised from the public at rates varying from 96 1/16 per cent. to 97½ per cent., the average rate realized being Rs. 96-6-8 per cent. Owing to the comparatively heavy discount demanded by the public on the 2nd instalment of Rs. 6 lakhs of the Plague Loan the amount was raised by private negotiations with two local Banks at 95⅞ per cent. net.

35. The discount on the above two loans, amounting to Rs. 21,487-8-0 and Rs. 24,750 respectively, was met from the Net Premia Fund.

EXPENDITURE ON LOAN WORKS.

Appendix No. 13, *Pages* 131 *to* 135.

36. The total expenditure on Loan Works, excluding Plague expenses, aggregated Rs. 8,44,134-14-6 during the year against Rs. 9,19,914-15-5 in the preceding year, showing a decrease of Rs. 75,780-0-11. The expenditure was distributed as follows :—

	Rs.	a.	p.
Sewerage and Drainage Works	7,20,185	5	9
Water Works	3,025	4	10
Roads	30,544	13	3
Sanitary and Minor Works	90,379	6	8
Rs. ...	8,44,134	14	6

The principal Sewerage and Drainage works in progress during the year were (1) House connections without privy fittings, Rs. 1,79,326, (2) Sewerage of the Mazagaon District on the Gravitation System, Rs. 29,963, (3) Machinery for the Sewerage of the Parel, Mazagaon, etc. Sectional Districts on the Shone System, Rs. 2,51,060, (4) Sewerage of the Mazagaon District Sectional, Rs. 58,440, (5) Storm-water Drain in Tardeo Road, Rs. 70,440, (6) Sewerage of the Fergusson Road and Chinchpokli Sectional District, Rs. 22,170, (7) Sewerage of the Parel District Sectional, Rs. 35,167, (8) Automatic Flush Tanks on pipe-sewers, Rs. 38,434, and (9) Constructing Storm-water drains in different places, Rs. 20,494.

The expenditure incurred on sanitary and minor works included Rs. 34,697 spent on the scheme for the disposal of town-sweepings at Deonar and Rs. 54,718 on the purchase of land for burial and burning grounds in Narielwadi and Mahim and on the extension of the Sewri Cemetery.

PLAGUE EXPENDITURE.

Appendix No. 10.

37. The amount expended on Plague operations during the year (excluding expenditure on discretional relief and on the construction of camps paid out of the funds received from Government) was Rs. 6,80,425-3-8 against Rs. 8,64,904-15-2 in the preceding year, showing a decrease of Rs. 1,84,479-11-6. The principal reductions made were under establishment (Districts offices, hospitals, labourers, etc.), contingencies, inoculation expenses, food supply to hospitals, disinfectants, clothing, medicines and medical instruments, cleaning and flushing drains and Arthur Road Hospital expenses.

38. Including the expenses amounting to Rs. 43,97,313-3-8 incurred on Plague operations up to 31st March 1900, as detailed at page 84 of my Financial Report for 1899-1900, the total expenditure on Plague operations from the commencement to the 31st March 1901, aggregated Rs. 50,77,738-7-4 which was financed as follows :—

	Rs.	a.	p.
From the 1st and 2nd Instalments of the Plague Loan	12,00,000	0	0
From the Government Contribution ...	14,50,000	0	0
Advanced from Loan Fund balances ...	11,29,260	5	8
Do. the Municipal General Fund	12,98,478	1	8
Rs.	50,77,738	7	4

39. The total expenditure on Plague operations during the year including that incurred on the construction of camps and discretional relief, amounted to Rs. 7,40,242-0-2 against Rs. 9,53,969-3-6 in the preceding year.

The final adjustment of accounts in regard to the expenditure incurred by the Municipality on behalf of Government and *vice versa* is still under settlement.

Government Contributions for construction of Health Camps and Discretional Relief.

40. For the construction of Camps a sum of Rs. 1,50,000 was contributed by the Government up to 31st March 1900, from which a balance of Rs. 58,328-1-8 was left at the close of that year. As this sum was found more than sufficient for our requirements during the year under report, no further contribution was obtained by the Municipality, but on the contrary a sum of Rs. 23,000 was refunded to Government on 31st March 1901. The net expenditure incurred on the construction of Camps, after deducting credits for water works, fittings, &c., returned into Stores, amounted to Rs. 34,249-3-6, leaving a balance of Rs. 1,078-14-2 with the Municipality at the end of the year. The total expenditure on Health Camps paid out of the Government grant from the commencement of the operations up to the close of the year, aggregated Rs. 1,25,921-1-10 against the net amount of Rs. 1,27,000 received from Government.

41. An advance of Rs. 20,000 was received from Government during the year for expenditure on discretional relief which, together with the balance of Rs. 8,446-14-0 with the Municipality on 31st March 1900, placed a sum of Rs. 28,446-14-0 at our disposal. The expenditure incurred during the year by District Officers and others entrusted with the distribution of relief, amounted to Rs. 25,567-9-0 which was less than the sum expended in the preceding year by Rs. 22,865-13-6. The unexpended balance of the advance received from Government amounted to Rs. 2,879-5-0. The total advance received from Government for this purpose from the commencement to 31st March 1901 amounted to Rs. 1,15,000 against which the actual expenditure was Rs. 1,12,120-11-0.

LIABILITIES AND ASSETS.

Appendix No. 9.

42. The liabilities at 31st March 1901 aggregated Rs. 4,50,52,756, while the assets are represented at Rs. 6,06,80,111, giving an excess of assets over liabilities of Rs. 1,56,27,355. Of the liabilities Rs. 4,44,04,760 form the gross debt due by the Corporation, Rs. 5,50,328 are deposits due to Contractors, deposits received for work to be done and obligations undertaken, and Rs. 79,798 represent charges admitted but not paid; and a small item of Rs. 17,870 makes up the total of Rs. 4,50,52,756.

As compared with the previous year when the liabilities aggregated Rs. 4,54,09,090, there was a decrease during the year under review of Rs. 3,56,334, notwithstanding an *increase* of Rs. 11,08,875 in the gross debt due by the Corporation. The result is due, among other usual variations, to the provisional contribution of Rs. 14½ lakhs made by Government towards plague expenditure having been treated as a final grant under the orders contained in Bombay Government Resolution No. 2807, Financial Department (Plague), of 15th June 1899.

43. The assets aggregating Rs. 6,06,80,111 may be distributed thus :—

A—Cash and paper available for expenditure on revenue and capital projects—			
(1) Cash balance	4,07,688		
(2) Surplus cash deposit	15,22,791		
(3) Loan Funds	20,15,894		
			39,46,373
B—Sinking Fund Investments			30,48,527
C—Special Funds Investments...			5,94,765
D—Advances recoverable and Paper deposits...			4,02,740
E—Reserve Stock			7,20,457
F—Properties			5,19,67,249
		Total Rs...	6,06,80,111

As compared with the preceding year when the assets were placed at Rs. 6,22,84,350, there is a decrease during the year under review of Rs. 16,04,239. The most important item contributing to the decrease is a sum of Rs. 23,47,313 on account of plague expenses which, inasmuch as it does not represent any realizable or tangible assets, have been deleted from the assets statement by debit to a "plague suspense adjustment account" pending decision as to how plague expenditure is to be finally adjusted. In addition to the above large decrease there was a falling off in the cash and paper available for expenditure to the extent of Rs. 4,55,976 and in the value of Reserve Stock of Rs. 1,13,177. Against this gross decrease of Rs. 29,16,456 there was an increase in the Sinking Fund Investments of Rs. 4,14,868 and in Properties of Rs. 8,44,135 making a total increase of Rs. 12,59,003, and a net explained decrease, taking into account the gross decrease of Rs. 29,16,466 detailed above, of Rs. 16,57,463.

44. The Reserve Stock balance of Rs. 7,20,457 does not *correctly* represent the actual value of the stock in hand as explained in the portion of my report dealing with stores.

The values assigned to properties also require revision, by allowing depreciation, by the write-off of properties which no longer exist, and by the inclusion of properties which have been acquired from revenue sources.

A statement of the invested balances at 31st March 1901 as compared with 31st March 1900 will be found attached as Appendix No. 9-B.

WATER WORKS ACCOUNT.

(*Appendix No.* 11.)

45. *I—Income and Expenditure.*—The income derived during the year from water and water appliances supplied and services rendered was Rs. 17,35,635 and the receipts from interest on special invested funds were Rs. 20,136, raising the total gross receipts to Rs. 17,55,771.

The expenditure of the year aggregated Rs. 16,50,178, of which the maintenance and general working of the Water Works absorbed Rs. 3,04,814 ; new works costing Rs. 14,503 were undertaken ; investments account for Rs. 45,136, while the interest paid to Government and the public amounted to Rs. 11,25,320 and the discharge of principal of debt due and payments towards Sinking Fund aggregated Rs. 1,60,405.

Including recoveries to the extent of Rs. 3,62,075 for water supplied to the Municipality itself, the income for the year gives an excess over the expenditure of Rs. 1,05,593. Excluding these inter-departmental charges which have almost all now been held to have been illegally levied, the working of the Water Works during the year shows a loss of Rs. 2,56,482.

As compared with the year 1899-1900 the income fell off by Rs. 36,264-15-0 and the expenditure increased by Rs. 80,870-0-6. Eliminating inter-departmental charges for water-supply, the deficit of Rs. 2,56,482 during the year is an increase on the loss experienced in the preceding year of Rs. 1,55,856.

(*Appendix No.* 12.)

46. *II—Assets and Liabilities.*—The Liabilities aggregated Rs. 2,41,80,188 which were entirely represented by debt, out of which the amount due to Government was Rs. 24,88,260 and to the public Rs. 2,16,91,928.

The Assets aggregating Rs. 2,81,62,975 were represented by properties of the value of Rs. 2,77,09,071 and investments amounting to Rs. 4,53,904. The excess of Assets over Liabilities was Rs. 39,82,787 or Rs. 85,301 more than in the preceding year. This excess of Assets over Liabilities is represented principally by the re-payment of debt charges to the extent of Rs. 37,77,862 and the creation of a Worn-out Water Mains Renewal Fund aggregating Rs. 3,69,607 from the General Revenues.

STORES.

47. The balance of the Reserve Stock in hand according to the general books at the close of the year aggregated Rs. 7,20,456-10-6 against Rs. 8,33,633-13-4 at the close of the preceding year, thus showing the very satisfactory decrease of Rs. 1,13,177-2-10.

The distribution between the various departments of the Municipality at the beginning and the end of the year was as under :—

Departments.	1899-00.	1900-01.	More.	Less.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Chief Accountant ...	46,341 2 2	20,196 9 2	...	26,144 9 0
Water Works ...	4,05,647 12 0	3,76,838 8 6	...	28,809 3 6
Drainage	3,64,424 2 3	3,04,603 1 7	...	59,821 0 8
Executive Engineer ...	17,220 12 11	17,437 11 5	216 14 6	.....
Plague...	.....	1,380 11 10	1,380 11 10	.....
Rs. ...	8,33,633 13 4	7,20,456 10 6	1,597 10 4	1,14,774 13 2
			1,13,177 2 10	

48. The only stores calling for remarks are those under my control and those controlled by the Water and Drainage Engineers. The issues and receipts of stores at the depôt under me were normal during

the year. The decrease of Rs. 26,145 is due almost entirely to a write-off of Rs. 24,375 on account of old stoneware pipes and other materials which had for years been burdening our balances.

The decrease of Rs. 28,809-3-6 in the Water Works Stores is due to the issue of meters, pipes, sluices, spindles and other miscellaneous articles. This result has been achieved notwithstanding the fact that the receipts during the year were Rs. 74,454 against Rs. 52,229 in the previous year, demonstrating that a more careful watch is kept on stock. The large decrease of Rs. 59,821-0-8 in Drainage Stores is the result mainly of large issues of stoneware pipes, junctions, cement and manhole frames and covers. Here too closer supervision appears to have been exercised as the receipts during the year were Rs. 58,614 against Rs. 33,521 in the preceding year and yet the stock decreased.

49. It was not possible during the year to verify the Water Works Stores as was contemplated, as it was found that before stock could be taken, revised methods of accounting would be necessary. Greater attention however was devoted to getting rid of obsolete stores, the result of which will not appear till the accounts for 1901-1902 are prepared. Until a systematic verification and re-valuation is made, it cannot be said that the accounts are efficient or that the value of the stores as represented is correct. The re-valuation and verification of the stock of the Drainage Department which was undertaken as suggested in my letter, No. 8089 of the 26th January 1899, has brought to light the fact that stores borne on our books to the extent of nearly two lakhs of rupees will either have to be sold at a heavy discount or reduced to scrap rate and sold by public auction. The loss resulting to the Municipality will possibly amount to nearly one lakh.

50. The result attained by a more extended check by this Department over stores and stores transactions will, I trust, be considered satisfactory. At the close of 1897-98 the Reserve Stock balances aggregated Rs. 9,03,857, whereas at the close of the year they were only Rs. 7,20,457, thus reducing the capital locked up in stores, in three years by Rs. 1,83,400. A still further reduction is undoubtedly possible, and will be attained when the Water Works Stores are systematically examined and the Drainage Stock reduced to market rates.

WORKSHOPS.

51. The opening balance was Rs. 19,568-8-11 or Rs. 944-9-11 less than that in the preceding year.

The cost of labour and supervising staff employed and of stores used on the work turned out in the shops during the year amounted to Rs. 1,34,951-11-10, or Rs. 5,150-1-2 less than in the preceding year. The total expenditure of the year, including the opening balance, amounted to Rs. 1,54,520-4-9 against which the recoveries made during the year, including the amount realized by the sale of stores, amounted to Rs. 1,44,634-14-4 and the outstandings at the end of the year, including incomplete jobs, aggregated Rs. 18,828-7-2. The net profit realized amounted to Rs. 8,943-0-9 against Rs. 10,861-6-4 in 1899-1900.

GENERAL.

52. Owing to the still further increase in the volume of work to be dealt with, my department experienced during the year the severest strain to which it has ever been subjected.

As compared with the four preceding years, the subjoined table succinctly illustrates what I have already represented, namely, that the work has increased to such an extent as to make it impossible for the office as at present constituted to continue to discharge the duties devolving on it efficiently except by working far beyond office hours and being subjected to a strain which I must most respectfully point out, it should not be called upon to endure indefinitely.

Particulars.	Nature of work.				
	Cash payments to employés.	Receipt vouchers.	Debit vouchers.	Inward letters.	Outward letters.
	Rs.	No.	No.	No.	No.
1896-1897	18,84,083	21,336	50,827	20,579	5,665
1897-1898	19,93,811	22,217	53,907	20,362	6,117
1898-1899	22,98,450	22,039	57,798	22,545	10,433
1899-1900	25,18,276	25,044	61,429	23,676	10,636
1900-1901	26,73,065	25,093	109,685	23,896	12,382
Percentage of increase in 1900-1901 over 1896-1897	46%	18%	118%	16%	119%

It is interesting at the present juncture to quote the language of the late Chief Accountant in his report on the accounts for 1890-91. He stated: "The above figures speak for themselves; the payments "through the paymaster, the receipt and disbursement vouchers and "the number of inward and outward letters were all the largest of "those in any of the previous years."

The figures for 1890-91 alluded to were as follows as compared with 1900-1901 :—

	1890-1891.	1900-1901.	Percentage of increase.
Cash Payments to employés ...	Rs. 14,89,034	Rs. 26,73,065	72 %
Receipt Vouchers	No. 15,329	No. 25,093	64 %
Debit Vouchers	,, 44,022	,, 109,685	149 %
Inward Letters	,, 17,647	,, 23,896	35 %
Outward Letters	,, 4,007	,, 12,382	209 %

PERSONAL.

53. I rejoined my appointment on the 20th May 1900 from the 12 months' sick leave granted to me.

I am greatly indebted to my Deputy Mr. Manekshaw Kawashaw Taleyarkhan and to my Assistant Mr. Ruttonji Furdoonji Khumbátá for the helpful aid extended to me during a very trying year. They co-operated loyally with me and worked early and late to secure the continued efficiency of the department. In regard to my Assistant I would refer you to my previous reports to which I can add nothing to show his great value to the department.

APPENDICES.

54. The following are the appendices attached to my report :—

No. 1. Revenue account.

No. 2. Statement of income realized during 1900-1901.

No. 3. Statement of Town Duties collected and the refunds paid in 1900-1901.

No. 4. Statement showing the final sanctioned Expenditure Grants for 1900-1901.

No. 5. Statement showing the expenditure for 1900-1901 as compared with the final sanctioned grants and with the actuals for the preceding year.

No. 6. Statement showing the outstanding Loans due by the Municipality on 31st March 1901.

No. 7. Statement showing the interest outstanding on different Municipal Loans on 31st March 1901.

No. 8. Statement showing the Surplus Cash Balance on 31st March 1901.

No. 8 (A). Statement showing the amounts of Loans raised up to 31st March 1901, the expenditure incurred therefrom and the invested balances remaining on 31st March 1901.

No. 9. Statement of Assets and Liabilities on 31st March 1901.

No. 9 (A). Statement showing the expenditure on different Loan Works up to 31st March 1901.

No. 9 (B). Statement showing the Invested Surplus, Loan and Reserve Funds Balances on 31st March 1901, as compared with those on 31st March 1900.

No. 10. Statement showing the expenditure on plague operations during 1900-1901.

No. 11. Water Works Income and Expenditure Account.

No. 12. Water Works Assets and Liabilities.

No. 13. Statement of total receipts and disbursements for the year ending 31st March 1901.

REMARKS.

(a) The amount stipulated to be paid off on 1st January 1901, was Rs. 82,500, which, together with 51 unpaid debentures for Rs. 500 each for the preceding years, aggregated Rs. 57,500, against which the debentures actually surrendered for repayment up to 31st March 1901, amounted to Rs. 77,000, leaving an unpaid balance of Rs. 10,500. This balance was represented by the following debentures :—

No. 810—Repayable on 1st January 1903,
Nos. 1021-75 and 1076—Repayable on 1st January 1902.
Nos. 1508-99, 1617, 1679-94, 1844-69, 1948-58, 1961 and 1497—Repayable on 1st January 1901.
The unpaid debentures do not carry interest and will be repaid from the renewed grant, when the parties apply for payment.

(b) As under the terms of these Loans the bonds cannot be repaid to the holders before the dates stipulated in the Debentures the Sinking Fund has been invested as under :—

	Amount of Sinking Fund invested up to 1899-1900.	Sinking Fund instalments paid in 1900-01.	Interest accumulations invested in 1900-01.	Total.

W. D. SHEPPARD,

Acting Municipal Commissioner.

REVENUE.

Report on the working of the Assessment and Collection Department for the year 1900-1901 by Mr. R. P. Brunton, Assessor and Collector, as forwarded with his letter No. 21131, dated 24th August 1901.

1. The total amount collected under all heads, exclusive of Miscellaneous Receipts and of the Tax on Public Land conveyances, Licenses, and Badge fees for the same, also of tolls collected at Sion and Mahim Causeways (these items being shown by the Chief Accountant), was Rs. 56,00,542 against the estimate of Rs. 57,83,000, a difference of Rs. 1,82,458, detailed as under :—

Taxes.	Estimate.	Actual collections including adjustments.	Increases.	Decreases.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
General	30,08,000 0 0	30,09,087 0 0	1,087 0 0	.....
*Water	18,56,000 0 0	17,13,682 0 0	.....	1,42,318 0 0
Halalkhor	7,54,000 0 0	7,19,995 0 0	.....	34,005 0 0
Wheel	1,65,000 0 0	1,57,778 0 0	.....	7,222 0 0
Total ...	57,83,000 0 0	56,00,542 0 0	1,087 0 0	1,83,545 0 0
		Nett decrease ...		1,82,458 0 0

* Exclusive of Meter hire and Receipts by Water Engineer.

2. The decreases are thus accounted for :—

(*a*) *Water, Rs. 1,42,318.* The estimated income for Municipal purposes (page 3 of Budget) was Rs. 4,71,000 ; actual adjustments Rs. 3,62,074 ; difference Rs. 1,08,926.

(*b*) The estimated income from private sources (by meter and on valuations) was Rs. 13,85,000 ; actual recoveries Rs. 13,51,607 ; difference Rs. 33,393, of which Rs. 21,698 was in dispute by private persons on account of alleged excess charges by meter supply, and Rs. 8,897 related to Mill cases, Rs. 2,798 being in dispute on valuations, &c.

3. *Halalkhor, Rs. 34,005.*—There were many disputes during the year, both from private owners and Mill Agents about the Special

Halalkhor Tax, which, for these two items, was estimated at Rs. 1,56,849 ; at the year's close Rs. 26,295 were outstanding on account of Special Halalkhor Service, and Rs. 7,710 on account of other disputed cases.

4. *Wheel Tax, Rs. 7,222.*—Due to the large outstandings of Rs. 15,946 at the end of the year. Up to July 31st last Rs. 11,850 have been collected or adjusted.

5. As compared with the total collections for 1899-1900, which amounted to Rs. 56,41,077, the collections for 1900-01, *viz.*, Rs. 56,00,542 are less by Rs. 40,535.

6. The outstandings on 31st March 1901 for Property Taxes, charges for water by meter, and wheel tax (private) were Rs. 3,68,242, against Rs. 1,79,063 on 31st March 1900, of which Rs. 2,34,822 have been collected or adjusted up to 31st July 1901, leaving at that date Rs. 1,33,420 for recovery for all previous years up to 31st July 1901. In this sum of Rs. 1,33,420, Rs. 91,937 are in dispute on account of valuations, Special Halalkhor Service, water by meter, &c. ; Rs. 1,564 are to be adjusted departmentally, Rs. 519 are irrecoverable.

7. *Registration of Properties.*—The following properties were on the Assessment Book on 31st March 1901 :—

Buildings	34,792
Salt-pans	146
Lands including Tanks and Wells	18,926
Total ...	53,864

of which 41,316 were assessed for the General Tax ; 4,743 were exempted under Section 143 (1) (*a*) (*b*), and 7,805 were not charged that tax, being small plots of land, the nett assessment of which was Rs. 6 and under. The number of new buildings erected and of buildings demolished and enlarged in 1900-01 were :—

New Buildings	295
Bulidings demolished	401
Do. Enlarged	301

8. The assessments of properties contrasted with those of the previous year were :—

Years.	Opening assessment (gross).	Amount after disposal of complaints.		Amount of subsequent reductions during the year by demolitions and complaints.	Gross amount after deductions of subsequent reductions.	Subsequent enhancement (New buildings, enlargements and under-assessments) gross.	Total gross assessments.	Increase. Final difference over preceding years gross assessment.	Rateable assessment.	Classification of rateable assessments.			
		No. of complaints against opening assessments.	Gross assessment.							Chargeable with General Tax.	Exempt from General Tax. Section 148 (1) (a) (b)	For which no General Tax bills issued.	Total rateable assessments.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
	Rs.		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1899-1900 ...	3,01,19,777	2,431	3,01,10,775	2,34,978	2,98,75,797	6,41,294	3,05,17,091	6,63,455	2,74,76,402	2,49,61,166	25,05,799	9,437	2,74,76,402
1900-1901 ...	3,08,56,170	2,339	3,08,07,468	3,31,623	3,04,75,845	8,99,261	3,13,75,106	8,58,015	2,82,48,729	2,56,68,486	25,65,547	14,696	2,82,48,729

The increase shown in column 9 is due to rise in rents and correction of under-assessments Rs. 5,40,491. Erection of new buildings Rs. 93,920 ; and enlargements Rs. 2,23,604.

9. There were 2,339 complaints against the assessments from 1st April, and 421 complaints against the assessments made during the currency of the year. Total 2,760.

10. The following tables give the increases or decreases in property taxes as compared with those of 1899-1900 :—

General Tax.

1899-1900.				1900-1901.				
12½ per cent.	Compounded sum payable by Government under section 144 (3).	Compounded sum payable by the Port Trustees under section 145(3).	Total of columns 1, 2 and 3.	12½ per cent.	Compounded sum payable by Government under section 144 (3).	Compounded sum payable by the Port Trustees under section 145 (3).	Total of columns 5, 6 and 7.	Increase—Difference between columns 4 and 8.
1	2	3	4	5	6	7	8	9
Rs. a. p. 27,51,253 14 1	Rs. a. p. 1,44,667 0 0	Rs. a. p. 2,24,237 0 0	Rs. a. p. 1,20,157 14 1	Rs. a. p. 28,26,216 0 4	Rs. a. p. 1,58,112 0 0	Rs. a. p. 2,24,287 0 0	Rs. a. p. 32,08,565 0 4	Rs. a. p. 88,407 2 3

The amount of General Tax on properties exempted under section 143 (1) (*a*) (*b*) is Rs. 3,20,693-5-7 as against Rs. 3,14,406-12-2 in 1899-1900.

11. *Water Tax.*

1899-1900.				1900-1901.				Decrease.			
On rateable Value.	Compounded.	On Meter Measurement.	Total.	On rateable Value.	Compounded.	On Meter Measurement.	Total.	On rateable Value.	Compounded.	On Meter Measurement.	Total.
1	2	3	4	5	6	7	8	9	10	11	12
Rs. a. p. 6,55,037 15 0	Rs. a. p. 37,064 11 9	Rs. a. p. 10,92,666 7 5	Rs. a. p. 17,84,769 2 2	Rs. a. p. 6,30,693 3 8	Rs. a. p. 36,875 6 2	Rs. a. p. 10,82,144 6 11	Rs. a. p. 17,50,013 0 9	Rs. a. p. 24,344 11 4	Rs. a. p. 189 5 7	Rs. a. p. 10,232 0 6	Rs. a. p. 34,765 1 5

The causes of the decreases are many properties formerly taxed on rateable value now charged on Meter measurement from the dates of fixing of the meters: where new meters have been fixed the demand is only up to the 30th September 1900, the bills being issued half-yearly, viz., up to the 31st March and 30th September, therefore, the demand up to the 31st March 1901 will appear in the report for 1901-1902.

12. *Halalkhor Tax.*

1899-1900			1900-1901.			Increase.
On rateable Value.	Special Service.	Total.	On rateable Value.	Special Service.	Total.	
1	2	3	4	5	6	7
Rs. a. p. 5,76,515 7 5	Rs. a. p. 1,65,702 12 2	Rs. a. p. 7,41,218 3 7	Rs. a. p. 5,33,981 13 4	Rs. a. p. 1,86,569 3 9	Rs. a. p. 7,70,551 1 1	Rs. a. p. 29,332 13 6

13. The total demand on account of Property Taxes amounted to Rs. 57,29,129-2-2, to which is to be added Rs. 16,949-12-11 on account of previous years, and Rs. 13,445 paid by Government in lieu of General Tax for 1899-1900 according to Mr. Stevens award, making a total of Rs. 57,59,523-15-1. From this sum Rs. 1,10,564-13-5 were allowed as $\frac{1}{5}$th drawback on the General Tax, section 158 (2) of the Act. The number of claims for the drawback was 16,422.

14. For property taxes, 405 bills for Rs. 16,949-12-11 for previous years, and for 1900-1901, 76,090 bills for Rs. 52,36,215-4-9 were issued, a total of 76,495 bills for Rs. 52,53,165-1-8.

15. Payments by Government and the Port Trust in lieu of the General Tax (sections 144 (3) and 145 (3)) are not made on bills, but are made direct into the Chief Accountant's Office.

16. For property taxes, the outstanding balance, for all years on 31st March 1900, was Rs. 1,70,211-5-9. During 1900-01 bills for these taxes amounting to Rs. 52,53,165-1-8 were issued; Government and the Port Trust paid Rs. 3,95,794 (1,71,557 + 2,24,237) making a total of Rs. 58,19,170-7-5; of this amount Rs. 54,42,763-11-7 were collected, *viz.*, Rs. 1,45,938-1-4 for former years and Rs. 52,96,825-10-3 for 1900-01, leaving uncollected Rs. 3,76,406-11-10, from which the following sums are to be deducted:

Rs. 925-15-4 written off by the Standing Committee's Resolutions Nos. $\frac{1659}{9\text{-}5\text{-}1900}$, $\frac{2709}{30\text{-}5\text{-}1900}$, $\frac{5784}{22\text{-}8\text{-}1900}$, $\frac{12032}{13\text{-}2\text{-}1901}$, and Rs. 23,186-9-4 on bills cancelled, amended bills being issued. Total Rs. 24,110-8-8.

17. The outstandings on 31st March 1901 were Rs. 30,557-8-8 on account of former years, and Rs. 3,21,738-10-6 for 1900-1901. Total Rs. 3,52,296-3-2.

18. *Tax on Vehicles and Animals.*—The demand on account of the tax on private vehicles and animals for the four quarters ended 31st December 1900 was Rs. 1,65,980-3-0, against Rs. 1,65,876-3-4 for 1899; to the sum of Rs. 1,65,980-3-0 are to be added Rs. 8,852-3-4 outstanding on the 31st March 1900, and Rs. 657-1-0 charges for former years, making a total of Rs. 1,75,489-7-4 for recovery; 16,010 bills were issued and the amount collected was Rs. 1,57,778-5-9, leaving Rs. 17,711-1-7 uncollected, of which Rs. 459-3-1 were written off under the Standing Committee's Resolutions Nos. $\frac{1659}{9\text{-}5\text{-}1900}$, $\frac{2709}{30\text{-}5\text{-}1900}$, $\frac{5784}{22\text{-}8\text{-}1900}$ and $\frac{12032}{13\text{-}2\text{-}1901}$, Rs. 1,305-10-0 were on bills recalled, amended bills being issued, making a total of Rs. 1,764-13-1, which deducted from Rs. 17,711-1-7, leaves Rs. 15,946-4-6 outstanding at the end of the year.

19. There were taxed, during the year, 3,357 four-wheeled vehicles; 717 two-wheeled vehicles; 368 vehicles not drawn by horses; 1,400 bicycles; horses (including those in commission stables) 5,495; 182 ponies; 664 bullocks and 2 donkeys.

20. The following table shows the total demands, collections, and balances on account of property taxes and taxes on private vehicles and animals:—

Year.	Amount to be collected.			Bills written off under Standing Committee's Resolutions and Bills recalled for amendment.	Collections.	Outstanding Balances on 31st March 1901.
	Opening Outstanding Balances.	Demands assessed for the year and for former years.	Total.			
1	2	3	4	5	6	7
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
1900-01	1,79,063 9 1	58,15,596 5 8	59,94,659 14 9	25,875 5 9	56,00,542 1 4	3,68,242 7 8

21. The miscellaneous receipts for Notice, Warrant, and Battaki fees and other small items amounted to Rs. 5,584-9-0 against Rs. 5,762-6-5 in 1899-1900; and the receipts for Meter hire were Rs. 17,238-12-7 against Rs. 15,356-15-9 for the past year.

22. Certificates of refund for taxes and fees were issued as under for 1900-1901 and for former years :—

	Rs.	a.	p.
General Tax	14,429	13	10
Water Tax	4,833	0	1
Halalkor Tax	5,316	7	5
Wheel Tax	30	0	0
Notice Fees	0	12	0
Total Rs. ...	24,610	1	4

Last year the total was 29,278-7-0.

23. There were 26 appeals to the Chief Judge of the Small Causes Court, viz., 18 against Assessment, of which 15 were settled by consent, 1 withdrawn, 1 allowed and 1 (the Panday Sanitarium case) ended partly in favour of the appellants, and partly in favour of the Municipalty ; 2 against the Water Tax (meter), one being withdrawn and the other settled by consent ; 4 against the Special Halalkhor Tax, of which one was dismissed, and 3 were withdrawn by the appellants ; one was a claim for $\frac{1}{3}$th drawback which was withdrawn. There was also the B Ward Election appeal, which was allowed.

24. The work of the Department was interfered with by the Census and the General Election, besides which there has been much difficulty in collecting the taxes, especially in the cases of many of the mills, and also owing to the large number of disputes about valuations, charges for water by meter-measurement, Special Halalkhor Tax, &c. The continued badness of trade, too, has hampered the work.

25. I beg to repeat that more permanent hands are wanted in both the in-door and out-door branches.

25. I was absent on privilege leave from the 21st April to 20th July, during which time Mr. J. Leask acted as Assessor and Collector up to 25th June, and Mr. W. Pearson from 26th June to the 20th July.

R. P. BRUNTON,
Assessor and Collector.

I.—REVENUE AUDIT.

1.—Assessor and Collector's Department.

(a) *Ward Offices.*

2. The balances and books of the 61 Ward Clerks in the seven wards of the City were duly examined at the end of each quarter. The amount of audit work done on each of these occasions is shown in detail in Appendix **A**.

3. The 61,177 bills for Rs. 30,48,295-6-10 were duly checked in detail with the Ward Office Bill Book, Form 16 (every entry in which was subjected to scrutiny), and in totals, which were themselves tested with the book, kept under para. 9, at page 155 of the Manual, which is practically the Ward Clerk's Ledger. They were also checked with the Head Office Accounts (Forms 8 and 9) both in detail and in totals respectively.

(b) *Head Office.*

4. The Assessment Book in both its parts, one for the General Tax and the other for the Water and Halalkhor Taxes, was duly examined, and the exemptions from the payment of the General Tax, the Water Tax, and the Halalkhor Tax were duly checked with a view to ascertain that no property liable to pay any or all of these taxes had escaped assessment.

5. The Vehicle and Animal Tax Book, kept under Section 186 of the Act, was also examined, and all the entries therein checked with the Quarterly Returns of the Ward Superintendents, and, where necessary, also with the owners' returns, under Section 187, and with the charges made for the preceding quarters. Appendix **B** gives the details for each ward.

6. As the year recognised by the Bombay Act VI of 1863 is the calendar year, the revenue from the tax on Public Land Conveyances, licensed by the Commissioner of Police under that Act, was also audited for the twelve months, from 1st January to 31st December 1900, the certificates of issue of licenses supplied by that Officer under arrangements made with him having been duly checked with the register now kept by the Chief Accountant, the following table shows the work done :—

Description of Public Land Conveyances.	No. of Certificates or Vouchers.	Amount of Revenue, including Fees for Badges, &c.
		Rs. a. p.
Victorias	862	57,634 14 0
Labour Carts	6,344	81,455 14 0
Riding Hackeries	204	4,499 0 0
Total	7,410	1,43,589 12 0

7. Appendix **C** shows the number of claims to one-fifth drawback under Section 158 (2) of the Act, which were scrutinized by this office during 1900-1901.

8. The alteration in value and in demand made through the Increase and Decrease Forms 11, 11A and 11B, were duly checked with the authority for such alterations, as contained in your orders in the Tabulated Ward Report (Form 13), and in separate sanctions recorded in the Audit Note Books kept in this office. The total number of such entries checked was 8,109.

9. The number of complaints against valuations under Section 163 heard by the Revenue and Refund Audit Officer was :—233-A Fort and Colaba Ward; 275 B Mandvi Ward;-229-D Girgam Ward; and 100 F Parel Ward. The total number of decisions on complaints against amendments under Section 167 of the Municipal Act, which were scrutinized by this office, amounted to 273 from all the seven wards of the City.

10. Irrecoverable bills for Rs. 1,388-2-9, as per details given in the subjoined table, were scrutinized and submitted to you in the prescribed form for action under Section 216 of the Act :—

Wards.	No. of Bills.	AMOUNT.				
		Tax on Vehicles and Animals.	Property Taxes.	Meter hire.	Process Fees.	Total.
		Rs. a. p.	Rs. a. p	Rs. a. p.	Rs. a. p.	Rs. a. p.

E ...	11	46 11 0	25 13 3	...	0 8 0	73 0 3
F ...	5	17 0 0	44 8 10	...	...	61 8 10
G ...	35	6 8 0	76 6 11	...	...	82 14 11
Total...	113	459 3 1	923 15 4	4 0 4	1 0 0	1,388 2 9

The Standing Committee sanctioned their being written off in their Resolutions Nos. 1659, 2709, 5784, and 12032, dated 9th May 1900, 30th May 1900, 22nd August 1900, and 13th February 1901, respectively.

11. The preliminary list of voters under Section 19 for the final Election Roll under Section 21 was duly scrutinized.

12. The demands, collections, and balances of the Department at the close of the year, as duly audited in the manner contemplated by the Manual, are summarized below:—

———	The General Tax.			The Water Tax.			The Halalkhor Tax.			The Vehicle and Animal Tax.			Total.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.

V—Balance at the close of the year...	1,72,646	5	11	98,747	3	0	80,902	10	3	15,946	4	6	3,68,242	7	8

The collections were checked with receipts passed by the Chief Accountant, as also with his totals under each head, and the balances by an examination of the bills actually on hand in the several Ward Offices on 1st April 1901. They were found to be correct.

II—Engineer's Department.

13. The Revenue Books kept in the Streets and Buildings, Water Works, Drainage, and Special Drainage Branches of the Executive Engineer's Department were duly checked each month with the permits, receipts, vouchers, and other papers supporting the several entries therein, the object of the audit being to see that the charges were correctly calculated at rates duly sanctioned, and that the collections as shown by the various books were all paid into the Municipal Treasury. The number of vouchers examined (under the 24 heads of Revenue detailed in the table of the last year's Report) was 7,734 representing Rs. 30,790-3-4.

14. A comparison of the Engineer's Accounts, with the Audit Note Book in this Office which records your sanction in each case as it passes through this Office, showed that in 8 cases the fees, the levy of which had been sanctioned by you in the course of the year under report, had not been collected and paid into the Municipal Treasury up to the close of the year, and those 8 cases were duly brought to the notice of the Executive Engineer in this Office No. 481, of 8th May 1901, which was forwarded to him through you.

III.—Health Department.

15. The Revenue Books kept in the Health Office, as well as those kept in the four Divisional Health Offices (Nos. 1 to 4 Divisions) were duly checked each month with the receipts, vouchers and other papers supporting the entries therein, the object of the audit being to ascertain that the amounts collected as shown by the various books were at the rates fixed under due authority, and that they were all paid into the Municipal Treasury. The number of vouchers examined (under the 17 heads of Revenue detailed in the table of the last year's Report) was 27,063 representing Rs. 59,569-11-0.

IV.—Licensing Department.

16. The number of licenses for 1900-1901, the issue of which was sanctioned by you under Sections 394 and 393 of the Act for the several purposes mentioned in Schedule **M** (*vide* Appendix **G** of the last year's Report) was 5,950 for Rs. 64,467 and each of the 5,950 cases passed through this Office, and was duly scrutinized, particularly with reference to the amount of fee leviable. The Register of the Superintendent and the counterfoils of the several License Books were also checked each month with the Audit Note Book kept in this Office in accordance with your No. 3176, of 20th May 1890, and with the counterfoils of the receipts given by the Chief Accountant's cashier for the purpose of seeing that the full amount of fee leviable in each case was collected and paid into the Municipal Treasury.

V.—Markets and Slaughter Houses.

17. The registers and accounts kept for the different Markets and Bandora Slaughter Houses were duly checked with the counterfoils of receipts issued to stall-holders, &c., and with the other vouchers available. The total number of vouchers examined (under the 29 heads of Revenue detailed in the tables of the last year's Report) was 14,275 representing Rs. 4,16,096-1-4, which amount appeared duly credited into the Municipal Treasury.

VI.—Victoria Gardens.

18. The Revenue Books kept in the Superintendent's Office were duly checked with the counterfoils of receipts issued for the sale of garden produce. The number of vouchers examined was 5,296 representing Rs. 7,194, which amount appeared duly credited into the Municipal Treasury.

VII.—Rent Accounts of Health Camps.

19. The only rent yielding Narielwadi and Sankli Street camps having been pulled down in May 1900 (*vide* Deputy Commissioner's Nos. P-15796 of 21st March 1900 and 5325 of 9th August 1900) the rent accounts of the above camps were duly checked for the only month of April 1900, with the counterfoils of receipts issued to the occupiers of the various huts or rooms (as the case may be) in each camp, and with the other vouchers available in compliance with the directions contained in your No. 8972 of 11th July 1898. The object of the Audit being to see that the rents charged as shown by the books were at the rates fixed under due authority and that they (56 receipts amounting to Rs. 58) were all paid into the Municipal Treasury.

In addition to the above camps the rent accounts of the Victoria Bunder and the Crawford Market camps in charge of the Executive Engineer were also checked every month along with the receipts of the Streets and Buildings Department of his Offices, the latter Department having not kept the books of account of these two camps in the manner prescribed by the Deputy Commissioner in his No. P-3335 of 20th June 1899.

General.

20. As the monthly or quarterly Audit of the several Departments proceeded, the errors, irregularities, or omissions, which were discovered in the course of it, were brought to the notice of the Heads of Departments concerned by means of official communications addressed to them through you.

II. Refund Audit.

1.—Assessment Department.

21. The number of claims to refund for vacancy under Sections 174 to 179 of the Act, and on account of over collections which were scrutinized and sanctioned by this Office in the year under report was 1,121 representing Rs. 25,968-2-0.

II.—Town Duty Refunds.

22. As the Port Trustees and the two Railway Companies send in no administration reports of the Town Dues collected by them on behalf of the Municipality, it is usual for this Office to submit the two statements (compiled in respect of collections from figures supplied by the Chief Accountant) marked as Appendices **D** and **E** to this report. The following table compares the total results for the year under report with those for the previous year :—

Year.	Gross Revenue.	Total Refunds.	Net Revenue.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
1899-1900	26,88,002 13 1	12,04,975 10 0	14,83,027 3 1
1900-1901	30,84,008 10 4	18,66,982 2 0	12,17,026 8 4

A survey of the figures in the detailed Statements **D** and **E** will show that the heavy increase of nearly 4 lakhs in the gross collections is the net result of increases under some heads and decreases under others, the principal variation being the very large increase of Rs. 4,10,408-4-0 under the head of sugar, due to larger imports.

The refunds exhibit increases under every head, the most noticeable being that of Rs. 3,01,940-4-0 under the head of grain and of Rs. 3,08,707-15-0 under that of sugar. These are in part due to larger exports, but some portion of the increases under all heads is due to the disposal during the year under report of about 5,000 claims that had been held back from the preceding year under the circumstances that were explained in the Annual Report for that year. The aggregate amount of refund allowed on this account alone was about 2 lakhs of rupees.

The above circumstance, by swelling the amount of refunds, contributed to a corresponding diminution of the net revenue, just as it had led in the previous year to an illusory expansion of the revenue for that year. With the single exception of sugar under which head there was an increase of Rs. 1,01,700-5-0 the revenue from each of the other articles fell off, the most prominent decrease being that of Rs. 3,12,055-10-5 under the heads of grain and flour, the net result being a decrease of Rs. 2,66,000-10-9. Nevertheless, taking the two years together, the average result is Rs. 13½ lakhs for each year. The true criterion of increase or decrease in revenue is a comparison not of the *revenue* itself, which may vary with varying *rates* of duty, but of the *consumption* taxed, or to put it more correctly, the *balance of imports over exports*, since this would include the whole position, the fluctuations of stock as well as the consumption. The

following table compares the average balance taxed during the two years under consideration with the average of the quinquennial period that preceded them :—

Articles.	Balance of Imports over Exports, taxed.			
	Average during the 5 years from 1894-95 to 1898-99.	Average during the 2 years 1899-1900 and 1900-1901.	Increase.	Decrease.
Grain and Flour ... Candies.	9,59,323	10,90,205	1,30,882	...
Sugar ... ... Cwts.	4,27,875	5,52,415	1,24,540	...
Wines & Spirits ... Impl. gal.	8,51,332	9,11,444	60,112	...
Beer ... ... ,, ,,	3,38,432	3,25,149	...	13,283
Ghee ... ... Bom. mds.	3,07,627	3,41,568	33,941	...
Timber ... ... Value Rs.	41,42,699	42,84,800	1,41,101	...
Firewood ... ... Candies	5,53,219	6,06,866	73,647	...

With a decreasing population as revealed by the recent Census this substantial advance in the consumption of, and consequently in the revenue derived from, almost every article cannot be regarded otherwise than as satisfactory.

The number of claims dealt with during the year was 71,699 against 49,362 in the preceding year. The steady rise in the numbers year after year during the past three years exhibits in the year of report an increase of 150 per cent. over the numbers that used to be received in former years, as will be seen from the following table :—

Year.	No. of claims received.	Average number per every working day in the year.
1895-96	29,814	105
1896-97	27,701	99
1897-98	28,072	102
1898-99	34,856	125
1899-1900	49,362	174
1900-01	71,699	266

No. 7690 of 1901-1902.

Executive Engineer's Office,
Bombay, *14th August* 1901.

To

The MUNICIPAL COMMISSIONER
for the City of Bombay.

Sir,

I have the honour to forward herewith the Administration Report of the Department under my control for the year 1900-1901 as requested in your No. 1059, dated 16th April 1901.

2. The report is divided under the following heads:—

	Paras.
A.—Introductory Remarks	3 to 16
B.—New Works, &c., General ...	17 to 41
C.—Special Drainage Works	42 to 117
D.—Ordinary Drainage Works ...	118 to 189
E.—Water Works	190 to 243
F.—Regulation of Streets and Buildings	244 to 264
G.—Roads, Footpaths, &c.....	265 to 273
H.—Public Lighting.....	274 to 294
I.—Workshops	295 to 314
J.—General,—Bills, Notices and Correspondence, Summary of Clerical Works, Plague Operations, List of Municipal Properties and Municipal Servants' Act	315 to 333

A.

INTRODUCTORY REMARKS.

ESTABLISHMENT.

3. I held the appointment of Executive Engineer, Municipality, throughout the year.

4. I was assisted by the following Officers in conducting the duties of the different branches of the Department :—

5. MR. C. C. JAMES, M.I.C.E., Deputy Executive Engineer, Drainage, was in charge of the Ordinary Drainage Works from 1st April to 21st July 1900, and after the death of MR. JAMES W. SMITH, M.INST.C.E., which occurred on the 21st July 1900, MR. JAMES was placed in charge of the Special Drainage Works in addition to his own duties from 23rd July to 31st October 1900.

6. The Special Drainage Department was placed under the Executive Engineer as a branch of his Department, under the Resolution of the Municipal Corporation, No. 5983 of 27th August 1900, and MR. C. C. JAMES was placed in charge of that branch with the designation Deputy Executive Engineer, Drainage, Special Branch.

7. MR. C. C. JAMES was allowed 1 month and 19 days' privilege leave from 7th May to 25th June 1900, and 4 days' leave without pay in continuation thereof up to 29th June 1900.

8. MR. MANECKJI SHERIARJI BHARUCHA, L.C.E., Assistant Engineer, General Branch, was placed temporarily in charge of the Ordinary Drainage Branch from 1st November 1900 until the arrival from England of MR. NICHOLAS MAUGHAN, who was appointed by the Municipal Commissioner as Deputy Executive Engineer, Ordinary Drainage Branch, on the 26th January 1901.

9. MR. A. FAIRLIE BRUCE, M.I.C.E., Deputy Executive Engineer, was in charge of the Water Branch. MR. BRUCE was allowed privilege leave for three months from 3rd January 1901 and two days' leave without pay in continuation thereof. He resumed charge of his duties on 5th April 1901. MR. NASSERWANJI DORABJI BHADA, L.C.E., A.M.I.C.E., who was on furlough from 19th September 1899, was recalled to act as Deputy Executive Engineer, Water Branch, during the absence of MR. BRUCE.

10. MR. MANECKJI SHERIARJI BHARUCHA, L.C.E., Assistant Engineer, General Department, was in charge of the Road Branch. He also assisted me in preparing projects for new works, framing reports and supervising the new works in the General Department, except during the period from 1st November 1900 to 25th January 1901 when he acted as Deputy Executive Engineer, Drainage Ordinary Branch. MR. JAMSEDJI DADABHAI NADIRSHAH, L.C.E., acted as Assistant Engineer, General Branch, in place of MR. M. S. BHARUCHA.

11. MR. B. H. HEWETT, A.M.I.C.E., Assistant Engineer, was in charge of the Mechanical Branch and supervised the working, repairs and maintenance of the Love Grove Pumping Station, the Colaba Air Compressor Station, the Municipal Workshops and the Electric Light Installation, &c., &c.

12. MR. JAMSEDJI DADABHAI NADIRSHAH, L.C.E., and MR. NAVROJI DADABHAI KATRAK, L.C.E., were Assistant Engineers in charge of the House Improvement Branch during the year, excepting the period from 1st November 1900 to 25th January 1901, when MR. NAVROJI DADABHAI KATRAK was in sole charge of that branch during the time MR. JAMSEDJI DADABHAI NADIRSHAH acted as Assistant Engineer, General Branch.

13. MESSRS. KAIKHOSROO PESTONJI BHEDWAR, L.C.E., NAVROJI HORMASJI KATRAK, L.C.E., A.M.I.C.E., and HARI BHICAJI BHANDARE, L.C.E., Divisional Superintendents, assisted me in matters connected with Streets and Buildings.

14. MR. N. H. KATRAK was appointed to act as Assistant Engineer in the Water Branch from 8th May 1900 to 22nd December 1900, and again from 3rd January to 4th April 1901 during the absence of MR. BHADA on furlough and while he was acting as Deputy Executive Engineer, Water Branch. MR. RAMCHANDRA BHICAJI BHANDARE, L.C.E., sub. *pro tem.* Head Surveyor, Water Branch, acted as Divisional Superintendent during that period.

15. MR. GOVINDRAM DULABHRAM, Architectural Surveyor, was in charge of the Architectural and Drawing Branches. He helped me in preparing plans and estimates and supervising the construction of new buildings and the maintenance of existing ones. He also supervised the construction of the several temporary Hospitals, Segregation and Health Camps, &c., in connection with the measures taken for the suppression of the Plague.

16. MR. GOVINDRAM was allowed one month's privilege leave from 13th February 1901 to 12th March 1901 and MR. JAMSEDJI JIJEEBHAI PUSTAKIA acted as Architectural Surveyor during Mr. Govindram's absence.

B.

NEW WORKS, &c.

17. Subjoined is a list of new works, each costing over Rs. 3,000. They are divided as follows :—

(*a*) hose completed during the previous years, but the accounts of which remained unadjusted till the commencement of the year under report, (*b*) those which were in progress at the beginning of the year under report and completed during that year, (*c*) those which were commenced, and completed during the year, (*d*) those which were commenced, but not completed during the year, and (*e*) those which have been sanctioned, but not proceeded with or postponed, for want of funds or other reasons.—

17. NEW WORKS, &c.

List of new works, each costing over Rs. 3,000.

NEW WORKS.

GENERAL BRANCH.

Quarters for Watchmen and Sluicemen at Malabar Hill and Bhandarwada Reservoirs.

18. The work of new quarters at Malabar Hill was taken in hand during the year under report. The order to commence the work was given on 1st November 1900. It was in progress at the close of the year and the total expenditure passed up to 31st March 1901 has been Rs. 1,610-2-5.

19. The order to commence the work of the new quarters at the Bhandarwada Reservoir was given on 4th February 1901. The work was in progress at the end of the year.

20. The work could not be commenced earlier as an old chawl stood on the site of the new quarters. The former was removed after erecting temporary quarters for the men on another site. The materials of the old chawl were sold by public auction.

21. The total expenditure passed up to 31st March 1901 has been Rs. 249-15-2.

Construction of a cage for an elephant in the Victoria Gardens.

22. This work was approved by the Standing Committee under their Resolution No. 9301 of 21st November 1900 at an estimated cost of Rs. 3,078 and sanctioned by the Corporation under their Resolution No. 9951 of 6th December 1900.

23. It was entrusted to Messrs. Devram Keshavji & Co., the Contractors for Annual Repairs and Petty Works for the year 1900-1901, on the 19th December 1900. It was in progress at the end of the year under report.

24. The total expenditure passed up to the 31st March 1901 has been Rs. 529-1-2.

Construction of an iron cage for animals in the Victoria Gardens.

25. This work referred to in the last Administration Report has been completed at a cost of Rs. 3,716-8-7.

Renewing the corrugated iron sheets over the roof of the Fruit Market in the Arthur Crawford Markets.

26. This work was sanctioned in the Budget of the year 1900-1901 at an estimated cost of Rs. 10,500.

27. Tenders were invited in the month of August 1900, but only one was received. The amount of this tender being higher than the amount of the office estimate, it was considered advisable to invite offers from some of the well-known Contractors. These were received in the month of November 1900 and the one from Messrs. Abdulalli Ahmedalli & Co., being the lowest of 4 tenders received, was accepted by the Standing Committee under their Resolution No. 11200 of 16th January 1901.

28. An order to commence the work could not, however, be given until the 20th March 1901 as the Contractors had not paid the necessary deposit and signed the contract.

29. The total expenditure passed up to the 31st March 1901 has been Rs. 145-12-3.

Paving Cabstands.

30. This work was sanctioned in the Budget for the year 1900-1901 at a cost of Rs. 5,000.

31. Tenders were invited and the one from Messrs. Rasulkhan Mahomedkhan & Co., being the lowest of 6 tenders received, was accepted by the Municipal Commissioner under his No. 31047 of 22nd February 1901.

32. The total expenditure passed up to 31st March 1901 has been Rs. 59-4-0.

Reay Road.

33. As stated in the last Annual Report the whole of this road has [illegible]pleted with the exception of the following portions :—

[illegible]portion between Lawrence DeLima Street and Wari Bundar

[illegible]e over the existing Railway sidings at Wari Bundar, and

[illegible]pproaches on the north and south sides.

[illegible]e completion of these portions has been deferred, until the [illegible] of the proposed Port Trust Railway to the Docks is settled.

Souter Road.

35. This work is fully described in previous reports. This road which is in the Agripada District and which is in an unfinished state has now been made over to the City Improvement Trust.

Vincent Road.

36. The hearing of the suit brought by the Contractors for the construction of Vincent Road against the Municipality commenced on 14th February 1901. It has not yet been concluded. The result will be given in a subsequent report when the case is finally disposed of.

Disposal of Town Sweepings of the City.

37. As stated in the last Annual Report the only work that remained to be executed at the close of the year 1899-1900, was that of constructing a bund about 3 miles in length round the boundary of the ground of Deonar to keep out sea water. Tenders for this work were invited and the lowest, *viz.*, that of Messrs. Sittaram Laxman & Co., was accepted. The work has progressed satisfactorily during the year under review and will soon be completed.

Burial Grounds at Narielwadi.

38. The work of preparing burial grounds for different sects of Mahomedans at Narielwadi is in progress.

39. The total expenditure passed up to 31st March 1901 has been Rs. 1,24,912-4-7.

Extension of the Christian Cemetery at Sivri.

40. The portion added to the Sivri Cemetery was brought into use during the year under review. Some extra works were taken in hand about the close of the year and will probably be completed before the commencement of the next monsoon.

THE NASARVANJI MANEKJI PETIT PUBLIC HALL.

41. As stated in the last Administration Report, a letter wa
addressed to Bai Avabai Petit pointing out that her mother Bai Dinb
Petit had approved of the terms on which her offer was accepted a
that these terms subsequently confirmed and sanctioned b
Corporation, contained a stipulation that the said Public Hal
available on payment of fees for "all public and other me
gatherings convened for any lawful purpose." This be
proposal, subsequently made by Bai Avabai to give
power to the Committee of Management as regards the use
is not in accord with the original agreement with the late
Bai Avabai, however, declined to alter her decision and t
tion not seeing their way to meet the wishes of Bai Ava
matter, the question of building the Nasarvanji Mar
Public Hall has been abandoned.

C.

SPECIAL DRAINAGE WORKS.

42. These works were formerly carried out by a separate department administered by the late Mr. James W. Smith, Special Drainage Engineer. After his death which occurred on the 21st July 1900 they have been placed under my charge and the Special Drainage Office has been transferred as a branch of my Department under the Municipal Corporation's Resolution No. 5983, dated 27th August 1900.

43. The following are the particulars of New Works executed under the supervision of this Branch :—

Works completed during the previous years, but the accounts of which remained unadjusted till the commencement of the year under report and adjusted during that year.

MAZGAON SEWERAGE WORKS.

(Gravitation Portion.)

CONTRACTORS—MESSRS. SULLEMANJI MULLA ABDULALLI & Co.

44. As stated in the previous year's report the works were finally taken over from the Contractors on the 9th November 1899 after a full inspection. The final bill, however, was not passed before the close of that financial year.

45. It was passed on 16th May 1900 and amounted to Rs. 2,42,670-11-0.

46. The total expenditure certified and passed on account of these works has amounted to Rs. 3,06,687-3-8 as detailed below :—

	Rs.	a.	p.
Establishment	28,363	3	5
Contingencies	8,524	4	7
Road Repairs	21,942	5	9
Works	2,44,046	14	6
Add—Advance for Establishment for preparing plans and estimates	4,700	0	0
Rs.	3,07,576	12	3
Less—Credit by sale of contract forms, &c. „	889	8	7
Rs.	3,06,687	3	8

[S]TACE DRAINAGE WORKS IN KAMATIPURA DISTRICT.

[C]TORS—MESSRS. ALI MAHOMED ABDULALI & Co.

works as originally sanctioned were completed in 1899-1900. , however, in respect of the work in Stable Street and in f Bapty Road between Grant Road and Sukhlaji Street, ntrusted to the same Contractors, was not ready at the end It was passed on the 18th July 1900.

48. The total grant for the works was Rs. 91,805 and the total expenditure certified and passed was Rs. 83,440-9-2 as detailed below :—

	Rs.	a.	p.
Establishment	4,668	1	3
Contingencies	2,354	13	10
Road Repairs	6,000	0	0
Work	70,477	10	1
Rs.	83,500	9	2
Less—Credit by sale of contract forms ... „	60	0	0
Total Rs.	83,440	9	2

Works completed during the previous years, but the accounts of which were not closed up to the end of the year under report.

COLABA AND UMARKHADI SEWERAGE WORKS.

49. As stated in the previous year's report the suit filed by Messrs. Bulkley & Co. came to an end, their appeal having been finally dismissed. There appears to be no possibility now of the Contractors appealing to the Privy Council as I understand that the case is now time-barred. The cost on both sides have been taxed by the Commissioner of the High Court, but both parties being dissatisfied on certain points the matter is to be referred back to the Appeal Court.

Works in progress at the beginning of the year under report and completed and the accounts closed during that year.

WORKS IN OVOIDING AND CONSTRUCTING MASONRY SIDE DRAINS IN DIFFERENT PLACES.

CONTRACTORS—MESSRS. ALI MAHOMED ABDULALLI & CO. AND MESSRS. ESUFALLI ABDULALLI & CO.

	Rs.
50. Ovoiding and constructing masonry side drains—	
(*a*) in Gowalia Tank Road (south side)	2,762
(*b*) in 2nd Pathan Street (both sides)	3,733
(*c*) in Dadar Road from Adam Mistri's premises to the drain near the junction of Dadar Road and Elphinstone Road	2,188
(*d*) in Dadar Road (north side) in front of Mr. V. J. Kirtikar's premises, Nos. 45-48	834
(*e*) in Dadar Road (east side)	1,540
(*f*) in Matharpakhadi Road (both sides) in front of chawls Nos. 74-90	1,0[illegible]
(*g*) in Walkeshwar Road between Ridge Road and Queen's Road	1[illegible]
(*h*) in Mugbhat Lane	
(*i*) in Dongarsi Road near Mr. O'Connell's bungalow	
(*j*) in Mount Pleasant Road (south-west side) at its junction with Nepean Sea Road	
and	
(*k*) in Narayan Dabhulkar Road (both sides) at the Dhobi Ghat near Mr. Branson's premises ...	
Total Rs.	2[illegible]

51. As stated in the last report the works (*a*), (*b*), (*d*), (*e*) and (*j*) were entrusted to Messrs. Alli Mahomed Abdulalli & Co. and they were all completed in 1899.

(*c*).—This work was executed in 1898 as part of the works in the improvement of the roadside drains in and about Dadar Road.

52. The work (*g*) was entrusted to Contractors Messrs. Esufalli Abdulalli & Co., and was completed on the 3rd of March 1900.

53. The total expenditure certified and passed amounted to Rs. 7,011-7-11 as detailed below :—

	Rs.	a.	p.
Establishment	418	2	8
Contingencies	122	1	7
Road Repairs	449	0	4
Work	6,022	3	4
Total Rs.	7,011	7	11

54. The works (*f*), (*h*), (*i*) and (*k*) were entrusted to Messrs. Esufalli Abulalli & Co. as an extension of their contract for side drains in Walkeshwar Road. They were completed on the 15th November 1900. The following table shows the sanctioned grant for these works and the total expenditure incurred :—

Description.	Sanctioned Grant.			Expenditure.		
	Rs.	a.	p.	Rs.	a.	p.
(*f*) Ovoiding and constructing side drains in Matarpakhadi ...	1,057	0	0	666	1	5
(*h*) Do. in Mugbhat Lane ...	2,544	0	0	1,928	3	4
(*i*) Do. in Dongarsi Road near Mr. O'Connell's bungalow	1,432	0	0	810	7	1
(*k*) Do. in Narayan Dabholkar Road	706	0	0	442	2	5

WORK IN OVOIDING AND CONSTRUCTING MASONRY SIDE DRAINS IN CARROLL ROAD (NORTH SIDE).

CONTRACTORS—MESSRS. DEORAM KESHAOJI & Co.

55. The sanctioned grant for this work was Rs. 4,603. It was completed on the 25th June 1900. The total expenditure amounted to Rs. 2,711-3-3 as detailed below :—

	Rs.	a.	p.
Contingencies	13	11	10
Road Repairs	74	12	10
Work	2,622	10	7
Total Rs.	2,711	3	3

WORK IN AUTOMATIC FLUSH TANKS ON PIPE-SEWERS IN VARIOUS PARTS OF BOMBAY.

CONTRACTORS—MESSRS. ALLI MAHOMED KASAM & Co.

56. As stated in the previous year's report the work was completed within the contract period except as regards some fittings which had not arrived from England.

57. The sanctioned grant for the work amounts to Rs. 40,480. The total expenditure certified and passed amounted to Rs. 38,434-0-10 as detailed below :—

	Rs.	a.	p.
Establishment	414	11	8
Contingencies	108	8	6
Road Repairs	1,205	5	2
Work	36,705	7	6
Total Rs.	38,434	0	10

58. The total number of tanks constructed is 88.

59. All the tanks have been handed over to the Deputy Executive Engineer, Drainage, Ordinary Branch.

Works commenced and completed and the accounts closed during the year :—

		Rs.
	Constructing Stormwater Drains at—	
(*a*)	The junction of Gowalia Tank Road and Nepean Sea Road to the Foreshore at Nepean Sea Road ...	Grant 2,897
(*b*)	Middle Colaba and Wodehouse Road from Sassoon Dock	„ 10,093
	Ovoiding and constructing Masonry Side drains in—	
(*c*)	Khetwadi Main Road and Charni Road, junction of Surface Drains	„ 447
(*d*)	Girgaum Road in front of Zaoba's Oart	„ 1,357
(*e*)	DeLima Street (both sides)	„ 4,290
(*f*)	Nepean Sea Road from its junction with Mount Pleasant Road to the Sea Beach	„ 2,833
	Total Rs.	21,917

60. Tenders for these works were invited returnable on the 18th April 1900. Only one tender was received, *viz.*, that from Messrs. Alli Mahomed Kasam & Co. The amount of their tender was Rs. 17,706 against the estimated cost of Rs. 18,594, exclusive of 10 per cent. for contingencies and supervision and of the charges for road repairs. The tender was accepted by the Standing Committee under their Resolution No. 1332, dated 2nd May 1900 and order to commence the work was given on 11th idem. The contract time for the completion of the works was up to the 10th October 1900, while they were actually completed on the 15th of November 1900.

61. The Contractors were not responsible for this delay as there was a long correspondence primarily with the Collector of Bombay and subsequently with the Engineer, City Improvement Trust, for permission for the construction of the drain through some Government ground and the location of the outfall works on the foreshore in connection with the drain in Wodehouse Cross Road and consequently it was not possible to grant to the Contractors permission to proceed with that work until the beginning of September 1900.

62. The total expenditure certified and passed on account of these works amounts to Rs. 20,493-10-8 as detailed below:—

	Rs.	a.	p.
Establishment	918	11	4
Contingencies	188	4	7
Road Repairs	1,119	12	2
Work	18,266	14	7
Total	Rs. 20,493	10	8

STORMWATER DRAIN IN BABULA TANK ROAD AND BYRAMJI HALL LANE.

CONTRACTOR—MR. SAYAJI NAGUJI.

63. Offers were invited with the sanction of the Municipal Commissioner under his No. 3249 of 16th May 1900 from the following firms:—

1. Mr. Sayaji Naguji.
2. Messrs. Alli Mahomed Kasam & Co.
3. Messrs. Esufalli Abdulalli & Co.

64. The lowest offer received was that from Mr. Sayaji Naguji amounting to Rs. 3,237 which was Rs. 435 in excess of the office estimate. He, however, agreed to execute the work at the cost estimated by this office, *viz.*, Rs. 2,802. The order to commence the work was given on the 12th June 1900. The time allowed was two months within which the work was completed.

65. The total expenditure amounted to Rs. 2,730-3-3 as detailed below :—

	Rs.	a.	p.
Contingencies	121	3	9
Road Repairs	187	8	3
Work	2,421	7	3
Total Rs. ...	2,730	3	3

Works commenced but not completed or completed and accounts not closed up to the end of the year.

IMPROVEMENT OF ROADSIDE DRAINS AND WATER COURSES IN AND ABOUT DADAR ROAD.

CONTRACTORS—MESSRS. SULLEMANJI MULLA ABDULALLI & Co.

66. The original grant sanctioned for these works was Rs. 30,475. It was subsequently increased by Rs. 3,129 under Corporation's Resolution No. 13502, dated 14th March 1901, owing to an excess due to the proposed diversion of the water-course at present running through the land belonging to the B. B. & C. I. Railway between the Elphinstone Road and Dadar Stations by taking it outside the Railway limits. The total grant therefore amounted to Rs. 33,604.

67. The total expenditure certified and passed to the end of the year was Rs. 22,302-3-0 as per details below :—

	Rs.	a.	p.
Establishment	1,231	9	6
Contingencies	454	8	7
Road Repairs	491	9	7
Work	20,124	7	4
Total Rs. ...	22,302	3	0

68. The execution of the work of diverting the water course is still in abeyance. The land through which the proposed diversion is to be effected has been acquired by the B. B. & C. I. Railway, but it has not been transferred to the Municipality, and the conditions proposed [redacted] the B. B. & C. I. Railway for the passing of the drain across [redacted] are the subject of some further correspondence.

MACHINERY FOR THE PAREL, &c., SECT[redacted] SEWERAGE DISTRICTS.

CONTRACTORS—MESSRS. HUGHES & LANCASTER, BY T[redacted] & ATTORNEYS, MESSRS. RICHARDSON AND CRU[redacted]

69. As stated in the previous year's report the cont[redacted] completion of the machinery and other work expired o[redacted] 1900 when the machinery had not been supplied and th[redacted] had not been wholly completed.

70. The work under this head may be divided as follows :—

(*a*) Supplying and erecting air compressing machinery with boilers, &c., at the Air Compressor Station, Love Grove.

(*b*) Supplying and fixing Shone's sewage ejectors and cast-iron tubbing together with all accessories and excavation for the same ;

2. Supplying and erecting outlet vent-shafts together with all accessories and excavation and masonry for the same ;

3. Supplying and fixing Shone's automatic ejector flush siphons ; and

4. Supplying inlet vent-shafts, all in the Mazgaon Sectional Sewerage District.

(*c*) Excavating for, and supplying, laying and jointing compressed air mains and sealed sewage mains with all fittings.

(*d*) Construction of engine-house, boiler-house, chimney, &c., at Love Grove.

71. All the machinery has been supplied and erected complete. It was taken charge of on the 1st May 1901.

72. The total expenditure certified and passed to the end of the year amounts to Rs. 8,19,299-3-8 as detailed below :—

	Rs.	a.	p.
Establishment	78,026	4	10
Contingencies	18,545	0	8
Road Repairs	14,321	12	2
Air Compressing Machinery	3,20,227	15	5
Second-hand Boilers for Air Receivers ...	5,431	7	7
Ejector Stations with C. I. Tubbing... ...	70,000	0	0
Air Mains and Sealed Sewage Mains ...	2,43,829	14	5
Land for Engine-house, &c.	9,452	2	0
Engine-house & Boiler-house, &c.	59,464	10	7
Total Rs. ...	8,19,299	3	8

73. The final bills in respect of these works had been completed at the end of the year.

MAZGAON SECTIONAL SEWERAGE WORKS.

CONTRACTOR—MR. SAYAJI NAGUJI.

74. As stated in the previous year's report the contract period of 18 months for the completion of these works expired on 5th June 1900. The works were completed in February last. The delay was due to several extra works which the contractor was called upon to execute

and to serious difficulties met with in the prosecution of the works under his contract. The extra works executed consisted of the construction of 28 additional man-holes between Sections 80 and 114 ; Sections 115, 116, 117, 118, and 119 were all new not having been shown on the original plans and they comprised 1,753 running feet of stoneware pipes and 16 man-holes ; also 23 inlet vent-shafts were fixed and 6 fair weather connections were constructed. As regards the difficulties it is without doubt that the trenches were flooded with subsoil water almost at all times and more especially during the time of spring tides when part of the work stopped altogether. Rock excavation was thus rendered difficult and dynamite had to be used in certain stretches where the rock was especially hard.

75. The total expenditure to the end of the year amounted to Rs. 1,99,855-10-10 as detailed below :—

	Rs.	a.	p.
Establishment	26,519	9	10
Contingencies	2,303	13	7
Road Repairs	15,422	15	10
Work	1,50,290	9	4
	1,94,537	0	7
Add—Advance for Establishment for preparing plans and estimates	5,423	10	3
	1,99,960	10	10
Less—Credit by sale of contract forms ...	105	0	0
Total Rs.	1,99,855	10	10

WORKS IN THE CONSTRUCTION OF A STORM-WATER DRAIN IN TARDEO ROAD.

CONTRACTORS :—MESSRS. ESUFALLI ABDULALLI & Co.

76. The sanctioned grant for the work is Rs. 1,77,607.

77. The contract period expired on 20th April last, but the work has not been completed as yet. The expenditure certified and paid up to the end of the year amounts to Rs. 71,364-0-11 as detailed below :—

Establishment	
Contingencies	
Road Repairs	
Work	
Less—Credit by sale of contract forms ...	
Total Rs.	

FERGUSSON ROAD AND CHINCHPOKLI SECTIONAL SEWERAGE WORKS.

78. This work comprises—

(*a*) Laying pipe sewers with man-holes and flush tanks.

(*b*) Ejectors and brick chambers.

(*c*) Air mains, sealed sewage mains, etc.

(*d*) Ventshafts on the Shone system.

79. The total estimated cost of these works amounts to Rs. 3,30,008. The carrying out of the works has been approved by the Corporation in their Resolution No. 2606, dated 28th May 1900.

80. Tenders for works mentioned in (*a*) "Laying pipe sewers with man-holes and flush tanks" returnable on 26th September 1900 were invited on 7th idem. In response to this invitation tenders from the following firms were received :—

		Rs.
1.	Messrs. Deoram Keshaoji & Co.	1,00,634
2.	Mr. Gulamalli Jiwaji	1,09,485
3.	Messrs. Alli Mahomed Kasam & Co.	1,10,282
4.	Mr. Sayaji Naguji	1,14,345
5.	Mr. Sitaram Lakshman	1,17,624

81. The lowest tender that of Messrs. Deoram Keshaoji & Co. amounting to Rs. 1,00,634 against the office estimate of Rs. 1,21,582 was accepted by the Standing Committee under their Resolution No. 8193, dated 17th October 1900. The contract was executed on the 31st October 1900 and order to commence the work was given on the same day. The contract period for completion of the work is 24 months.

82. The total expenditure certified and passed to the end of the year amounted to Rs. 22,164-10-6 as detailed below :—

	Rs.	a.	p.
Establishment	7,102	6	0
Contingencies	351	11	0
Road Repairs	790	1	6
Work	13,960	8	0
	22,204	10	6
[illegible]—Credit by sale of contract forms ...	40	0	0
Total Rs.	22,164	10	6

[illegible]gards the works in item (*b*), *viz.*, ejectors and brick cham-[illegible]tions were carried out with Messrs. Richardson & Cruddas, [illegible]essrs. Hughes & Lancaster, for the supply and fixing of the [illegible] for the construction of the masonry chambers. A definite [illegible]ow been received from them and it is at present under the [illegible]on of the Standing Committee.

84. As regards the works in item (*c*), *viz.*, air mains, sealed sewage mains, etc., tenders were invited for this work together with the similar work for the Parel Sectional Sewerage District on 5th November 1900.

85. The notice for the tenders appeared in the local papers of the 6th October preceding. Messrs. Richardson & Cruddas, however, pointed out to the Commissioner that the time allowed for the submission of the tenders was insufficient to enable them to receive a written reply from their home firm regarding the prices of pipes, valves, etc., then ruling, and requested that the date for the receipt of the tenders be extended to 28th November. This request was acceded to and the extension of time was accordingly notified in the papers, in which the notices appeared.

86. The tenders were received from the following firms:—

1.	Messrs.	Alli Mahomed Kasam & Co.	Rs.	1,05,274·446
2.	,,	Hiraji Spencer & Co. ...	,,	1,06,738·174
3.	,,	Marsland Sibley & Co ...	,,	1,07,993·650
4.	,,	Richardson & Cruddas ...	,,	1,09,125·190

87. As the contract was for the supply and fixing of the C.I. pipes with valves, etc., to be obtained from the British Isles and as they were to be tested after arrival in Bombay and again after they were laid and as the testing plant necessary for the purpose is of a special and expensive nature it was necessary that the firm tendering for the work should possess such a plant. None of the tenderers except Messrs. Richardson & Cruddas had this plant, Besides Messrs. Alli Mahomed Kasam & Co. and Hiraji Spencer & Co. had no regular agency in England. These and other things had to be taken into consideration in selecting the tenders. After discussing the matter with me and the Chief Accountant the Commissioner came to the decision that it was not desirable to accept any of the tenders received, the three lowest not having the requisite testing appliances and he was not inclined to recommend the highest without further competition.

88. Fresh notice for the invitation of the tenders was therefore given in the local papers of the 20th February last fixing the 1st of April as the day for the receipt of the tenders. In this notice tenderers were required to satisfy the Commissioner that they had regular ag[illegible] the British Isles and that their business was in part the import[illegible] laying of C.I. pipes.

89. In response to this invitation tenders were receive[illegible] following firms:—

1.	Messrs.	Marsland Price & Co. ...	...	Rs.
2.	,,	Richardson & Cruddas ...	...	,,
3.	,,	Sorabji Shapurji & Co. ...	...	,,

90. The lowest tender, *viz.*, that of Messrs. Marsland Pr[illegible] Rs. 86,124, against our office estimate of Rs. 1,26,210, has[illegible] ed. The contract was executed on the 5th June 1901, an[illegible] been given to commence the work.

91. The consideration of the works mentioned in item (*d*) has been deferred until the works mentioned in items (*a*) and (*c*) are well advanced.

PAREL SECTIONAL SEWERAGE WORKS.

92. This work comprises—

(*a*) Pipe sewers with man-holes and flush tanks.

(*b*) Ejectors and brick chambers.

(*c*) Sealed sewage mains and air mains.

(*d*) Ventshafts on the Shone system.

93. The total estimated cost of these works amounts to Rs. 6,29,062. The carrying out of the works has been approved by the Corporation under their Resolution No. 2606, dated 28th May 1900.

94. Tenders for works mentioned in (*a*) "Laying pipe sewers with man-holes and flush tanks" returnable on the 20th November 1900, were invited on the 8th idem. In response to this invitation 8 tenders were received from the following firms :—

1.	Messrs. Goolamalli Jiwaji & Co... ...	Rs.	1,95,255
2.	,, Alli Mahomed Kasam & Co. ...	,,	2,06,865
3.	,, Sitaram Laxman & Co.	,,	2,22,343
4.	,, Deoram Keshaoji & Co.	,,	2,24,940
5.	,, Bhedwar & Co.	,,	2,26,021
6.	Mr. Sayaji Naguji	,,	2,40,835
7.	Messrs. Spencer & Co.	,,	2,46,157
8.	,, Achratlal Mohanlal & Co. ...	,,	2,90,054

95. The Standing Committee under their Resolution No. 10461, dated 28th December 1900, accepted the tender of Messrs. Alli Mahomed Kasam & Co., amounting to Rs. 2,06,865, against our office estimate of Rs. 2,44,964.

96. The contract was executed on the 25th January 1901. The order to commence the work was given on the same day. The contract period for the completion of the work is 2½ years.

The total expenditure certified and passed to the end of the year to Rs. 35,166-8-7 as detailed below :—

	Rs.	a.	p.
blishment	6,990	0	1
ingencies	651	10	6
Repairs	54	11	0
... ...	19,727	13	0
Advance for Establishment for preparplans and estimates	7,882	6	0
Rs.	35,306	8	7
—Credit by sale of contract forms ... ,,	140	0	0
Total Rs.	35,166	8	7

98. The work mentioned in item (*b*)—ejectors and brick chambers—is included in the tender received from Messrs. Richardson and Cruddas as Agents of Messrs. Hughes and Lancaster for similar work in the Fergusson Road and Chinchpokli Sectional Sewerage District.

99. The work mentioned in item (*c*)—air-mains, sealed sewage mains, etc.,—is included in the contract let to Messrs. Marsland Price & Co. for similar work in the Fergusson Road and Chinchpokli Section Sewerage District.

100. The work in item (*d*) will be considered when the works mentioned in items (*a*) and (*c*) have sufficiently advanced.

IMPROVING SIDE DRAINS IN MALABAR HILL.

101. This work was provided for in the Budget for 1900-1901 to be paid for from the Loan Funds. The sanctioned grant for it was Rs. 10,000.

102. Tenders returnable on the 14th November 1900 were invited on the 2nd idem. In response to this invitation tenders were received from the following firms :—

1.	Messrs. Vishnu Hari & Co.	Rs.	6,789
2.	„ Goolamalli Jiwaji & Co.	„	7,903
3.	„ Deoram Keshaoji & Co.	„	8,150
4.	„ Teju Kaya & Co.	„	8,152
5.	Mr. Sayaji Naguji	„	8,462
6.	Messrs. Alli Mahomed Kasam & Co.		

103. The last-named firm had omitted to insert the rate for the Khankis and therefore their tender was not considered. The lowest tender, *viz.*, that of Messrs. Vishnu Hari & Co. was accepted by the Standing Committee under their Resolution No. 9759, dated 5th December 1900. The contract was executed on the 7th January 1901, and order to commence the work was given on the same day. The contract period for the completion of the work was 2¾ months. The work was completed within that period. The expenditure certified passed to the end of the year amounted to Rs. 5,428-8-4 as detailed below :—

	Rs.
Establishment	124
Contingencies	92
Road Repairs	407
Work	4,804
Total Rs...	5,428

Works sanctioned but not proceeded with or postponed for want of funds or other reasons.

SCHEME FOR SUB-SOIL AND SURFACE DRAINAGE.

104. The Corporation in their Resolution No. 918, dated 23rd April 1900, sanctioned the carrying out of the following works at the estimated cost of Rs. 13,49,068.

		Rs.
1.	Channel No. 1 with seaward channel and new sluices...	10,84,275
2.	Channel No. 2 to DeLisle Road	1,01,795
3.	Purchase of land alongside Channels Nos. 1 & 2 ...	55,300
4.	Bund alongside Open Main Drain	40,053
5.	Drain in Arthur Road and Gilder Street	67,645
	Total Rs...	13,49,068

105. As the proposed route of Channel No. 1 will cut off all tidal communication from Mahim Bay at a point north of Cleveland Bundar, Government have been requested to pass an act extinguishing all tidal rights and rights of navigation at that point.

106. Government have assented to this request and have drawn up a short bill for the purpose, which is at present under consideration. It will also be necessary to compensate Mrs. Cleveland, the owner of the Cleveland Bundar and the Port Trustees for the loss they would sustain by reason of the communication being thus cut off.

107. When these preliminaries are settled, the acquisition of necessary land required for the Channel will be proceeded with and the construction of the Channel will be then taken in hand.

COLABA AIR COMPRESSOR STATION.

108. The machinery at the Compressor Station and the several Ejector Stations worked satisfactorily during the year.

Some trouble was experienced during the months of July and
wing to the inability of the ejectors in No. 3 and 4 Districts
h the quantity of sewage flowing to the Ejector Stations.

ter careful observation it was found that the principal
on the Colaba Road between Wodehouse Cross Road and
. 48-14, and an estimate was prepared at the close of the
ing up this part of the line for repairs.

e total quantity of sewage lifted during the year amounted
ately 294 million gallons against 239 million gallons in
The total number of revolutions run by the Compressor
s 35,839,565.

112. The following figures show the total quantity of coal of different descriptions consumed during the year with their average rate per ton :—

Description of Coal.	Tons.	Average Rate.
		Rs. a. p.
Desharghur Bengal	550	17 9 4
Heilger's Anthracite	250	15 12 4
Wallace Merthyr	150	25 14 8
Canmon's Navigation...	50	15 4 0

113. The average rate per ton for all of these descriptions was Rs. 18-4-3. This, when compared with the previous year's average rate of Rs. 17-9-5 per ton in which was included the cost of 300 tons of Cardiff coal, will indicate the high rates prevailing during the year.

114. As a consequence of the high rates, the Budget grant for coal was insufficient and had to be supplemented by transfer of Rs. 2,302-2-0 from savings in the Street Improvement Grant.

115. This transfer was sanctioned under the Standing Committee's Resolution No. 10232 of 19th December 1900.

116. Rams-bottom steel piston rings for the engines and 6 Lignum Vitae balls for hand ejectors were purchased from Messrs. Richardson & Cruddas at a cost of Rs. 192 and Rs. 76 respectively. The order for the balls was given in 1900-1901, but those supplied proved to be defective and as a fresh supply could not be delivered before the close of that year the cost as above was met by a renewal of Rs. 76 from the Stores Grant.

117. An extra fitter on Rs. 40 per month and two extra [illegible] Rs. 12 per month each were engaged from the 21st and [illegible] respectively to the 16th and 24th October to assist in the su[illegible] the ejectors during the monsoon months. The cost of t[illegible] ment amounting to Rs. 186-1-0 was met from the grant [illegible] extra labour.

D

DRAINAGE WORKS, ORDINARY BRANCH.

LOVE GROVE PUMPING STATION.

118. The engines and pumps worked satisfactorily during the year without any breakage, but there was one rather serious stoppage of the pumps for about 7 hours in the early morning of 26th July 1900.

119. On this occasion all engines were stopped shortly after midnight for the purpose of making some steam pipe joints, and on the completion of the work it was found that the pump boxes could not be charged with water previous to starting. The defect was due to leakage through some of the valves on which the Dermatine faces had become worn and the valves had to be changed before the pumps could be re-started.

120. The efficiency of the pumps, as tested by monthly observations taken by the Drainage Staff, showed an average of 88·58 per cent. This efficiency is 2 per cent. less than the average of the previous year and it was due in a great measure to the worn out state of the pump rams and rings in No. 1 engine.

121. The combined total number of revolutions of all the engines during the year was 22,739,722.

122. The following table shows the total quantity of coal of different descriptions consumed during the year with their average rate per ton :—

Description of Coal.	Tons.	Average Rate.		
		Rs.	a.	p.
Heilger's Anthracite	2,521	17	3	0
Bengal	500	16	4	0
thys	350	24	0	0
... ...	300	18	0	0
m	200	17	0	0
ation	100	15	9	11

average rate per ton for all of these descriptions of coal -5·34, and the average daily consumption was 10 tons, rs., 10 lbs. against 8 tons., 4 cwts., 3 qrs. and 8 lbs. in the

124. The large increase over the figures for the previous year is principally due to the fact that in 1899-1900 1,550 tons of Welsh Steam coal were used, while during the year under report, only 350 tons of that coal were used, the rest being all Bengal coal.

125. The rates for English and Welsh coals were almost prohibitive throughout the year. Those for Bengal descriptions were also unprecedentedly high. Eliminating the abovementioned purchase of 350 tons of Welsh coal, the average rate per ton paid for Bengal coals was Rs. 17-1-8·7 against Rs. 14-2-7·5 in 1897-1898 and Rs. 14-1-5 in 1896-1897, during which years the rates for the latter description of coal were not so high as in 1898-99 and subsequent years.

126. In consequence of the high rates, the Budget grant of Rs. 61,425 for coal had to be supplemented by an extra grant of Rs. 8,922-9-0.

127. 1,007 lbs. of Dermatine valve faces were purchased at Rs. 3-1-4$\frac{16}{125}$ per lb., 400 lbs. at Rs. 3-3-11 per lb., and 60 ft. of special Dermatine steam hose for cleaning the boiler tubes at Rs. 1-4-4 per foot, during the year from Messrs. John Fleming & Co. at a total cost of Rs. 4,479-12-0.

128. Three main steam stop valve bodies were obtained from Messrs. James Simpson & Co. to replace 3 similar castings, which were defective, at a cost of Rs. 180.

129. Owing to (*a*) the high contract rates for stores during the year and (*b*) unusually large consumption of Dermatine valve faces, the grant of Rs. 14,000 for stores and contingencies had to be supplemented by an additional grant of Rs. 2,000.

130. The renewal of the gunmetal pump rams and bushes of No. 2 engine with others of cast iron, which was taken in hand by the Municipal Workshops in the previous year, was completed in the month of May, and the engine worked almost continuously for the remainder of the year.

131. After the close of the S.-W. Monsoon it was found that the rams and bushes of No. 1 engine, which were renewed in 1[illegible] much scored owing to the passage of silt through the pump work of turning down the rams and making new bushes reduced size of the rams had to be put in hand. This w[illegible] completed at the close of the year.

132. As this renewal was not anticipated at the ti[illegible] estimates for the year were framed, and as the rates fo[illegible] were high, the grant for repairs had to be increased by [illegible]

133. An additional grant of Rs. 2,144 had also to b[illegible] water-supply. The excess consumption of water occurred during the months of October 1899 to March 1900 when the [illegible]

up of the adjacent Flats in consequence of the deficient rainfall of 1899-1900 caused extra leakage from the condensing tanks. From April to September 1900 the leakage from the tanks was also abnormal. This was owing to the excavation alongside the tanks for a new tank which had to be provided for the Air Compressor Station.

134. There were no changes in the Engineering Staff at the station during the year.

135. Veterinary Lieut.-Col. J. Anderson continued to occupy the bungalow, for which the Municipality pays rent to Messrs. Tribhuvandas and Jugmohandas Varjiwandas, during the year at a monthly

80.

USE DRAINAGE CONNECTIONS.

t portions of House Drainage connections carried out s, Messrs. Deoram Keshavji and Company, were as

of the District.	Number of Connections.	Amount.
		Rs. a. p.
old houses in various parts	1,930	50,686 15 0
... ...	434	10,447 6 6

TOTAL	6,002	1,39,497 14 9

g and paving the Water-course between Narayen Dabholkar Road and the Foreshore.

work was completed departmentally at a total cost of

the waste water from the trough fountain and d-pipe at Lady Jamshedji Road, Mahim.

e work was completed by Messrs. Deoram Keshavji and etty Work Contractors, at a total cost of Rs 1,078-14-5.

Manholes.

139. The construction of 7 manholes on the Ripon Road sewer was completed departmentally at a total cost of Rs. 1,676-9-4.

140. A further grant of Rs. 2,000 was provided in the Budget for 1900-1901 for the construction of permanent manholes over drains.

141. Out of this grant 52 manholes were constructed, *viz.*, 25 over the Grant Road footpath, 32 over the De Lisle Road footpath and 5 over the Parel Road footpath.

142. The total cost of the work amounted to Rs. 1,817-6-5.

Vent-shafts.

143. The work of fixing a cast-iron vent-shaft with
the Hornby Road sewer to the Salvation Army Hall
was completed departmentally at a total cost of Rs. 91

INSTALLATION FOR PROVIDING ELEC
SEA WATER.

144. The late Mr. Santo Crimp advised, in para.
dated the 7th December 1899, that the results obt
the Installation would not justify the enormous ini
to enable this disinfectant to be applied generally.

145. He further advised that if the system was
City like Bombay its use must be mainly confine
of sewage in bulk.

146. Later on he inspected the works at Ip
was disappointed to find that only a part of the
and that too not continuously.

147. He also remarked that the experiment at
much of the character of that carried out by the Bomba
that the results obtained at Bombay were quite conclusi
process was not likely to make any head-way.

148. The Municipal Commissioner and the Corporation
in these views of Mr. Santo Crimp (*vide* Corporation Reso
8375, dated the 18th October 1900) and the further ma
electrolized sea water was therefore discontinued.

TIDAL FLAPS ON THE OVOID SEWE

149. A grant of Rs. 13,548 was provided in the
Budget for 1899-1900 for the construction of six tidal fl

150. The work was taken in hand departmentally and
tion of two tidal flaps, *viz.*, one at Falkland Road and anot
Road, was completed in June 1900.

151. The late Mr. Santo Crimp having remarked in his report on the flushing of sewers that the effect of these tidal flaps was not altogether satisfactory, inasmuch as the solid matters had a tendency to settle in the portion of the sewers between the head of the sewers and the tidal flaps which were situated at long distances, the Municipal Commissioner decided in his No. 12652 of 17th August 1900 that such flaps should be placed at a distance of only about 200 feet from the head of the ovoid sewers and the Corporation concurred with this decision (*vide* their Resolution No. 8375 of 18th October 1900).

152. The construction of two more tidal flaps, *viz.*, one at Carnac Road and the other at Clerk Road, was subsequently taken in hand departmentally. The work was in progress at the close of the year.

153. The certified expenditure on this account up to the 31st March 1901 amounted to Rs. 4,318.

Constructing side entrances on Parel Road storm-water drain between Paidhoni and Bellasis Road.

154. A grant of Rs. 7,776 was provided for the work in the Budget for 1900-1901.

155. Messrs. Alimahomed Kasam and Company's tender being the lowest of the four tenders received was accepted under the Standing Committee's Resolution No. 5302 of 15th August 1900.

156. Orders were given to the Contractors to start the work on the 24th September 1900, and it was completed by them within four months from the date of order in accordance with the terms of their contract.

157. The total cost of the work amounted to Rs. 6,463-6-3.

Paving the open drain between Falkland Road and Foras Road.

A grant of Rs. 3,638 was provided for the work in the Budget 1901.

ssrs. Alimahomed Kasam and Company's tender being the four tenders received was accepted under the Standing Resolution No. 5302 of 15th August 1900.

rs were given to the Contractors to start the work on the er 1900, and it was completed by them within four the date of order in accordance with the terms of their

total cost of the work amounted to Rs. 2,921-5-0.

Constructing nine water gullies (five at Tardeo Road, two at Sleater Road and two at the junction of Pedder Road and Tardeo Road).

162. A grant of Rs. 1,447 was provided for the work in the Budget for 1900-1901.

163. It was entrusted to Messrs. Deoram Keshavji and Company, Petty Work Contractors, and was in progress at the close of the year.

A cast-iron box with door and valve at the Worli Outfall.

164. A grant of Rs. 2,885 was sanctioned for the work in the Budget for 1900-1901.

165. This box was intended to replace a dilapidated masonry chamber or shed which existed at the place.

166. The work was entrusted to the Assistant Engineer, Mechanical Branch, and was in progress at the close of the year.

PUBLIC LATRINES AND URINALS.

Colaba Latrines.

167. As stated in the last administration report, two sets of latrines at the Colaba village were completed under contract with Messrs. Alimahomed Kasam and Company at a total cost of Rs. 9,249-11-6. Steps are being taken to acquire sites for the remaining two latrines under the Land Acquisition Act.

Walkeshwar Latrines.

168. The site for these latrines and a portion of the passage leading thereto have been acquired from Government. The remaining [redacted] of the passage will have to be acquired under the Land Acquisition [redacted] as the ownership of this strip of land is claimed by different communities.

Henry Road Latrines.

169. As stated in the last administration report, these [redacted] completed departmentally. The work of covering over [redacted] with the corrugated iron roof, which was undertaken at the [redacted] the Engineer, Port Trust, was completed during the year [redacted] The certified expenditure for the work, including the cost [redacted] amounted to Rs. 9,496-2-8 on the 31st March 1901.

170. The construction of the following latrines and urinals was undertaken from the sanctioned grant of Rs. 12,000 for the year 1900-1901, and the renewed grant for the previous year, Rs. 19,762-6-9, aggregating Rs. 31,762-6-9.

29	Underground urinal at Apollo Bunder.	1,932 0 0	106 9 11	No decision was arrived at with regard to the site up to the close of the year.

171. The total expenditure up to the end of the year has been Rs. 10,136-12-4, leaving an available balance of Rs. 21,625-10-5 for further expenditure under this head.

DRAINAGE SLUICES.

The sluices and penstocks, which are in charge of the Drainage [illegible] the following places, were worked satisfactorily during the [illegible] usual staff :—

[illegible]) Dharavi.
Worli.
Love Grove.
Flats.
Bellasis Bridge.
Queen's Road.
[illegible]) Carnac Road.
[illegible]) Mint Road.

173. The expenditure incurred for the maintenance of the sluices did not exceed the Budget provision.

174. The fixing of the third pair of gates for the Love Grove Sluices was completed and that of the fourth pair was in progress at the close of the year. The execution of this work was delayed partly, because it could only be carried out at low tides during the fair weather and partly because the Municipal Workshops had occasionally to defer it in consequence of more urgent and important works in hand.

MISCELLANEOUS.

175. The works in connection with repairs and alterations to, and flushing and cleaning of sewers and drains generally, and making small additions thereto, were carried out under the supervision of the Chief Inspector of Drains.

176. Daily reports in the prescribed form showing the number of sewer scrapers and the work done were submitted by the Chief Inspector.

177. 3,035 notices under various Sections of the Municipal Act were served on house-owners to provide sufficient means of effectual drainage and remedy defects in existing drainage arrangements. Out of these 807 notices were complied with and action in respect of 2,228 notices was pending at the close of the year.

178. 1,268 summonses were issued against house-owners for non-compliance with notices. Out of these 1,117 summonses were complied with and 151 summonses were withdrawn under various circumstances.

Sanitary Arrangements of Health Camps, Plague Hospitals, &c.

179. 94 works in connection with the sanitary arrangements of the various Health Camps, Observation Camps and Plague Hospitals were carried out by the Drainage Branch under the supervision of the Chief Inspector of Drains.

STORES AT BELLASIS BRIDGE DEPOT.

180. Stoneware pipes for the Special Drainage Depa[illegible] supplied by Messrs. Richardson & Cruddas and Mes[illegible] Price & Co.

181. Stoneware pipes and fittings for House-Con[illegible] were supplied by Messrs. Garlick & Co.

182. The value of the pipes and other special fittings [illegible] junctions, bends, &c., received during the year from 1st [illegible] 28th February 1901, amounted to Rs. 14,299-2-8, and of [illegible] to the Contractors and sold to plumbers, &c., during the [illegible] amounted to Rs. 63,304-11-8.

Cast-iron and Galvanized Sheet Iron Fittings, &c.

183. Cast-iron manhole frames and covers and other castings for ordinary drainage and miscellaneous works were supplied by Messrs. Sorabji Shapurji & Co., the Casting Contractors for the year.

184. Cast-iron pipes and fittings for House-Connection Works were supplied by Messrs. Garlick & Co.

185. The total number of cast-iron articles received and issued from 1st March 1900 to 28th February 1901, amounted, respectively, to Rs. 17,622-3-9 and Rs. 13,581-9-10.

Cement.

186. Under a contract, dated the 26th November 1900, Mr. Gulamali Jiwaji Pachmariwala supplied, during the year, 3,000 casks of Portland Cement manufactured by the Gillingham Portland Cement Co. of Glasgow.

187. The rate paid was Rs. 8-13-3 per barrel of 375 lbs. net weight.

188. The value of cement received and issued from 1st March 1900 to 28th February 1901, respectively, amounted to Rs. 26,484-6-0 and Rs. 35,484-9-6.

Value of Stores on Hand and of Receipts and Issues.

189. The value of stores on hand on the 1st March 1900 was Rs. 3,54,739-10-0; that of the receipts and issues amounted, respectively, to Rs. 58,405-12-5 and Rs. 1,12,370-15-0, and the value of stock in hand at the close of the year was Rs. 3,00,774-7-5.

E.

WATER WORKS.

TANSA LAKE AND DEPENDENT WORKS.

Rainfall and Collection.

190. The rainfall for the year 1900 was 104·60 inches, that for the years 1898 and 1899 being 98·68 and 40·07 inches, respectively.

191. The number of days on which 3″ or more rain fell was 12 and that on which 1″ to 3″ fell was 22.

192. Owing to the early cessation of the rain the lake fell to 391·6 T. H. D., the lowest level on record. The lowest level previously recorded on the 17th June 1897 being 393·19 T. H. D.

193. The total quantity of water received in the lake, including that which overflowed by the waste weir, was 41,888 million gallons or 52 per cent. of the rainfall on the catchment area of 52·5 square miles.

Removal of Trees in the Lake.

194. The Deputy Executive Engineer, Water Branch, took advantage of the low level of the lake previous to the monsoon to cut down and remove a large number of old trees which had been left in the lake when it was constructed. This has led to an improvement in the quality of the water, as shown by Dr. Cayley's analysis.

Water drawn from the Lake.

195. The quantity of water drawn from the lake from 1st October 1899 to 10th June 1900, was 10,359 million gallons or 40·4 million gallons per day. Of this about 23·1 million gallons per day were delivered into the aqueduct, the balance being lost by evaporation and soakage.

196. The quantity of water which reaches the gauge [illegible] Ghatkapar where the supply main starts is about 21½ milli[illegible] per day. The balance being lost by leakage, evaporation, o[illegible] at overflow weirs.

DAMAGE TO TANSA DUCT.

197. On the night of the 18th February a portion [illegible] gave way at mile 41·500. The repair was finished by the [illegible] 28th and water was turned on again in the duct on the [illegible]

198. The stoppage of the supply, while repairs wer[illegible] was taken advantage of, to repair a number of leaks at [illegible] on the duct.

PROPOSED OVERFLOW WEIR AT BHANDUP.

199. It is proposed to construct an overflow weir at Bhandup Sluice House to provide a point of discharge into Vehar Lake for surplus water, which, owing to leakage into the duct during the monsoon, or to stoppage of supply to the City, is at present liable to go to waste, if there be any delay in opening the clearing sluices.

Burst in 48″ Main.

200. On the 13th July there was a burst of a 48″ pipe on siphon No. 6 near mile 27, caused by a boulder falling on the pipe. This necessitated shutting off the supply for nearly 36 hours.

Pitching and repairing Embankments.

201. The embankments between No. 2 and No. 3 Bassein Creek Bridges on siphon No. 6, have been pitched and repaired during the year. It is now proposed to pitch and strengthen the down stream side of the bank on the north of No. 1 Bridge, between Balcomb and Godowli and also to repair the banks at various other points on this siphon, where the slopes have been washed away more or less by the action of successive monsoons.

VEHAR LAKE AND DEPENDENT WORKS.

Rainfall and Collection.

202. The rainfall for the year 1900 was 72·96 inches, those for the years 1898 and 1899 being 94·51 and 35·26, respectively.

203. During the year under report the rainfall exceeded 3″ on 5 days and the number of days on which 1″ to 3″ fell was 16.

204. The total quantity of rain which fell in the whole drainage area of 3,900 acres from 1st June to 1st November was about 6,450 million gallons; of this about 4,650 million gallons reached the lake or 72 °/₀ of the total rainfall.

The quantity of water received into Vehar Lake from Tansa 1 million gallons. None overflowed into the lake from

Water drawn from the Lake.

The quantity of water drawn from 1st October 1899 to 10th was 3,262 million gallons which gives an average of 12·9 ons per day, that from 1st November 1900 to 31st March 1,895 or 12·5 per day.

Evaporation.

207. The evaporation from the lake for the dry months was as follows:—

1·3″ from 18th to 31st October.
5·3″ November.
5·2″ December.
6·0″ January.
5·1″ February.
6·0″ March.

28·9″ in 165 days or an average of 0·17″ per week equal to between 4 and 5 million gallons per day.

Weeds.

208. A large quantity of weed was rooted up from the margin left dry as the water fell, and also dredged from the lake and burnt.

Vehar Filters.

209. The Vehar Filter beds have worked for 161 days in the year from 4th October 1900 to 31st March.

Bursts on Vehar Mains.

210. During the year 1900-1901 there was only one burst on Vehar 24″ Main between Vehar and Coorla on 20th April 1900; while there was none on the 32″ Vehar Line.

Replacing a portion of the 32″ Main by 48″ Steel Main.

211. Plans, estimates and specifications have been prepared and submitted to the Municipal Commissioner for 1½ miles of 48″ main to replace the worst portion of the 32″ main from Coorla Station northwards. The contract has been prepared and the Deputy Executive Engineer, Water Works, has been instructed to invite tenders for the work.

TULSI LAKE AND DEPENDENT WORKS.

Rainfall and Collection.

212. The rainfall for the year 1900 was 93·02 inches, years 1898 and 1899 being 111·43 and 843·80, respectiv only by means of the utmost care and economy that the this lake was spun out till the burst of the monsoon, when t there was only about 3 weeks' supply in stock, the level rea 408·68 T. H. D. The lowest level previously recorded h 413·80 on the 23rd June 1883, the rainfall of the year befo been 74·22 inches.

213. The number of days on which the rainfall exceeded 3" was 6 and on 20 it was 1" to 3".

214. The total quantity of rainfall on the whole drainage area of 1,700 acres was about 3,602 million gallons, of this about 2,778 million gallons reached the lake or about 77% of the total rainfall.

Water drawn from the Lake.

215. The lake has not overflowed for the last two years. The quantity of water drawn from the lake from the 1st October 1899 to 10th June 1900 was 694 million gallons, and that from 1st October 1900 to 31st March 1901, 904¼ million gallons, giving an average draw off of about 2¾" million gallons in the former and 5 million gallons in the latter case including evaporation and leakage.

Quality of Water.

216. The quality of the water in the lake was the worst on record for the 3 months before and about a month after the commencement of the monsoon. The Deputy Executive Engineer in charge Water Works is disposed to attribute the bad quality of the Tulsi, as compared with Vehar water, especially in the hot weather, (1) to the absence of weed which appears in Vehar to absorb algæ to a great extent, (2) immediately after the first burst of monsoon to the overturning caused by it which brings the water most heavily charged with vegetable matter to the surface, and (3) to the direction of the prevailing winds being towards the outlet, whereas in the other lakes it is away from it.

Evaporation.

217. The evaporation in the lake from October to March was as follows:—

2 1/5"	from 9th to 31st October.
2 9/10"	November.
3"	December.
2 [illegible]/10"	January.
2 7/10"	February.
3"	March.

16½" in 173 days or giving an average of ·095 per diem.

ARWADA (JOHN HAY GRANT) RESERVOIR AND FILTERS.

filtering materials have been removed from Filter No. 3 o asphalte the bottom when the sanction of the Corporation eived. Sanction has also been applied to treat Nos. 4 and anner. The leakage through the vaulting below Filters nd 9 into the reservoir below, still continues to increase mounts to about 6" per hour.

MALABAR HILL RESERVOIR AND FILTERS.

219. There has been a great delay in getting Filter No. 4 into working order owing to the Contractors, Messrs. Esufalli Abdually & Co., having failed to fulfil their contract for the supply of Kutch sand. Their contract was cancelled and the balance of the amount re-contracted for with Messrs. Mahomed Abdula & Co., who also have failed to supply the sand in due time.

220. Arrangements are being made to enclose the inlet pipe in a set of copper wire cloth screens to intercept floating matter, fish, &c.

221. The inlet well and settling tanks were cleaned out during the monsoon as a considerable accumulation of mud was found and removed.

222. The quality of water has again suffered owing to the low level of Tulsi Lake and has given rise to some complaint.

223. In the opinion of the Deputy Executive Engineer, Water Works, the roofing in of the filters which raises the temperature considerably above that of the outer air, causes decomposition of vegetable matter in the filters and leads to deterioration in the quality of the water.

224. The Deputy Executive Engineer, Water Works, reports that experiments were made with a view of ascertaining the most efficient rate of filtration, which tended to show that no improvement could be effected by reducing the rate below that now in use, namely, 626 gallons per square yard per day, while any material increase led to less effective filtration and to the filters becoming very rapidly choked.

225. The Corporation have already allotted a sum of Rs. 1,00,000 for additional filters in the budget of the year 1901-1902.

Supply and Distribution, &c.

226. The connection of certain dead-ends with a view to improve pressures and a few other minor improvements have been effected, but the general re-organization of supply and distribution mains still awaits the final sanction of the Corporation.

227. **List of Bursts repaired in the year 1900-19**

2	Bursts	in	2″	main.
78	,,	,,	3″	,,
43	,,	,,	4″	,,
2	,,	,,	5″	,,
4	,,	,,	6″	,,
1	Burst	,,	7″	,,
2	Bursts	,,	8″	,,
1	Burst	,,	12″	,,
1	,,	,,	24″	,,
1	,,	of a	24″	sluice main.

228. The following are localities in which bursts occurred of 12" diameter and upwards in the year under report :—

Burst in 12" main at Dharavi Road.

Burst of a 24"×24" Branch at Clerk Road.

Burst of a 24" Sluice Valve at Haines Road.

229. During the year 379 new connections were made. 189 connections were cut off for various reasons. The net increase has therefore been 190 or 0·9 per cent. The total number of connections is now 20,394.

230. The annual increase in the number of connections during the past 3 years has been as follows :—

175 in 1898-1899	over that of the previous year or		0·8	per cent.
214 in 1899-1900	do.	do.	1·0	do.
190 in 1900-1901	do.	do.	0·9	do.

231. The consumption of water sold by meter during the past 3 years has been as follows :—

1898-1899	1,470,056,205
1899-1900	1,533,074,634
1900-1901	1,670,202,045

232. The number of meters fixed on the 31st March was 2,929 as against 2,501 last year, of these 1,498 or 51 % were tested.

233. The number of meters tested during the year was 148 in excess of the previous year, and the number found defective in any way 34 less, the percentage of the total number fixed coming under this category having fallen from 22 to 18. This following on a drop of 2 % the year before is satisfactory and is due to the continued care in cleaning dirt boxes and more frequent removal of meters to the shops to be overhauled.

234. The purchase of Inferential meters has been stopped in favour of Positive and Semi-positive meters which, though more expensive as regards first cost, are more accurate and require a smaller outlay for repairs.

Waste Prevention.

The Deputy Executive Engineer also reports that during the report all the mains provided with Deacon's meters were least once and in most cases twice with satisfactory result.

FINANCIAL.

value of the Reserve Stock on 1st March 1900 was 11-11, the purchases during the year amounted to 0 and the balance on 1st March 1901 to Rs. 3,90,433-10-4. tings and valves, which had become out of date, having a f Rs. 11,742-3-6, were sold by auction and realized -10. The profit on stock was Rs. 19,225-11-7 and loss 3-5 leaving Rs. 8,425-14-2 credit.

Sale of rights of cultivation.

237. The right of gathering fruit, cutting grass and cultivation on Municipal land, on the margins of lakes and along lines of mains, &c., realized Rs. 2,778, including the rent paid for Pawai bungalow, &c., by the Agave Fibre Company as compared with Rs. 1,762-10-8 obtained during the preceding year.

Work done for Municipal Departments and Private Parties.

238. The amount of work executed during the year—

	Rs.	a.	p.
For other Departments	42,697	11	0
Private Persons	5,472	8	6
Total Rs. ...	48,170	3	6

IMPROVEMENT OF THE OUTLET TOWER AT VEHAR.

239. The work of fixing the sluices in the Vehar Outlet Tower was proposed by the Deputy Executive Engineer, Water Works, to be taken in hand during the hot season, at the latter end of April 1900 and it was suggested that the supply from the Vehar lake should be shut off and full supply given from the Tulsi Lake. As I considered it very unadvisable to do so at that season of the year and especially as Tulsi water was reported to be impotable, I suggested to the Commissioner that the work should be put off till after the setting in of the rains when the Tulsi water would become potable and when the least inconveniences would be felt by the public.

240. The Commissioner concurred in this opinion.

241. As however the Deputy Executive Engineer considered that the work can only be executed with any prospect of success while the water in the lake was low and stated that he could not hold himself responsible for the success of the work unless it was done at such a time, the work was entrusted to Mr. Hewett, my Assistant in the Mechanical Branch, who carried it out very successfully at much personal inconvenience. Some of the work had to be done at night to which Mr. Hewett had to give personal attention at a time when the work in the Mechanical Branch under him was in full swing. This is very creditable to Mr. Hewett.

242. The water-supply was shut off from the 11th July the work of fixing the lowest sluice in position was proce night and day. This portion of the work would have been in four days were it not for an interruption caused by a Tansa main on July 13th, which necessitated the letting in to the City from the Vehar Lake from 4-20 p.m. on the 14t on the 18th July when the water was again shut off and and testing of the sluice was proceeded with. This p work was completed on the 19th July and the water-supply at 7-30 p.m. on that date.

243. The work was completed within 3 months wi further interruption of the water-supply.

F.

REGULATION OF STREETS AND BUILDINGS.

BUILDING APPLICATIONS.

244. The number of applications for permission to either build or re-build houses, &c., during the year under report, amounted to 2,248 or 226 more than those received during the preceding year. Of these 2,222 were passed either wholly or subject to certain conditions, and 26 were entirely disapproved.

NOTICES AND SUMMONSES ISSUED.

245. During the year under review 5,738 notices were issued on house-owners under various Sections of the Municipal Act, or 302 more than those issued during the previous year.

246. Eight hundred and ninety-seven prosecutions were instituted in the Magistrates' Courts under different Sections of the Municipal Act, against the house-owners who failed to comply with the notices served upon them by this Department.

247. In 286 of these cases the parties complied with the terms of the notices served upon them ; in 485 they were warned and discharged ; in 91 cases they were convicted and fined and 35 cases were postponed to the year 1901-2.

248. The amount of fines realized was Rs. 1,025.

249. The following statement shows the different sections of the Act, under which offenders were prosecuted and the other details of prosecutions during the year 1900-01 :—

Wards.	Number of Sections of the Act.	Number of Prosecutions.	Cases withdrawn as requirements were complied with, &c.	Persons warned and discharged.	Persons convicted and fined.	Cases postponed to next year 1901-1902.	Amount of fines. Rs. a. p.

UNSAFE OR RUINOUS BUILDINGS.

250. During the year under report 568 notices were issued for the removal of unsafe, dangerous or ruinous buildings which were all complied with either partly or wholly. Notwithstanding this, 33 buildings or parts of buildings unobserved by the officers of the Building Department fell down. Fortunately no injury was done to life in 29 of these, but in 4 cases 8 persons were injured and 10 killed.

REMOVAL OF RUINOUS HOUSES, HUTS, OBJECTIONABLE CONSTRUCTIONS, DOORS, PROJECTIONS AND ENCROACHMENTS ON STREETS.

251. Action was taken under various Sections of the Municipal Act, for the summary removal of ruinous houses, and huts of objectionable construction and of doors opening outwards, projections and encroachments on streets, &c., with the following results :—

No. of cases in which action has been taken departmentally	695
No. of cases executed by house-owners or withdrawn	3,194
No. of cases in which action is pending ...	215
Total No. of Cases ...	4,104

STREET IMPROVEMENTS OR SET-BACKS.

252. The amount allowed for Street Improvement for the year 1900-01 was Rs. 1,00,000, which together with the grant for previous years renewed during the year under review, amounted to Rs. 2,27,111-9-5. Out of this amount Rs. 1,05,008-14-11 were actually paid during the year and a large amount of liability is still to be met.

253. The widening of streets is a work of great importance to the City, and I beg to invite attention to the remarks made by me in the last Administration Report on this subject.

254. The following statement shows the areas and values of ground added to streets in each ward during the year under report ;—

					Rs. a. p.

G.

ROADS, FOOTPATHS, &c.

REPAIRS AND MAINTENANCE.

Road Repairs.

265. The following statement gives the items of works executed out of the sanctioned grants for Road Repairs and Maintenance :—

Particulars.	Quantity of work done in square feet.	Expenditure.
		Rs. a. p.
Metalling	63,71,354	2,42,255 14 7
Sandstoning	23,58,761	6,865 3 5
Scraping	.....	35,796 9 9
Repairs and Maintenance of footpaths, bridges, culverts and road side retaining walls, &c....	.....	8,627 11 2
Roadside trees, fencing and maint nance ...	.....	3,926 9 7
Rep irs to and purchase and maintenance of, tools and plant and other works incidental to the work of repairs to roads, footpaths, &c.	.....	27,139 13 6
Purchase of 4 steam rollers, *viz.*, 15, 10, 8 and 4 tons	.....	29,224 12 9
	87,30,115	3,53,836 10 9
Unexpended Balance ...		7,998 14 3
Total sanctioned grant ...		3,61,835 9 0

266. The area of roads metalled during the year under review was 63,71,354 sq. feet, and the expenditure incurred upon them Rs. 2,42,255-14-7, the rate for metalling works out to be [illegible] square foot.

267. It is needless for me to reiterate what I have [illegible] that if the roads of the City are to be kept in a more [illegible] dition, a larger grant than that usually allowed is absolutely [illegible]

Road Metal.

268. The total quantity of metal purchased during the year under review was 8,15,914·11 cubic feet at a cost of Rs. 57,[illegible]

Road Watering.

269. The road watering grant for the year under review, excluding that of providing new hydrants, was Rs. 59,900. This grant, like that for Road Repairs, has been found insufficient and an extra grant of Rs. 4,000 was applied for, but it was sanctioned too late to be of any use.

270. The new system of watering has proved more satisfactory than the former one of watering by means of bullock carts. It promises to be more so when the constant supply of water at high pressure is introduced into the City.

Footpaths.

271. No grant was made during the year under review for paving footpaths, but it is hoped that a grant will be made for this important work in the next year.

Tramways.

272. The work of renewing the tram lines (*a*) along Parel Road to Banian Street, (*b*) along Frere Road from Fort Market to Carnac Bridge and (*c*) in front of the Crawford Markets at the junction of Hornby Road and Carnac Road, was completed during the year under review.

273. It has also been decided to take over the Tramways from the Tramway Company, but a suit has been filed by the Company in the High Court against such demand, which has not yet come on for hearing.

H.

PUBLIC LIGHTING.

GAS LIGHTING.

274. The total number of gas lamps in the City at the end of the year under report was 3,945 as detailed in the following statement, and the total cost of lighting has been Rs. 2,28,573-15-0.

275. The minimum contract pressure as well as illuminating power were maintained, still the lighting of the City was not satisfactory and the attention of the Manager of the Gas Co. was drawn to it from time to time. In some cases the defective lighting was due to imperfect mantles and in others to chokage in the pipes owing principally to the existence of naphthaline. No penalty is provided for in the contract for dim or imperfect lighting and my Department has simply to content itself by drawing the attention of the Gas Co. to it.

Ward.	Single light.		Double lights.				Triple lights.		Quadruple lights.		Quintuple lights.					Total number of lamps.

Total No. ...	19	8	27

KEROSINE OIL LIGHTING.

277. As in the preceding years, the Kerosine Oil lighting was carried out departmentally and Snow Flake Kerosine Oil of 150° proof test was used.

278. The total number of Kerosine Oil lamps in the City at the end of the year under review was 1,741 as shown below :—

ward.	Double Wick.		Single Wick.		Total.
	Part month.	Whole month.	Part month.	Whole month.	
...	...	...	87	16	103
...	...	...	119	52	171
...	...	1	32	91	124
...	26	...	91	34	151
...	2	...	335	129	466
...	...	...	400	2	402
...	...	...	250	74	324
...	28	1	1,314	398	1,741

279. The total cost of Kerosine Oil lighting during the year under review was Rs. 36,741-4-1. Deducting from this Rs. 3,348-2-11 recovered by sale of empty Kerosine Oil cases with tins, &c., Rs. 2,498-1-3, for Departmental bills for lighting Plague Camps, &c., and Rs. 90-1-3 as miscellaneous recoveries from private parties for breakage of lanterns, posts, &c., the net cost of Kerosine Oil lighting during the year has been Rs. 30,804-14-8 which gives a rate of Rs. 17-11-1 per lamp per annum.

ELECTRIC LIGHT INSTALLATION FOR THE CRAWFORD MARKETS AND MUNICIPAL OFFICE.

280. An accident, which resulted in injury to the Workshops Foreman and which also caused a stoppage of the lighting for one night, occurred in connection with the above installation on 23rd June 1900.

281. The boiler had been washed out during the day and one of the wash-out screw plugs which had been removed for this purpose in being subsequently replaced was not properly screwed into position with the result that while steam was being raised it blew out of the boiler.

282. The Workshops Foreman who was standing alongside at the time was severely scalded with steam and hot water, and in addition had his shoulder dislocated by his being violently thrown against the wall of the engine room. He was treated in the European General Hospital for 19 days and fortunately made a complete recovery.

283. The dynamos were also saturated with water issuing from the boiler, and they had to be taken to pieces and dried before they could be brought into use again.

284. The engine driver who replaced the plug in question was prosecuted by the Police for doing a rash and negligent act, but the Magistrate decided that it was an accident and the man was charged.

285. The spare armature belonging to the arc lighting [illegible] the Markets was returned to the makers through Messrs. J[illegible] & Co., for rewinding on the same principle as the one [illegible] previous year. The cost of the work amounted to Rs. [illegible] met from the special provision entered in the Budget.

286. No occasion arose during the year to make u[illegible] armature. The one previously rewound which was [illegible] August 1899 has since worked without intermission, and [illegible] confidently stated that the improvements effected at the [illegible] ing have completely put an end to the trouble formerl[illegible] with broken wires.

287. 3,700 pairs of carbons for the arc lamps were purchased from Messrs. John Fleming & Co., in April 1900 at a cost of Rs. 525-6-5, and a new link leather driving belt for the Municipal Office dynamo was obtained in February 1901 from Messrs. Macbeth Bros. & Co., at a cost of Rs. 310.

288. In consequence of the handing over to Government of certain land at the Municipal Workshops, part of which was occupied by the engine and dynamo shed, it became necessary to remove the shed and all of the machinery to another site in the compound of the Crawford Markets.

289. The Corporation, under their Resolution No. 9267 of November 19th, 1900, sanctioned a grant of Rs. 7,600 for the work and a further grant of Rs. 1,400 for temporary arrangements to be made for working the Municipal Office lights during the removal of the plant.

290. The work of putting in the new foundations was commenced on November 20th and on January 2nd, 1901, the dynamo used for the arc lights in the Markets was removed to its new foundation and driven temporarily from a portable engine belonging to the Workshops.

291. The small engine and dynamo for lighting the Clock Tower were removed on January 4th and commenced work from their new position the same night.

292. The following day the removal of the main engine and boiler, countershafts, Municipal Office dynamo and switch boards was commenced, and it was completed on January 14th. During the period of this removal the Municipal Office was lit by a portable engine and dynamo obtained on hire from Mr. Gordhandas Goculdas Tejpal. The temporary plant was in use for 5 days and a sum of Rs. 500 was paid for the service.

293. The engine shed itself had not up to this time been removed to the Market compound and a heavy fall of rain on January 13th necessitated the covering over of all the plant with tarpaulins and prevented the Market lamps being lit before 10 p.m. But for this unforeseen circumstance there would not have been a minute's interruption of any of the lights throughout the whole of the removal. The shed was subsequently rebuilt and the work was almost completed at the end of March.

294. Beyond the stoppages above mentioned, there were no other failures of the lights throughout the year. The total cost of working the installation was within the Budget apportionment and amounted to Rs. 10,580-5-6.

I.

MUNICIPAL WORKSHOPS.

295. The following are the particulars of expenditure incurred during the year for Departmental and private works executed at the Municipal Workshops and for supervision and shop charges, tools and repairs to Machinery, Buildings, &c. :—

	Rs. a. p.	Rs. a. p.
For Departmental Works, &c.—		
Labour	40,472 8 1	
Stores	60,071 6 3	
Piece-work, cart-hire, &c.	1,393 4 9	
Total ...		1,01,937 3 1
For Workshop & Stores—		
Labour	644 13 7	
Stores	2,398 13 9	
Total ...		3,043 11 4
For Shop Charges—		
	Rs. a. p.	
Labour	2,215 8 4	
Stores	13,621 7 6	
Piece-work, contingencies, water tax, &c.	1,681 12 0	
Total ...		17,518 11 10
For Tools, Repairs to Machinery, Buildings, &c.—		
Labour	31 10 1	
Stores	38 13 9	
Repairs to buildings	93 13 9	
Total ...		164 5
For Supervision Charges, Establishment, &c.—		
Establishment	8,524 8 4	
Stores	.....	
Contingencies	573 3 8	
Total ...		9,097 12 0
Total Expenditure for Working the shops		26,780 13 5
Total Expenditure during 1900-1901 was Rs. ...		1,31,761 11 10

	Rs. a. p.	Rs. a. p.
The total expenditure during 1900-1901 on account of Departmental works, &c., (Rs. 1,01,937-3-1) and for workshop & store jobs (Rs. 3,043-11-4) aggregated, with the amount charged for supervision, tools, shop and repair charges, &c., (Rs. 36,268-12-3) to ...	.....	1,41,249 10 8
Add—Amount of incomplete jobs at the beginning of the year 1900-1901	.....	10,312 1 1
		1,51,561 11 9
Deduct—Amount of incomplete jobs at the end of the year 1900-1901	.....	17,015 3 9
Thus the total amount of bills preferred by the Workshops in 1900-1901 was	.....	1,34,546 8 0

PERCENTAGE FOR SUPERVISION, SHOP, REPAIR CHARGES, &c., GROUND RENT AND WATER SUPPLY.

	Rs. a. p.	Rs. a. p.
The actual charges for the general working of the Shops (Rs. 17,518-11-10) for supervision exclusive of the pay of the Assistant Engineer, Mechanical Branch, (Rs. 9,097-12-0) for repairs to and purchase and renewal of ordinary tools, machinery, &c., (Rs. 164-5-7) and purchase of a steam hammer (Rs. 3,190-0-0) amounted to	.....	29,970 13 5
The amount recovered on account of the abovementioned expenses by charging the fixed percentage of 35 per cent. on the cost of labour employed and materials used for works executed at the shops was	35,678 0 2	.....
The difference between the actual cost of working the Municipal pumping engine, plus 35 per cent. for supervision, repairs, &c., and the fixed charges at which it was let on hire to private parties and for Departmental works was	474 1 2	.....
The percentage realized for private works executed was	116 10 11	.....
The amount realized by the sale of surplus and unserviceable articles, coal ashes, &c, was	2,645 1 11	.....
The balance in favor of the Workshops was therefore	.....	8,943 0 9
Total Rs. ...	38,913 14 2	38,913 14 2

296. A 5 cwt. Massey's self-acting steam hammer was purchased from Messrs. Turner, Hoare & Co. to replace an old and unserviceable hammer of the same size at a cost of Rs. 3,190.

297. No ground rent was paid to Government during the year, but the long standing dispute as to the right of occupancy of the ground occupied by the Workshops, the Municipal Stores, the Health Department Stables and Grant House at the nominal rental previously charged has now advanced a stage further.

298. The Acting Solicitor to Government under his letters Nos. 852 & 853 of June 6th, 1900, informed the Municipal Corporation that their tenancy of the land on which the above premises were situated would expire on December 10th, 1900, and demanded that they should give over possession of the same to the Collector of Bombay on that date.

299. A proposition on the part of the Corporation to submit the matter to arbitration having been declined by Government, the Corporation under their Resolution No. 9267 of November 19th, 1900, sanctioned the handing over to Government a portion of the land comprising of a strip of the Workshops yard and a portion of the General Office and nearly the whole of the Stores yard and the land on which "Grant House" is situated.

300. Under the same Resolution, the Corporation also sanctioned the following grants from Surplus Cash Balance for the removal and re-erection of the buildings standing on the above land :—

	Rs.	a.	p.
For removing the electric light engine shed, engines, dynamos and fittings from the Municipal Workshops to the compound of the Arthur Crawford Markets and making temporary arrangements for lighting the Markets during the progress of the work	7,600	0	0
For working the Municipal office lights during the removal of the plant	1,400	0	0
For removing and re-erecting the large store-room and sepoys' quarters	4,000	0	0
For removing and re-erecting the store-room for disinfectants	1,000	0	0
For removing the Workshop log-saw frame with shed and erecting it on other site	2,535	0	0
For monthly allowance to the Assistant Engineer, Mechanical Branch for house rent	100	0	0

301. As the removal of the abovementioned buildings, &c., could not have been effected within the prescribed time, the matter was represented to Government, and they were pleased under their resolution number M—484 of 22nd November 1900, Public Works Department, to grant an extension of 3 months, *i.e.*, up to the 10th of March 1901 within which the buildings, &c., should be removed.

302. The works were put in hand immediately on the receipt of the sanction of the Corporation, and all the buildings were removed and the land cleared before the 10th March 1901.

303. The removal of the electric light machinery, &c., was done departmentally. The shed for disinfectants was removed and re-erected on Municipal land at the junction of Falkland and Foras Roads through the agency of petty works contractors.

304. The materials of the store sheds and of the office of the Inspector of Stores were removed to the Foras Road Depôt, pending the settlement of a new site for the Workshops. Certain stores belonging to the Plague Department which were formerly accommodated in these sheds were sent to the Stores at Government House, Parel.

305. The Store Office and the stores in hand for the use of the Workshops were removed to the painters' shop which was shifted to another portion of the Workshops buildings. The log-saw frame and shed which stood on the ground to be vacated was also removed and re-erected in another part of the Workshop yard.

306. As intimated in letter No. M—484 from the Secretary to Government in the Public Works Department, dated 22nd November 1900, the Collector of Bombay presented himself at the Workshops on the 10th December 1900 and demanded possession of the land occupied by the Health Department Stables, yard, chawls, &c., and the remaining portion of the Workshop premises. The demand was not complied with, as advised by the Municipal Solicitors and nothing further appears to have been done in the matter.

307. The land referred to in para. 298 above was handed over to the Collector of Bombay on the 11th March 1901 and the building known as "Grant House" which was formerly occupied by the Assistant Engineer, Mechanical Branch, was handed over on the 30th idem.

308. The Workshops have continued to keep in repair the rolling stock of the Health and Road Departments, and the machinery at the Love Grove and Colaba Pumping Stations, steam rollers, fire engines, &c., &c., in a satisfactory manner during the year.

309. In consequence of a larger number of new works having to be executed at the Workshops than was anticipated, the grant for stores and water supply was found insufficient, and had to be supplemented by an additional grant of Rs. 16,500 from Surplus Cash Balance.

310. The grant of Rs. 6,000 for extra and overtime labour was also found to be insufficient for the same reason and a transfer of Rs. 2,750 was obtained from savings in the grant for establishment to meet the extra expenditure under this head.

311. A further transfer of Rs. 100 from savings in the grant for repairs to machinery was also obtained to meet the excess in the grant for contingencies and printing, to meet the cost of a new Balance Sheet book and of advertisement charges in connection with the invitation of tenders for coal.

HYDRAULIC LIFT IN THE MUNICIPAL OFFICE.

312. The Hydraulic Lift worked satisfactorily during the year at a total cost of Rs. 1,699-8-11.

GARLICK INCINERATOR.

313. This Incinerator, being no longer required in consequence of the arrangements made for the removal of the City refuse to Deonar, was sold by public auction on 18th December 1900 to Messrs. Jiwaji Salubhai and Mahamadalli Mahamadbhai for Rs. 2,675. It was pulled down and removed by the purchasers by the 20th February 1901.

314. The engine previously used for driving the blast fan was transferred to the Love Grove Compressor Station for working the electric light installation at a valuation of Rs. 450.

PLAGUE OPERATIONS.

Improvement and demolition of insanitary buildings.

319. During the year the inspection of houses in the following Districts which was in hand at the commencement of the year was continued in :—

1 Colaba.
2 Fort.
3 Mandvi.
4 Chakla.
5 Umarkhadi.
6 Dongri.
7 Market.
8 Dhobi Talao.
9 Bhuleshwar.
10 Khara Talao.
11 Kumbharwada.
12 Khetwadi.
13 Mazagon.
14 2nd Nagpada.
15 Tardeo.
16 Byculla, and
17 Walkeshwar.

following additional Districts were also taken up during

1 Fanaswadi.
2 Girgam.
Chaupati.
Mahalakshmi.
Tarwari.
6 Parel, and
7 Sion.

321. Some cases in other parts of the City were also inspected when urgency demanded such inspection.

322. The accompanying statement marked **A** gives detailed information as regards the number of houses inspected in each district, those found in need of improvement and also those condemned as incapable of improvement and fit for demolition.

323. Altogether 1,809 houses were inspected during the year under review, of which 1,363 houses were found more or less in need of improvement, 443 were found incapable of improvement and fit for demolition, the remaining being such as not to require any improvement.

324. In all 144 houses and sheds were demolished during the year.

325. During the year under review 1,769 Notices were issued requiring house owners to improve their buildings. In 578 houses the work of improvement was taken in hand. 250 houses were declared unfit for human habitation, of which 49 houses were closed permanently for demolition, 197 temporarily for enforcing improvements in them and in 4 action was taken for the immediate improvement of ventilation.

326. During the year 12 buildings condemned for demolition under Sections I and IX of the Government Notification No. 228-P of 10th February 1897 were assessed by the Government Assessor who awarded Rs. 864 for compensation for them.

327. The amount of compensation paid during the year for structures demolished under Sections I and IX of the abovementioned Notification and under Section 426 of the Municipal Act was Rs. 2,001.

328. The work of abatement of over-crowding in ho[illegible]he congested parts of the City was also continued, and 35 [illegible]s were served during the year for that purpose. It has [illegible] effected in 98 cases.

329. During the year 490 certificates of houses imp[illegible] fit for human habitation were issued.

330. Departmental action was taken under the po[illegible] Municipal Commissioner under Government Notificat[illegible] 3027 of 10th May 1898 to improve the ventilation o[illegible] their owners failed to take the work in hand, [illegible] Municipal men were employed in almost all cases the o[illegible] took the work in hand, and at their request the Muni[illegible] withdrawn.

A

MUNICIPAL SERVANTS' ACT.

333. No circumstance has arisen in this Department during the year under report to necessitate the putting of the Municipal Servants' Act into operation.

I have the honor to be,
Sir,
Your most obedient Servant,
M. C. MURZBAN, F.R.I.B.A., M.INST.C.E.,
Executive Engineer, Municipality.

K—FIRE BRIGADE.

1. The establishment has been upheld in a state of efficiency during the year and all appliances are in good condition and thorough working order.

2. Several members of the Brigade have received injuries in the execution of their duties, none of which, however, were of a serious nature, except Fireman Ebrahim Hussein, who in consequence of injuries received to his head at a fallen building at 2nd Bhoiwada Street, on the 1st July, which permanently disabled him from further service, was invalided and allowed a pension of Rs. 4-10-8 a month by the Corporation from the 27th November 1900.

3. Eight members of the department died from plague, &c., during the year and nineteen members resigned or otherwise left the service.

4. No case of loss of life by fire, where the Brigade was concerned, has occurred during the year.

5. The water-supply at fires has been satisfactory in all cases and the attendance of the Water Works staff has been prompt and of assistance to the Brigade.

6. The inspection of Fire Hydrants throughout the City has been carried out by the Brigade during the year.

7. The fire service at the Municipal offices has been maintained in good working order, and the employés have been periodically drilled in the use of the appliances. The fire appliances at the several Municipal markets have also been periodically inspected and cleaned and are in good condition.

8. A new van was built by Messrs. Stephens and Sons at a cost of Rs. 1,500, and supplied on the 5th May for use by the Brigade for conveying men and appliances for the purpose of rescuing persons who may have been overwhelmed in the debris of fallen buildings.

9. Two new horses were purchased during the year in place of two sold by public auction, unfit for further Fire Brigade work.

10. An order for 5,100 feet of delivery hose and other appliances was satisfactorily executed by Messrs. John Fleming and Co.

11. Provision has been made in the ensuing year's Budget for supply of 3,420 feet of delivery hose for fire purposes to replace other condemned in the year 1899-1900.

12. Provision has also been made in the same Budget for three new Telescopic Fire Escapes to replace three others condemned unsafe for further use. Three new main ladders for existing machines and other small appliances are included.

13. The present strength and equipment of the Brigade is as follows:—

Strength.

1 Chief Officer.	13 First Class Tindals.
2 Clerks.	6 Second " "
1 Head Foreman.	115 Men of Grades.
5 Foremen.	8 Drivers.
7 Engineers.	8 Grooms.

Making a total of 166, including all ranks.

Equipment.

8 Steam Fire Engines.	6 Telescopic Ladders.
8 Manuals.	1 Brake.
16 Hose Reels.	1 Van.
7 Tender Carts.	16 Horses.

371 lengths of delivery hose, comprising about 22,260 feet, and other necessary fire-extinguishing appliances.

14. The number of calls to fires, or supposed fires, received during the year has been 87; of this number 7 were reported by the Police but did not require the attendance of the Brigade, the remaining 80 involved the turning out of Engines and men and resulted in 11 false alarms, and 69 fires, 46 of which were extinguished by the Brigade appliances and 23 before the arrival of the Brigade.

15. The estimated damage to property during the year has amounted to Rs. 1,99,955, showing a decrease of Rs. 2,11,744 as compared with the preceding year.

16. The amount of damage to property at the 46 fires extinguished by the Brigade appliances is estimated at Rs. 1,98,381, whilst the property in imminent risk of becoming involved at these fires has been rated at Rs. 33,69,389.

17. The estimated damage to insured properties has been Rs. 1,23,400, whilst that to uninsured properties has been Rs. 76,555.

18. The estimated quantity of water used for extinguishing fires during the year has been 6,93,380 gallons or about 3,095 tons, of this quantity 6,53,780 gallons were taken from the street mains and 39,600 gallons from wells and tanks.

19. The fires of 1900-1901 show a decrease of 15 compared with 1899-1900 and with the average of the past ten years a decrease of 43 fires.

20. No fires of any note have occurred during the year.

The distribution of engines, &c., is as under :—

PUBLIC GARDENS.

REPORT OF THE SUPERINTENDENT OF THE MUNICIPAL GARDENS, RECEIVED UNDER HIS NO. 357, DATED THE 20TH MAY 1901.

1. The following gardens were maintained during the year under report :—

(*a*) Victoria Gardens.
(*b*) Elphinstone Circle Garden.
(*c*) Municipal Office Garden.
(*d*) Bazar Gate Garden.
(*e*) Dick's Tank Garden.
(*f*) Northbrook Garden.
(*g*) Falkland Road Garden.
(*h*) Malabar Hill Garden.
(*i*) Sir Cowasji Jehangir Garden, Mahim.

2. The total number of visitors to the Victoria Gardens, during the year under report, was 16,53,639, nearly five and a half lacs more than in the previous year, and the largest yet recorded during the past 10 years since the self-registering turnstiles have been used. This unprecedented large number was due chiefly to the addition of two interesting animals to the garden collection during the year, *viz.*, the Orang-Outang and the Elephant. The Orang was purchased in October 1900, and since then there was a steady increase in the number of visitors till the 25th December 1900, when the elephant was also brought to the gardens, when the average daily number rose to the large figure of about 9,000 against the normal daily average of about 3,000, for the corresponding period. It has again declined to the normal since February 1901.

3. Some more new roads were laid out around the cages of animals and in the newly added portion of the garden. The new roads laid out in the previous year were metalled, and all the other garden roads repaired and kept in good order throughout the year.

4. As the grant for laying water-pipes, which was discontinued for the past 3 years for want of funds on account of heavy plague expenditure, was again sanctioned in the year under report the 3" pipe in the new ground was extended to a distance of about 350 feet and some small branch pipes laid in other parts of the gardens where necessary.

5. The [illegible]on and repairs of small drains across roads to carry [illegible]om the garden were continued, and some more [illegible]he drains during the year under report.

6. The work of levelling, weeding, planting and renewing the lawns and raising their level by the addition of fresh earth and manure was carried out to a larger extent than in previous years. The new paddocks for deer of various kinds were planted with *hariali* grass and now form beautiful grazing grounds for the animals kept in them.

7. Several old shrubberies were entirely dug up, trenched, manured and replanted with suitable plants; as for instance, one bed was entirely planted with succulents, another with Crotons, a third with Begonias, also others with white flowering trees and shrubs of various kinds, roses, &c. The large island in the artificial pond, which was overgrown with unsuitable trees and plants, was also cleared and almost entirely replanted with more suitable plants. The work of replacing old worn-out plants in all the other shrubberies was also continued during the year under report.

8. The work of planting new and suitable trees along roads, and labelling them with names for the instruction of visitors, was continued during the year under report. Rows of Ashupala trees (*Polyalthia longifolia*) and Balsam of Tolu (*Myrospermum toluiferum*) have been planted at equal distances apart on each side of the main central straight road of the garden, which are intended to form two handsome avenues in this part of the garden, when they have sufficiently grown after a few years.

9. The vacant ground to the north of the gardens was levelled, weeded and planted with a large number of shade trees for the present until it could be laid out properly. A portion of it was also planted with Guinea Grass and *Reana luxurians* for the feed of the elephant.

10. The banks of the artificial ponds were again thoroughly repaired, supplied with fresh earth and manure and replanted with grass.

11. The plant house in the nursery for the propagation of conservatory plants, was extended during the year under report. The work in the nursery is increasing more and more every year with the addition of new plants, and the efforts required to be made for increasing the income derived by the sale of plants and flowers. The general work of the gardens has also been steadily increasing for several years past, especially by bringing more and more of the vacant ground under cultivation every year, and the existing staff is now quite insufficient for maintaining the gardens in an efficient condition. The difficulty—or more properly the almost impossibility—of obtaining suitable men as *mallees* cannot be overcome, and the work has to be carried on chiefly by the so-called *mallees* who are, in fact, no better than ordinary coolies, having not the least knowledge, aptitude or zeal for learning the work. In spite of these difficulties the gardens were kept throughout the year in as good a condition as possible.

12. The Executive Engineer was supplied with [illegible] ing on roadsides.

13. A list of new plants, added to the collection during the year under report, is given in the appendix to this report.

14. The pensioned Military sepoys, engaged in place of Police Ramosis, being more under the direct control of the Superintendent of the Gardens, have proved more useful than the Ramosis. Sufficient number of strong, active men are not, however, available from this source, and the continuous work of 12 hours at a time tells much on the efficiency of their work.

15. Water stand-pipes and latrines for the use of visitors which were a much-felt want in the gardens, were sanctioned in the year under report, but have not yet been completed.

16. The condition of the Zoological portion of the gardens continued to receive greater attention than before, and the addition of new cages and specimens of rare and interesting animals has helped to make the gardens more popular. This satisfactory state of affairs is due to the zeal and interest taken in the matter by the Commissioner and the Garden Committee.

17. The construction of the new deer paddocks was completed in the year under report. They now provide seven radiating compartments to accommodate seven different kinds of animals, with a circular shed in the centre for the shelter of the animals from inclement weather and at night, and large well-turfed open yards in front. Most of the deer in the gardens have now been transferred to these paddocks, and efforts are being made to add to them such as are required to make a representative collection. The only drawback to the paddocks is the insufficiency of large trees for shade; but as the required number of trees have already been planted, matters would improve greatly in this respect in 3 or 4 years' time. As the trees planted in the paddocks are damaged by the barks being rubbed off and eaten by the animals, strong permanent tree-guards have been provided to some of them from the savings of some of the garden grants, but many more are still urgently required.

18. It has been decided to use the special grant sanctioned in the year under report for the improvement of the Zoo for the construction of a large cage for Aquatic birds, or more properly for the enlargement of the existing small Aquatic cage presented by the late Sir Dinshaw M. Petit. As the grant is not sufficient for the purpose, it is intended to meet the deficiency from the current year's grant. The work has been sanctioned and will be undertaken shortly.

19. The Maharajah of Bhownagar's house for the smaller carnivora was completed in the year under report. It has been designed to contain four wings in the form of a cross, each wing having two cages. The design of the cage in respect of ventilation, shelter, roominess, &c., has been very much approved by all those who are competent to give an opinion on the subject. Unfortunately, the grant was not sufficient to complete all the four wings. Only two wings, with four

cages, have, therefore, for the present been constructed, giving accommodation to four different kinds of smaller carnivora, which were formerly accommodated in small unsuitable cages. It is to be hoped that the money for the two remaining wings will be soon forthcoming, so as to relieve the other smaller carnivor animals from their present small cages where they are cramped for want of room and exposed to all the vicissitudes of the weather.

20. The animals added to the collection in the year under report were :—

By purchase—

11 Mandarin Ducks.	7 Bar-headed geese.
2 Blue and yellow macaws.	2 Red-billed blue magpies.
2 Marmosets.	4 White-crested laughing thrush.
1 Gold pheasant.	4 White-throated ,,
6 Peafowls.	4 Black-throated jays.
2 Black apes.	1 Binturong.
2 Crown pigeons.	1 Shama.
1 Orang-Outang (jav.)	1 Gold-fronted chloropsis.
2 Australian Cassowary.	2 Ring-necked pheasants.
2 Purple-faced langurs.	2 Sambur deer
2 Silver pheasants.	1 Argus pheasant

and other small animals and birds.

By presentation—

1 Civet cat.	By Mrs Bennett.
1 Purple coot.	„ Mr. MacDermot.
2 Domestic goats.	„ „ E. Elliot.
2 Malbrouck monkeys, one each.	„ Messrs. E. Thorpe and Vallabdares.
2 Porcupines, one each.	„ „ E. Cawdrey and Hon'ble Mr. Bomanji D. Petit.
1 Indian sloth bear	„ Mr. O. W. Ramsay.
1 Dog-faced baboon.	„ „ M. C. Shroff.
14 Finches.	„ Mrs. Rhenius.
1 Four-horned antelope.	„ Mr. Bendier.
1 Muscat gazelle.	„ Col. Jayaka[illegible]r, I.M.S.
1 Palm civet.	„ Kazi of Bombay.
1 Indian wild dog.	„ Capt. Leslie.
2 Flat-tailed sheep.	„ Mr. K. M. Shroff.
1 Langur monkey.	„ „ J. Macdonald.
1 Leopard.	„ H. H. the Rajah of Sailana.
1 Elephant.	„ „ „ Maharajah Gaikwar of Baroda.
1 Leopard.	„ „ „ Maharajah Holkar of Indore.
1 White scavenger vulture.	„ Mr. F. M. Crisp.
1 Abyssinian baboon.	„ „ J. Kambata.
2 Wolf cubs.	„ „ W. Heyland.
1 Himalayan palm civet.	
1 Civet cat.	
1 Rock-horned owl.	„ the Bombay Natural History Society.
1 Palm civet.	
2 Houbara bastards.	
2 Jungle cats.	

Born in the Gardens —

1 Black lemur.	2 Indian antelopes.

21. It will be seen from the above list that several new and rare animals that were never exhibited in the Gardens before, such as the Orang-Outang, Elephant, Cassowary, Binturong, Marmoset, Argus pheasant, &c., were added to the collection during the year under report, and attracted crowds of visitors to see them. The baby Orang was the first to attract large crowds—the word going round in the City that there was a "Jal-Mánus" or hybrid man in the Gardens, and crowds of the poorer classes of people thronged the Gardens daily and collected near its cage waiting for hours together to get a chance of seeing it through the large crowd. The animal came in a very debilitated condition, and though the greatest care was taken in feeding it with nourishing and easily digestible food, such as malted milk, Mellin's food, &c., and special precautions taken to shelter it from the cold winds, &c., by covering the cage with glass in front, it lived only for four months and then died of acute dysentery during a spell of very bitter cold in February.

22. Special thanks are due to His Highness the Gaikwar of Baroda for his valuable present of a female elephant, through the good offices of Sir Bhalchandra Krishna, Kt., one of the most prominent members of the Corporation. This animal also attracted large numbers of visitors daily, about 5,000 a day on week days, and about 20,000 on Sundays and holidays, for nearly two months. It is a costly animal to keep, but it is intended to give elephant rides in the Gardens to the visitors by charging a small fee, as is done in other Zoological Gardens, and it is hoped that a large part of the expenditure on the animal would be met from the money thus realized.

23. Among the casualties during the year may be mentioned—

1 Monant pheasant.	1 Arabian gazelle.
1 Rib-faced deer.	1 Flying squirrel.
1 Lynx.	1 Ostrich (female).
1 Pelican.	1 Black lemur.
3 Sloth bears.	1 Marmoset.
1 Indian antelope.	1 Orang Outang (jav.).
2 Nilgais.	1 Crown pigeon.

24. All the other gardens were kept up in good condition throughout the year. Some of the old shrubberies in the Elphinstone Circle and Bazar Gate Gardens were entirely dug up, trenched, manured and replanted. The level of the roads in the Dick's Tank Garden was somewhat raised to prevent rain water lodging on them, and the lawns raised, manured, levelled and repaired. Some of the old plants in the shrubberies in the Malabar Hill Garden were replaced with new ones. The Northbrook Garden was occupied by plague hospital and camp throughout the year.

25. The budgetted and the actual expenditure on different gardens is shown below :—

	Names of Gardens.	Total amount sanctioned.			Expenditure.		
		Rs.	a.	p.	Rs.	a.	p.
(*a*)	Victoria Gardens	68,227	3	1	64,526	1	8
(*b*)	Elphinstone Circle Garden	2,260	0	0	1,460	2	1
(*c*)	Falkland Road Garden	617	12	0	426	0	0
(*d*)	Northbrook Garden	2,042	15	0	1,455	12	1
(*e*)	Sir Cowasjee Jehangir Garden	838	5	0	657	14	1

(*h*)	Malabar Hill Garden	1,581	1	0	1,373	9	6
	Total... Rs.	76,789	4	1	70,859	10	8

APPENDIX A.

List of plants newly introduced in the Victoria Gardens during the year 1900-1901 :—

Amherstia nobilis
Arundinaria Folconeri
Caladiums of sorts
Chonemorpha macrophylla
Cobæa scandens
Cordyline stricta
Encephalartos caffra
Epiphyllum truncatum coccineum
" " spectabile
Eucalyptus resinifera
Hæmanthus kalbreyeri
Heliconia metallica
Hibiscus of sorts
Melaleuca leucadendron
Melocanna bambusoides
Myrsiphyllum (medeola) asparagoides
Palms of sorts
Saintpaulia ionantha
Tecoma smithi
Zea japonica fol : variegatis.

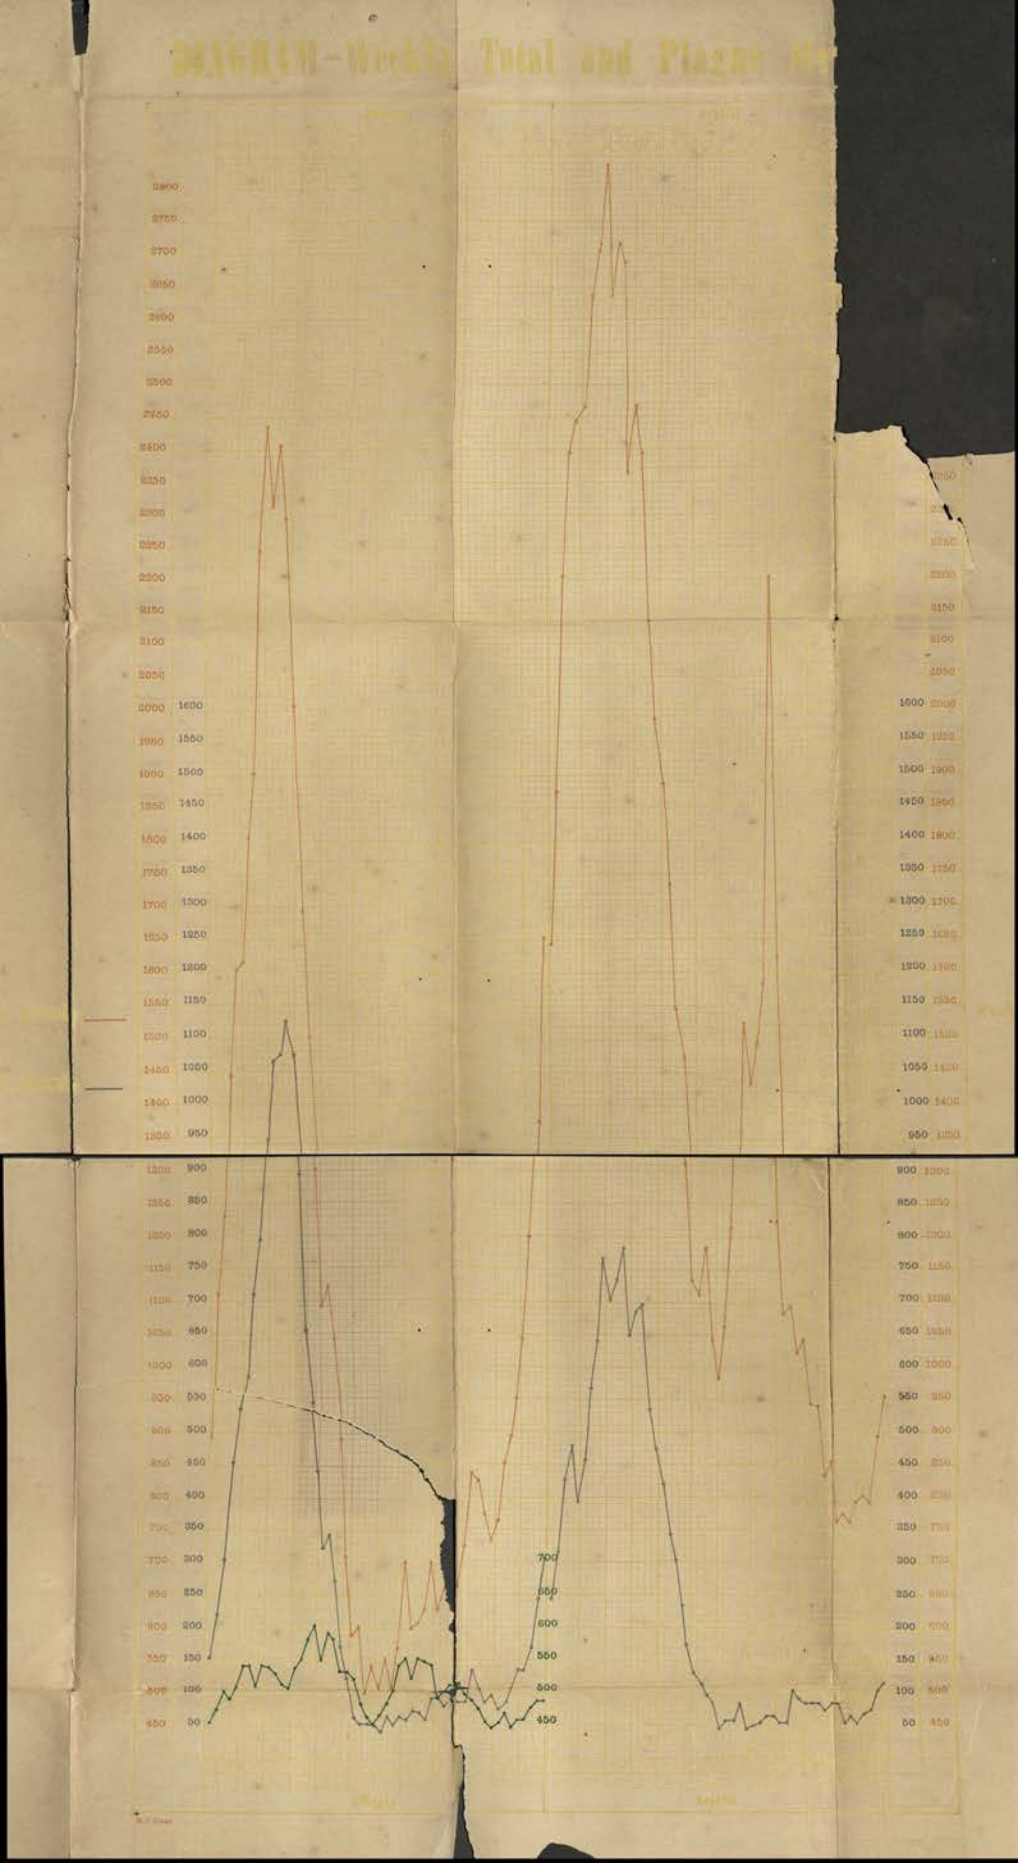
THE VICTORIA AND ALBERT MUSEUM.

REPORT OF THE SECRETARY AND CURATOR, VICTORIA AND ALBERT MUSEUM, RECEIVED UNDER HIS NO. 221, DATED THE 15TH JUNE 1901.

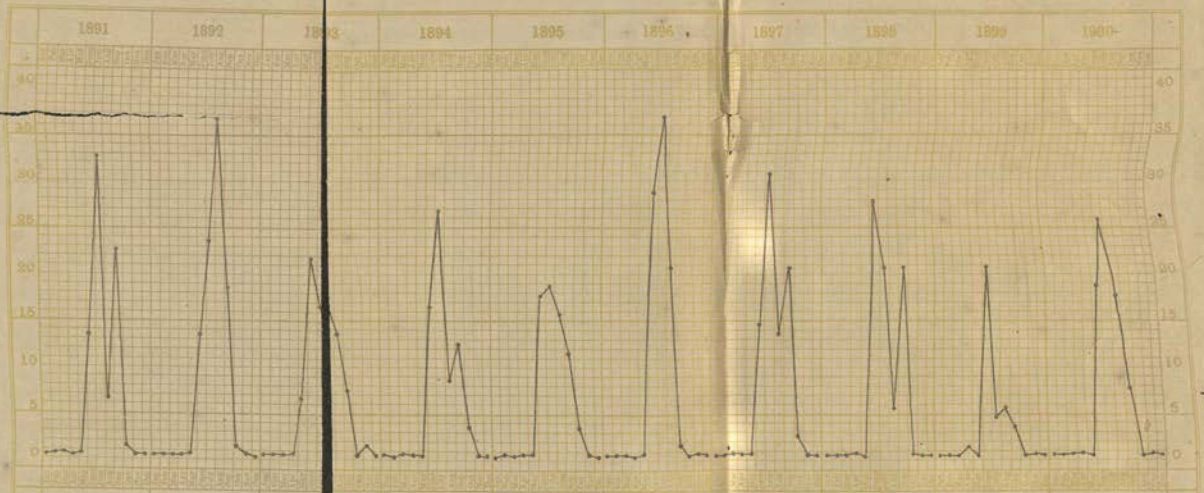
1. In the Natural History division the departments of Mammals and Reptiles received very few additions. To the department of Fishes, Crustaceans and Molluscs (numerous minor specimens) were added during the year. Also fourteen dried specimens of the fishes of Arabia were received by presentation from the Bombay Natural History Society. The departments of Birds, Entomology and Geology received numerous additions.

2. During the year under review four skins of mammals were cured and preserved and three smaller specimens were stuffed and mounted for exhibition at the Museum. In the department of Birds 52 birds were skinned and their skins were cured, stuffed and mounted at the Museum. The collections of Reptiles, Fishes, Crustaceans and Molluscs were frequently examined and the additions made in the departments were cured and preserved in spirits of wine. Also constant attention was paid to the Entomological collecti[illegible]nd the specimens added during the year were cured, preserved [illegible] for exhibition at the Museum. The department of G[illegible] by presentation from the Secretary, Bombay Chamb[illegible] 38 specimens of minerals found in the British d[illegible] Merwara in Rajputana. These specimens were [illegible] labelled for exhibition at the Museum.

3. In the division of Anthropology several ac[illegible] during the year. The department of Artware rec[illegible] of Kashmere, Madras and Burmese silver work a[illegible] Kumta and Surat ivory and sandalwood work. [illegible] of enamelled work were added to the department. Ethnology received 11 specimens of armour, [illegible] of Indian manufacture. To the department of [illegible] added four silver coins, one gold coin and on[illegible] presentation from the Honorary Secretary, [illegible] Asiatic Society, agreeably to the Resolution [illegible] India, No. 46-1668-82 of the 9th October 188[illegible] of Artware and Manufactures the specimens o[illegible] other textile fabrics were, now and then, exa[illegible] were freely supplied with preservatives. As f[illegible] specimens in the various departments, except the [illegible] leakage, were all in good order and preservation.



RAINFALL BY YEARS AND MONTHS



1891	1892	1893	1894	1895	1896	1897	1898	1899	1900
23847	26518	23142	27330	25081	33451	47896	51961	56434	79350

These Figures show the Total Number of Days this instrument of Stillborn.

4. The Museum Library received several important additions during the year.

5. Early on Wednesday morning, the 23rd January 1901, news of the demise of her late Majesty Queen Victoria Empress of India was announced at the Museum with profound regret and the day was ordered to be observed as a close holiday. The Museum was also ordered to be closed on Saturday, the 2nd February 1901, the day appointed for the funeral of her late Majesty Queen Victoria Empress of India.

6. During the year under review the Museum was open to the public for 312 days, and the total number of visitors was 824,289, showing a daily average attendance of a little over 2,641. During the year 1899 to 1900, the Museum was open to the public for 313 days, and the total number of visitors was 683,277, showing a daily average attendance of a little over 2,182. The increase in the number of visitors showed that the general population of the native town during the year under report was much larger than it was during the preceding year though the plague during the year raged almost as severely as it did during the four preceding years.

PUBLIC HEALTH.

I.—REPORT of the EXECUTIVE HEALTH OFFICER.

II.—REPORT of the SUPERINTENDENT OF LICENSES.

III.—REPORT of the SUPERINTENDENT OF MARKETS.

IV.—RETURN OF STREET ACCIDENTS, forwarded by the COMMISSIONER OF POLICE.

V.—REPORT of the MEDICAL OFFICER IN CHARGE INFECTIOUS DISEASES HOSPITAL, ARTHUR ROAD.

I.—REPORT OF THE EXECUTIVE HEALTH OFFICER FOR 1900.

I have the honour to forward herewith my first Annual Report for the year 1900. In doing so it must be explained that the duties of the office were only taken over by me in February 1901. The report, therefore, will be naturally meagre, as I am not in a position to express an opinion on work done prior to that date.

Population.

2. The population of the City, estimated by the Census of 1891, was 821,764, and it is on this population that the statistics for 1900 are based.

Area.

3. The area of the City is 22 square miles.

Births.

4. The number of births registered was 12,688, giving a birth-rate of 15·43 per 1,000 of population. Owing to the faulty system of birth registration these figures are unreliable. Owing also to the migratory habits of a certain class of the population a proper register of births has hitherto not been available.

5. The abnormally low birth-rate can be accounted for in many ways.—

1. The proportion of males to females 170·60 to 100.

2. The mother often leaves the city before the child is born and this birth is not registered when she returns.

3. The occupation of the mother entailing hard manual labour under very indifferent conditions must have a very deleterious effect on the birth-rate.

4. Famine and Plague have direct influence on the marriage-rate and consequently on birth-rate.

6. The number of the births registered was, however, 2,064 more than last year. Of the total number of births 6,552 were males

and 6,136 females; 2,062 still-born births were also registered during the year under report. Birth-rate amongst Parsees and Europeans is little higher than in the previous year.

TABLE SHOWING THE NUMBER OF BIRTHS AND THE BIRTH-RATE BY CLASSES IN 1900.

Classes.	Population by Census of 1891.	Number of Births.	Birth-rate per 1,000 of Population.

11. During the year the control of all Plague measures was under Government. The Municipal Commissioner with his Personal Assistant and officers of the Army, were appointed to carry out the measures for the control of Plague. Under these officers were appointed a number of Medical men and subordinate staff to carry out the only measures

enforced; namely, disinfection by washing the floors and walls of infected houses with a solution of Perchloride of Mercury 1 in 1,000 parts. Evacuation of infected houses, and removal to hospital was not enforced.

12. The returns available show that there were 17,913 attacks and 13,285 deaths from the Plague. In 1899 there were 19,051 attacks and 15,796 deaths.

13. A full report of the measures adopted and the results will be seen and found in the Plague Report.

Plague Mortality by Caste.

14. As in previous years the general Hindu community suffered severely, the mortality amongst this class being 9,030. A decrease is noticeable amongst Brahmins, Bhatias and Parsees Europeans show 11 cases as against 12 of the last year.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM PLAGUE BY CLASSES IN 1900.

15. There is a marked reduction in the number of deaths occurring in Middle and Lower Colaba, Chaupati, Byculla and Tardeo as compared with the last year. The increase in Mahim is no doubt due to the movement of the population there. Plague Mortality by sections.

Plague Mortality by sex and age.

16. A total of 9,237 deaths occurred amongst males and 4,048 amongst females. The age period of males was from 14 to 44 years and amongst females between 10 to 34 years the highest mortality occurred.

Causes of Deaths Compared.

18. In the table below it will be observed that the number of deaths in nearly all the diseases have been more than the previous year, Plague standing highest amongst them :—

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM DIFFERENT CAUSES IN 1900.

Cause of Death.	No. of Deaths.	Death-rate per 1,000 of Population.
Small-pox	3,018	3·67
Measles	1,500	1·82
Fevers	7,928	9·64
Cholera	4,273	5·19
Plague	13,285	16·16
Phthisis	8,199	9·97
Diseases of the Nervous System	4,328	5·26
" Respiratory System	12,522	15·23
Diarrhœa	5,850	7·11
Dysentery	2,826	3·45
Accidents	1,072	1·30
All other Causes except Still-born	14,549	17·70
Total	79,350	96·56

Mortality by Months.

19. The following table shows the total mortality by months, the highest being registered in the month of March :—

TABLE SHOWING THE NUMBER OF DEATHS FROM ALL CAUSES BY MONTHS IN 1899 AND 1900.

Months.	No. of Deaths from all Causes exclusive of Still-born in 1899.	No. of Deaths from all Causes exclusive of Still-born in 1900.
January	5,644	9,478
February	7,422	10,478
March	10,183	11,181
April	6,224	8,995
May	4,030	6,519
June	2,279	4,540
July	2,393	5,530
August	2,705	7,292
September	2,718	4,454
October	3,307	3,829
November	3,587	3,206
December	5,942	3,848
Total	56,434	79,350

20. 45,429 males and 33,921 females died during the year, excluding those under five years, the highest number of deaths amongst males occurred in the age-period between 25 and 29 years, 4,789 deaths having been registered; and amongst females, 4,709 in the age-period of 60 and over.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM ALL CAUSES BY CLASS AND SEX IN 1900.

Classes.	Males.			Females.		
	Population.	Deaths.	Per 1,000 of Population.	Population.	Deaths.	Per 1,000 of Population.

The Death-rate by Caste.

22. The death-rate by classes is shown in the following table. It is noticeable that the low caste Hindus, excepting Negro Africans, Buddhists and Lingaets who form very small communities, show the highest mortality, *viz.*, 214·57 per 1,000 of population. The Jain community, which includes Banias, also suffered much, their death-rate being 95·73. Mussulman give a death-rate of 102·57, and the general mass of the Hindus give a death-rate of 97·12, the death-rate amongst Parsis was 37·63. European death-rate being little higher than in the previous year.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM ALL CAUSES BY CLASSES IN 1900.

Classes.	Population by Census of 1891.	Number of Deaths.	Mortality per 1,000 of Population.

Small-pox.

23. This disease was very prevalent during the early part of 1900, 3,729 attacks and 3,018 deaths occurring. This gives an increase of 2,578 deaths over last year, and 2,714 more than the average of previous five years. As in other diseases Hindus of other caste suffered the most, Hindus Low caste and Mussalmans being the next. There were 16 deaths amongst Europeans. The disease was practically confined to children under one year of age. A special report, which is included here, was made.

General Department, Bombay Castle,
No. 298. 15th January 1900.

"Letter from the Municipal Commissioner for the City of Bombay, No. 26611, dated the 13th January 1900 :—

"I have the honour to forward herewith copy of a report from the Executive Health Officer from which it will be seen that small-pox is prevalent in the City in an epidemic form. All the ordinary precautions are being taken; patients are, as many as possible, being removed to hospital; disinfection is being carried out, and special arrangements have been made to encourage vaccination in consultation with the Sanitary Commissioner. The work of removing patients and of disinfection has been entrusted, as the most effectual and economical measure, to the staff of doctors and disinfecting gangs now working under the Deputy Commissioner, for Plague operations; but it will be necessary to add to this staff and to provide extra Hospital accommodation as the Arthur Road Hospital, with many plague and relapsing fever patients, cannot hold many more. I therefore ask the formal sanction of Government under Section 434 of the Municipal Act, to the following special measures being adopted :—

(1) The employment of such medical and disinfecting staff as may be required;

(2) the provision of such extra ambulance or other means of conveyance of patients as may be required;

(3) the opening of the Grant Road Infectious Diseases Hospital;

(4) the maintenance of special wards at the Maratha Hospital;

(5) the erection of special temporary wards at the Arthur Road Hospital;

(6) the opening of small temporary hospitals on the open areas in the North of City and for sanction to entertain such establishment and incur such expenditure on maintenance, &c., as the above measures may render necessary. The measures will be reported to the Corporation in due course as required by Section 434 (2) of the Act.

2. "The favour of a very early reply is requested, as there are now over 200 patients in the Arthur Road and Maratha Hospitals."

Letter from the Executive Health Officer of the Bombay Municipality, No. 16401, dated the 13th January 1900.

"I have the honour to report that small-pox in a mild epidemic form is prevalent in many districts of the City and will probably increase as the season advances. The disease is largely prevalent amongst adults and in a very mild form amongst Bombay born children. The daily mortality from small-pox during the last week has been as follows :—

		Deaths.
6th	January	4
7th	"	20
8th	"	16
9th	"	23
10th	"	13
11th	"	16
12th	"	16

The measures adopted are directed to—

(*a*) The protection of the people by vaccination.

(*b*) The isolation and treatment of the patients.

(*c*) Disinfection of the place where the patient is and the surroundings.

(*d*) Opening of additional hospital accommodation.

"(*a*) A daily return of attacks from small-pox is sent to the Superintendent of Vaccination showing the division, section, street or wari, number of house, names, &c. Great efforts are being made to get the people in the affected localities to get themselves and their children vaccinated. The Commissioner of Police has been requested to inform people by beat of *battaki*. Under your orders notices have been printed and are being circulated urging the population to avail themselves of the facilities for vaccination.

"(*b*) Where the people cannot be treated in their own houses they are, if possible, removed to hospital. In doing so the greatest regard is paid to the feelings of the people and respect shown to their views in regard to small-pox. Great care has to be taken in dealing with outbreaks of small-pox in order to avoid popular demonstration. The general principle is this: where a case occurs and the other people in the building are vaccinated, removal is not insisted on if the patient is fairly well cared for.

"(*c*) The disinfection is carried out in the following manner :—The floors, walls and roof are flushed with disinfecting solution ; afterwards the place is disinfected with sulphur ; particular attention is given to insanitary conditions and their removal."

RESOLUTION :—"As small-pox is prevalent in Bombay in an epidemic form, the following measures, which the Commissioner deems it necessary to take under Section 434 of the City of Bombay Municipal Act, to prevent the spread of the disease, are sanctioned :—

(1) The employment of such medical and disinfecting staff as may be required.

(2) The provision of such extra ambulance or other means of conveyance of patients as may be required.

(3) The opening of the Grant Road Infectious Diseases Hospital.

(4) The maintenance of special wards at the Maratha Hospital.

(5) The erection of special temporary wards at the Arthur Road Hospital.

(6) The opening of small temporary hospitals on the open areas in the North of City and the entertainment of such establishment as the above measures may render necessary.

(Sd.) J. DEC. ATKINS,
Secretary to Government."

Cholera.

24. There was a serious epidemic of Cholera during the year, 4,815 attacks and 4,273 deaths being registered.

25. The disease began in January (1-1-1900) and continued until December (28-12-1900). Strict precautions were taken to prevent the spread and the following report was made :—

"No. 7962 of 1900—1901.

Bombay, 20*th July* 1900,
Municipality of Bombay.

PUBLIC HEALTH DEPARTMENT.

From

The EXECUTIVE HEALTH OFFICER,

To

The MUNICIPAL COMMISSIONER,

SIR,

" With reference to the Resolution of the Corporation No. 4050 of the 5th instant, asking for a report as to the specific and definite measures taken under the special Government Resolution sanctioning special measures to be taken under section 434 of the City of Bombay Municipal Act of 1888, I have the honour to submit the following report :—

1. *Medical Staff.*

2. " With the co-operation of the sectional medical Officers em ed on Plague duty, it has not been found necessary so far, to er additional medical men, except one in C ward, and it may be nece to employ more. The Health Department and the Plague staff working together. Information of cases is obtained directly private practitioners and by the Plague and Health Department

2. *Water-supply.*

3. " For some time past the water-supply of the city has bee the most careful observation, and, by your orders constant ba gical examination, of both the filtered and unfiltered Vehar a water and of the Tansa water, is made at the Municipal Labor Parel by Divisional Health Officer, Dr. Cayley and by Dr. H In addition to this, frequent examination is made of pipe waters from houses where cases have occurred. Wells are with Permanganate of Potash. The bacteriogical examin the lake waters has not shown any specific contaminat addition to the special examination of our water-supply, t chemical analysis is also carried out. Outside the city, I un that special precautions have been taken for the protectio gathering grounds and margins of the various lakes by the ment of patrol parties. The distribution of water throughout is being carefully regulated and controlled.

3. *Conveyance of the sick and the removal of the dead.*

4. The horse ambulances of the Health Department and hand ambulances of the Plague Department have been made use of. With the present decline of Plague mortality the number of hand ambulances available is sufficient. The strain, however, upon the horses is very great, and if the epidemic increases, it will be necessary to obtain additional horses.

4. *Hospital Accommodation.*

5. "Accommodation is available at the Infectious Diseases Hospital at Arthur Road. Arrangements have been made for the reception of Cholera patients of all classes at Maratha Hospital, and owing to the disease having appeared with virulence in the northern part of the Island, the Plague Hospital at Mahim has been utilised for the treatment of Cholera cases.

6. "Owing to the kindness of the Managers of the Maratha Hospital in throwing open a part of their accommodation for the treatment of Cholera, it has not been considered necessary to open Grant Road Hospital. Arrangements, however, have been made and Grant Road Hospital could be opened on very short notice.

7. "At this season of the year the opening of temporary Hospitals in the outlying or other portions of the city is not altogether practicable, and with accommodation now available they do not seem necessary. It may be necessary if the disease shows any tendency to further increase to utilize a certain part of the accommodation at the Modikhana Hospital.

5. *General Measures.*

8. "As stated above, the Health Department and the Plague Staff are working together. For practical reasons the disinfection of infected houses is carried out by the Plague Staff. The examination of the sick is done by the Deputy Health Officers and Section Medical Officers, and the removal of the sick is carried out by the Health Department. The removal of unclaimed dead is performed by the Health Department as occasion arises. The sanitary surroundings of infected buildings are seen to by the Health Department and such actions as may be necessary are taken by it.

9. "Arrangements have been made at your request for the Municipal Dispensaries at Dongri, Kumbharwada, Curry Road being kept open all day for the issue of medicine to any one calling for it, and the dispensary medical officers have been asked to give all assistance, in the treatment of Cholera cases.

10. "The District Plague Officers and Health Department Staff have been supplied with Cholera medicine for free issue.

11. "The question of the medical inspection of passengers coming into the City is under consideration."

26. As before stated the Cholera mortality was 4,273, being 4,162 more than last year. The highest number of deaths from this disease were registered in the month of August. Amongst Sections Byculla had the greater number of deaths from Cholera. Of the total number of deaths 2,948 occurred amongst Hindus of other castes and 628 amongst Hindus low caste. A total of 332 deaths occurred amongst persons who had resided in Bombay for 3 months and under and 445 deaths occurred amongst persons who resided in Bombay for 6 months. The great number of deaths occurred in persons born outside of Bombay.

27. A total of 7,928 deaths was registered from fevers. Remittent fever claims the highest number, *viz.*, 7,278, being 2,517 more than the last year and 1,913 more than the average of the previous five years. To simple continued fever 45 deaths were ascribed, being 99 less than the last year and 611 less than the average. To enteric fever 60 deaths were put down, being 16 more than the last year and 23 more than the average of the last five years. To ague 545 deaths were ascribed, being 431 more than the last year and 342 more than the average. Out of the large number of deaths returned as due

to remittent fever, many may have been due to relapsing fever and plague, as it is very difficult to diagnose the disease without strict examination being held in each case. It will be observed that the fever mortality rose and fell with the mortality from plague. It rose from January to March, when 1,166 deaths were registered. The highest number of plague deaths registered in the month of March was 3,125. From the month of April fevers gradually decreased till the end of the year.

TABLE SHOWING THE NUMBER OF DEATHS FROM FEVERS BY MONTHS IN 1900.

Total ...	7,928

28. Amongst the Hindus of low-caste there was a considerable increase, the rate being 22·18 as against 14·61 in the previous year. There was also an increase amongst the Hindu community and Mussalmans. Parsees showed a slight increase and the Europeans a slight decline.

Fever Mortality by Section.

Dongree, Byculla, Parel and Mahim give the highest incidence of fever mortality.

29. The details given in the table below will point out how the fever death-rate stands in relation to sexes. The female death-rate has always been higher in previous years than that of males, and the year under report could not be an exception. Fever Mortality by Age and Sex.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM FEVERS BY SEX AT DIFFERENT PERIODS OF LIFE IN 1900.

Ages.	MALES.			FEMALES.			PERSONS.		
	Population.	No. of Deaths.	Death-rate per 1,000 of Population.	Population.	No. of Deaths.	Death-rate per 1,000 of Population.	Population.	No. of Deaths.	Death-rate per 1,000 of Population.

Relapsing Fever Mortality.

30. To Relapsing Fever 1,094 deaths were due, being 265 more than in the previous year. The highest number of deaths from relapsing fever were registered in the month of June. From July the disease decreased slowly, but again rose in December.

STATEMENT SHOWING THE DEATHS FROM RELAPSING FEVER BY MONTHS DURING 1900.

Months.	Number of Deaths.
January	157
February	96
March	60
April	87
May	128
June	167
July	101

September	38
October	65
November	46
December	91
Total	1,094

Measles.

31. In the following 3 statements the mortality due to Measles is arranged. 1,500 deaths were registered from this disease, being 368 less than in the last year, and 847 more than the average of the preceding five years. Great number of deaths occurred amongst Hindus of other caste. The Hindus low-caste give the highest death-rate. The infant mortality, due to Measles, was high and the age-period under two years was the most fatal. The female death-rate from this disease was little higher than that of males.

Phthisis.

32. 8,199 deaths were reported as due to Phthisis, being 2,170 more than in the previous year. It is difficult to say how far these figures are correct as a very small percentage of the deaths were certified by Medical Practitioners. Other diseases of the Respiratory system amount to 12,522 deaths under the heading of Bronchitis, Pneumonia, Pleurisy, &c.

33. There were 3,749 deaths amongst males and 4,450 deaths amongst females due to Phthisis. The most fatal periods of life amongst males and females were between the ages of 30 to 34. The female

death-rate was double that of male. Leaving out Negro-Africans, which is a fluctuating community, the mortality from this disease was high amongst Mussalman, higher even than last year. 2nd Nagpada shows a death-rate higher than the other sections.

Infant Mortality.

34. The number of children under one year of age dying during the year was 13,492. Calculating the infant mortality on the number of children registered as being born during the year, the rate would have then astounding proportion of 1,063 deaths to 1,000 births. Owing to the fact that all the births are not registered, a correct statement of the infant mortality cannot be given. According to the Census populati of 1891, the number of children under 1 year of age was 25,291. these figures remain good, then the infant mortality calculated on th basis would be 533 per 1,000 of the infant population.

35. In the Census of 1891 there were 166,194 females in Bom between the ages of 14 and 45. Assuming that these women gave b to children in the same proportion as women in European cities an that the number remained constant in 1900, 12 per cent. of the women would give birth to children. The number of births should be 19,943, giving a birth-rate of 24 per 1,000 of the population. 13,492 infants under 1 year of age died during the year. In the previous year 8,351 infants died, being a difference of 5,141 in excess of the previous year. The cause of this enormous mortality cannot be put down to Plague or Cholera.

36. Small-pox and Measles prevailed during the year, and accounted for 1,035 and 525 deaths of infants, respectively. Diseases of the Respiratory System are stated as being responsible for 2,062 deaths of infants, while under the heading of Diarrhœa 1,094 deaths are given.

37. The other causes given are Diseases of the Nervous System (2,730) and Debility (3,829). Of the latter 2,239 were under thirty days.

38. Infant mortality in large manufacturing cities is ascribed as due to many causes, the chief of which are directly or indirectly malnutrition, due to bad feeding, congenital debility and neglect. Measles and Whooping Cough are very fatal to young children, especially if neglected, while Diarrhœa, caused by polluted milk and food, has very fatal results. During the year the infant mortality has been very appalling, more than one-fourth of the total mortality being of children under 5 years of age. The increase in the infant mortality is over 8,420 more than last year.

General.

39. From Diseases of the Digestive System 10,504 deaths were registered, being 4,945 more than in the previous year and 6,419 more than the average. Diarrhœa and Dysentery show a very marked increase both as against last year and on the average. To Diseases of the Nervous System 4,328 deaths were registered, being 1,316 more than the last year and 2,919 more than the average. 12,522 deaths were ascribed to Diseases of the Respiratory System, being 3,872 more than in the last year and 5,557 more than the average. To Diseases of the Circulatory System 348 deaths were registered, being 5 more than the last year and 89 more than the average.

Other Diseases.

40. The comparison of other diseases is shown in the following table:—

Disease.	Mortality.	Incidence.	Average.	Remarks.
rinary	291	+4	+132	
erative	538	—127	+36	
omotion and Cellular issue	194	+51	+60

ccidents and Violence ...	1,072	+525	+652	

41. There were 56 deaths due to poison, 36 suicidal and 18 accidental. Of the latter two were from snake-bite, and in two instances the circumstances under which death took place were not known. 904 deaths were due to injuries. There were 112 deaths from drowning, 61 being

suicidal and 33 accidental, and in 18 instances the circumstances under which death took place were not known.

42. No new burial-ground was opened during the year.

43. In Appendix **B** at the end of the report will be found a table showing how the dead of the various communities were disposed of.

44. The following sections, among others, show the highest mortality :—Mahim, Byculla, 1st Nagpada, Tardeo, 2nd Nagpada, and Kamatipura. In Mahim, where there is no crowding of buildings and density of population, the high mortality can only be attributed to the movement of the people there consequent upon Plague. Byculla shows a very high death-rate. Last year the rate was 104·97, but this year it is 146·04. The crowded sections of Bhuleshwar, Khara Talao, Kumbharwada, Fanaswady, Dhobi Talao and Market show a death-rate ranging from 63·03 to 117·17. Leaving out Fort South, which residentially is a very small quarter, Chowpatty has the lowest death-rate, *viz.*, 29·79.

Registration of Birth and Deaths and Sickness Returns.

45. Owing to the very imperfect system of registration of births and deaths the above figures cannot give very reliable information. I trust, however, that when I have to present my annual report for 1901, I shall be in a position to say that this system has been much improved when I shall be able to give a more satisfactory statement of the vital statistics of the City.

46. I have already presented a report to the Corporation on the subject of registration of births and deaths, and I hope a better system will be in working order before next year.

Municipal Dispensaries.

47. The three dispensaries provided by the Municipality have done excellent work during the year, 145,341 cases were treated and reports made weekly to the Health Department of the incidence of various diseases. The value of these Dispensaries cannot be overrated, they afford free relief to the poor and provide valuable information to the Health Department. I would strongly urge the necessity of extending the sphere of work of these institutions by providing many more in the City, so that the poor could be visited at their homes.

Immigration.

48. The immigrating beggars and refugees were the source of much trouble and one of the chief factors in causing an increase in the mortality both amongst adults and infants, and the necessity of taking steps to control these people was recognised by Government. I have to point out that a stricter supervision should be kept over these people in the future as they are the means of spreading disease and have a serious effect on the death-rate of the City. They are, as a matter of fact, an outside element contributing very seriously to the vital statistics and should not really be considered as a constant quantity when estimating the mortality of the City. By eleminating them from the figures on which we base our statistics a great improvement would be noticeable in the results, as they are practically visitors.

49. Prosecutions were instituted by the Divisional Health Officers in three cases and three convictions were obtained. The Act, as it stands, is not sufficient for the purpose and should be amended and reports have been made to the Corporation on this question. Adulteration of Ghee.

50. The preparation of this serum was continued throughout the year at the Municipal Laboratory and patients at the Arthur Road Hospital were treated with it and a full report is given by Dr. Polverini who has been in charge of the Laboratory. Lustig's Anti-Plague Serum.

51. In October this hospital was opened for the admission of road side cases and Mrs. Adams Wylie offered her services gratuitously which offer was accepted by the Commissioner. Much valuable work was done at the Hospital and Dr. Ranina was appointed Physician in charge. Grant Road Hospital.

52. The water-supply was analysed by Dr. Cayley chemically and bacteorologically on many occasions, especially for the Cholera vibrio and also systematically every month, and I include a statement of the results of these analyses. Water-supply.

53. The work of extending the sewers has been carried on and house-connections are being made. It is of the utmost importance that the sewage system be extended as rapidly as possible and house-connections made, and the drains now discharging into the storm-water drains be cut off and connected with the sewer. The north of the Island is rapidly developing and the drainage of that part should have immediate attention. Drainage.

54. The City was regularly inspected and many insanitary conditions reported upon. A statement of the work done in this direction is given. Inspection of the City.

55. The scavengering drain-cleaning, and night-soil removal worked satisfactorily, and a statement of the work in connection with this Department is appended. Conservancy System.

56. In this report I do not propose to criticise or suggest any reforms, as the report deals with the year 1900. I hope, however, in my report for 1901 to be able to suggest some improvements in various directions and with the assistance of the Divisional Health Officer, whose work on the past has been of great value, I trust in the future to be able to report satisfactory progress.

57. The total expenditure on the Health Department came to Rs. 21,63,683-8-6 and the income to Rs.8,04,983-4-9, the actual cost of the Department to the Municipality was, therefore, Rs. 13,58,700-3-9.

58. On the average 6,862 men and women, and 1,188 scavenging and drain carts, and 204·19 night-soil and cesspool carts were at work each day in 1900.

59. 348,152 tons of garbage, equal to 953·84 tons a day, were collected and removed and disposed of against 344,268·5 tons of garbage in 1899.

60. 172,459·83 tons of night-soil and cesspool matter, equal to 473·04 tons a day, were collected and removed as against 170,506·11 in 1899.

61. 202 miles of covered drains were opened and cleaned against 167·1 miles in 1899.

62. 4,231 Notices and 3,271 summonses were issued against 3,924 notices and 2,066, summonses in 1899.

63. The amount of fines recovered amounted to Rs. 3,334-10-0 against Rs. 1,612-4-0 in 1899.

64. 1,642 building plans were received and disposed of against 1,411 in 1899.

Report on the Analyses of the Bombay Water-supply for the year ending 31st December 1900.

By C. H. Cayley, M.D.

65. During the year 1900 chemical analyses of the waters from the three Lakes, which form the Bombay water-supply, were made in each month. The bacteriological examinations were started in the month of June and have been continued monthly since that date.

The general results of the chemical and bacteriological examinations of the waters show that the monsoon rains effect a great purification of the water in the Lakes and that after the monsoon is over the waters in the Lakes steadily deteriorate in quality reaching their worst at the end of the dry season; namely, in the month of May and the first weeks in June. The deterioration in the quality of the waters is shown by the gradually increasing proportion of albuminoid ammonia which they contain. This albuminoid ammonia is produced by the decomposition of weeds, algœ and other vegetable growths in the Lakes. Only once in the course of the year did the Chemical Analysis point to any other contamination of the water than that due to the absorption of vegetable matter. The exception referred to was in the Tulsi water in the month of July 1900 when for the first and only time in the series of analyses nitrites were found in the water, at the same time the water was found to contain a large amount of free ammonia. The presence of nitrites in water is generally regarded as showing that the water has been contaminated with animal matter, usually in the form of sewage. These nitrites were found in the water of the Tulsi Lake itself where there could be no possibility of sewage contamination. The nitrites were only found in this water during the portion of the month of July, when there was a break in the weather after the first heavy fall of rain in June. The origin of the nitrites was probably due to the fact that a considerable portion of the bed of the Tulsi Lake had been exposed to the air and that in the portion of the exposed bed the bodies of small fish, water snails, and other forms of aquatic life, which had been killed by exposure to the sun, had collected in large numbers and been decomposed. The first fall of rains must have washed the products of decomposition into the Lake and given rise to the presence of the nitrites and to the

excess of free ammonia in the water. As further heavy rains fell the water of the Lake was purified and the nitrites disappeared, being oxidised into nitrates, which were found in the water during August and September and then also disappeared.

Until the month of August the waters of all the Lakes contained an exceptionally large amount of albuminoid ammonia. This was due to the comparative failure of the monsoon in 1899, so that the usual purification of the water in the Lakes had not taken place. As a result also of this failure of the monsoon there had been an excessive growth of weeds in all the Lakes, which still further added to the amounts of albuminoid ammonia.

During the year there was a severe epidemic of cholera in the City and fears were entertained that the water in the Lakes might have been infected. During July, August and the first half of September when the epidemic was at its height daily examinations of the waters from the three Lakes were made for the presence of the cholera bacillus. In no case was a bacillus found that gave the cultural reactions of the vibrio of cholera. It was noted, however, that the waters of all the Lakes, especially the Vehar Lake, contained large quantities of vibrios, which disappeared from the waters when cholera disappeared from the City, *i.e.*, by the end of September. Pure cultures of these vibrios were not pathogenic to mice and did not give the cultural reaction of the cholera vibrio. The presence of these vibrios in the waters only during the continuance of the cholera epidemic seemed to show that the conditions, which favoured the growth of the cholera vibrios were also favourable to the growth of other vibrios, and that if vibrios should be found in excessive numbers in the waters of the Lakes that the conditions favourable for the spread of cholera would be present, and that if cholera was introduced into the City there would be the possibility of an epidemic. That the cholera epidemic in the City was not caused by the infection of the water in any of the Lakes was shown by the distribution of cholera throughout the City. Cholera cases occurred in all parts of the City and at no time followed the distribution of the water from any one of the Lakes, which would have been the case if any of the Lakes had been infected.

The condition of the Tulsi water during April and May was very bad, the water containing as much as 0·65 parts of albuminoid ammonia per million. The Lake also was very low and if the rains had again failed the water in Tulsi Lake would no longer have been available for use. With this possibility to be reckoned with the question of having to draw water from the Powai Lake was discussed, and an analysis of the water of this Lake was made in the month of July.

Although there had been several inches of rain in June the water of the Powai Lake was found to contain a great excess of albuminoid ammonia and to have a dirty yellow colour. The quantity of total solids also was nearly twice as great as that present in the other Lakes. The water of the Powai Lake would not have been a suitable water for supplying Bombay.

The rain which had held off during July returned in August and efficiently purified the water of all the Lakes. The quality of the water continued to be good for the remainder of the year, although there was a slight increase in the amount of the albuminoid ammonia in all the waters in each month after the cessation of the rain fall.

The bacteriological examination of all the waters was started in June and was continued monthly. The first effect of the rain was to increase the number of the bacteria in the waters. During the months from August to December the numbers of the bacteria in the different waters remained fairly constant. The numbers also had a close relation with the chemical purity of the waters. Thus in the Tansa water, which was always the purest of the waters, the numbers of bacteria averaged from 200 to 300 per c.c., and in the Vehar water, which was the next purest, the average numbers were from 300 to 400 per c.c., and in the Tulsi water, which was the most impure, chemically the numbers averaged from 450 to 550 per c.c. The number of bacteria per c.c. in the Tansa water suddenly rose from 327 in October to 1,050 per c.c. in November. On enquiry as to the possible cause of this sudden rise it was found that there was a leak in the main within 50 yards of the place where the samples of water were taken. This would account for the sudden rise in the numbers in November. After the leak was repaired there was a steady diminution in the numbers of the bacteria and on December 13th the numbers were reduced to 560 per c.c.

No pathogenic bacteria were found in the waters at any time.

The filters at Malabar Hill and at Bhandarwada worked fairly efficiently removing about 87 per cent. of the bacteria. Probably a larger proportion of the bacteria would have been found to have been removed, if it had been possible to obtain the samples of filtered water immediately the water had passed through the filter. The channels for the filtered water are, however, so arranged that this is not possible and before the samples can be taken it is possible for some bacteria to have gained access to the filtered water from the air.

As regards the quantities of the waters of different Lakes—

Tansa Lake.—The water of the Tansa Lake is the purest both chemically and bacteriologically. The largest amount of albuminoid ammonia found in this water during the year was ·25 parts per million. This amount was only found on one occasion when there was a very large growth of algœ in the water. The average quantity present was ·12 parts per million and the smallest ·08 parts per million in the month of August.

Vehar Lake.—The largest quantity of albuminoid ammonia found was ·26 parts per million. The average for the dry months in the year was ·2 parts per million, and during the monsoon 1 part per million.

Tulsi Lake.—The largest quantity of albuminoid ammonia found was ·65 parts per million and the average during the dry weather before monsoon was ·6. During and after the monsoon the average was ·18 parts per million. The Tulsi water during the whole of the year was distinctly inferior in quality to the waters of the other Lakes.

Table showing the record of the important work done during the year 1900 :—

1899.		Details.	1900.	
Rs.	8,27,423-7-10	Total income of the Health Department	Rs.	8,04,983-4-9 †

Appendix A.

Government Observatory, Colaba, Bombay.

AGGREGATE AND MEAN VELOCITIES AND RELATIVE FREQUENCY OF DIFFERENT WINDS, 1900.

TABLE showing for the year 1900 the Sums of the Velocities, and the Mean Velocities, in miles per hour, of the Winds which blew in each Month, from each of the Sixteen Principal Directions, and also the number of hourly Observations which those sums comprise; the latter numbers indicating the Relative Frequency of the same Wind (as to directions) in the several months, and of different Winds during the same Month.

* The deaths refer to those of persons who died out of Bombay and whose bodies were buried in Bombay. The number also includes still-births.

LICENSE DEPARTMENT.

Report of the Superintendent of Licenses received under his No. 883, dated the 1st May 1901.

I am happy to state that as regards revenue, I am able this year to present a report as satisfactory as that of the preceding years.

I annex a tabulated statement showing the amount of fees collected under each head of licensable commodities during the year under report.

The income from all these up to 31st March last, including Rs. 15 collected for the previous year during 1900-1901, was Rs. 63,689, that is Rs. 3,689 in excess of the budget estimate.

5,912 licenses (the largest number) were issued in 1900-1901 against 5,831 licenses issued in the previous year.

Experience of the working of the License Department for the last ten years had shown that the license fees charged under the Schedule of Fees in force up to 31st March 1900 were rather heavy for some of the petty tradesmen dealing in licensable commodities. With a view to give some relief in such cases, the Schedule of Fees was revised from 1st April 1900, and the statement given below speaks for itself and fully justifies the revision and the modification of the fees :—

Year.	No. of Licenses issued.	Revenue realized. Rs.
1894-95	5,701	63,914
1895-96	5,880	65,048
1897-98	5,750	63,741
1899-1900	5,831	63,732
1900-01	5,912	63,689

From this it will be seen that in 1894-95 although the number of licenses issued was less by 211 than the number granted in the year under report, the revenue derived was better by Rs. 225.

In the same way in the year 1895-96, although the number of licenses was less by 32, the revenue was better by Rs. 1,359.

The number of prosecutions instituted during the year against persons for carrying on licensable trades without licenses, or for infringing the conditions thereof, was 2,140 against 2,339 instituted during the year 1899-1900.

This satisfactory work both in revenue as well as in controlling dangerous and offensive trades is the result of honest hard work of my staff both in-door and out-door, and I have every reason to express my gratification for the way in which all have discharged their respective arduous duties.

3.—MARKETS.

Report of the Superintendent of Markets and Slaughter-houses received under his No. 988, dated the 29th June 1901.

1. The total amount of stallages from the different Municipal markets, recoverable every quarter or half-year, under the terms of section 407 (*a*) and (*c*) at the opening of the year, amounted to Rs. 47,709 against Rs. 48,148 at the closing of the year, showing an increase of Rs. 439, which is, in a measure, due to the right of occupancy of some of the stalls in the different markets having been sold by auction for a higher sum during the year under report. The following is the detailed statement :—

Names of Markets.	Rent per quarter as appearing at the opening of the year.	Rent per quarter as appearing at the closing of the year.	Increase.	Decrease.	Net increase.	REMARKS.
	Rs.	Rs.	Rs.	Rs.	Rs.	
Colaba Market	305	311	6	...		
Fort do. ...	4,685	4,763	78	...		Half-yearly.
A. C. Fruit & Vegetable Market...	14,862	15,133	271	...		
Do. Fish and Mutton Market...	2,614	2,609	...	5		
Do. Mutton Market (new)...	947	947	...	...		
Do. Beef Market ...	2,664	2,660	...	4		
Godowns	1,553	1,553	...	...		
Fowl rooms	861	849	...	12		
Erskine Road Fruit and Vegetable Market(old)	6,260	6,365	105	...

Pork do. ...	100	100	...	...		Yearly.
DeLisle Road Sheep Market	3,570	3,570	...	...		Half-yearly.
Fergusson Road Market.	324	322	...	2		
Total...	47,709	48,148	485	46	Net Increase Rs. 439-0-0.	

2. The total amount of Market fees (exclusive of departmental squatters' fees and those recovered from the contractors) collected during the year under report, on the basis of the scale shewn above, amounted to Rs. 1,51,983-1-9 against Rs. 1,48,227-7-3 in the previous year, shewing an increase of Rs. 3,755-10-6. This increase is partly due to reoccupancy of several of the stalls in the different markets that were vacant in the previous year as shown in the detailed statement in the margin, and partly to the right of occupancy of some of the stalls having been put up to auction and higher rentals obtained for them than in the previous year. The following is an explanatory statement which will show in detail the difference in stall rents on account of the total or partial vacancy of stalls as also the subsequent alterations in stall rents on account of rise or fall in rents at the auction sale during the year under report contrasted with those in the previous year:—

Names of Markets.	Total number of stalls.	Average number of stalls vacant in each quarter in 1900-1901.	Average number of stalls vacant in each quarter in 1899-1900.

4. The squatters' fees from Fish Markets, Scale Fees in the Crawford Markets compound, and the Fair Ground Rent and Feeding Fees at the Bandora Slaughter-houses, recovered from the contractors during the year under report, amounted to Rs. 1,02,010-5-4, which includes Rs. 0-5-4 paid in excess by the Colaba Market Contractor in his instalment for the month of April 1900, against Rs. 93,085 in the previous year, shewing an increase of Rs. 8,925-5-4. It has been the practice for years past to put up to auction every year the right of collecting these fees, excepting the scale fees. But for the year under report all these rights were put up to auction, with the result which was advantageous to the Municipality. The competition at the sale was very brisk and the Market Fees alone went up to Rs. 29,010-0-0, being higher by Rs. 6,625 than in the previous year. Since the right of collecting Scale Fees for the year under report was advertised to be sold after an interval of about eight years, there were evidently good many bidders, and the sale realized Rs. 6,500, that is, Rs. 1,800 in excess of the previous year. In regard to the Fair Ground Rent and Feeding Fees it was never anticipated when the right for the previous year was put up that the amount would go up to such a very high sum as Rs. 66,000, and it was thought that there would be a large falling off in the yield under this head for the year under report. But as already stated in para. 9 of my previous year's report, there was an influx of animals at the Bandora Slaughter-houses and the slaughter of animals was exceptionally heavy. This had left a large margin of profit for the Contractor, and when the right for the year under report was put up there was very keen competition, considering there would be no appreciable change in the state of affairs at Bandora in regard to the importation and slaughter of animals. This had resulted in the yield of Rs. 66,500 from this head, that is, Rs. 500 in excess of the previous year's amount. In the following statement is contrasted, in detail, the amount recovered during the year under report with those in the previous four years :—

Particulars.	1896-97.	1897-98.	1898-99.	1899-1900.	1900-1901.	Difference as compared with 1899-1900. Increase.	Difference as compared with 1899-1900. Decrease.	Remarks.

Decrease over preceding year's amount	...	18,010	1,520	...	.....			

5. The Squatters' Fees collected departmentally in the several Municipal markets during the year under report, amounted to Rs. 3,077-1-3, against Rs. 3,226-8-0, in the previous year, showing a decrease of Rs. 149-6-9. This is due to less number of squatters having occupied places under the eaves of the markets than in the previous year. In the following statement are contrasted the fees recovered during the year under report with those in the previous year :—

Names of Markets.	1900-1901.	1899-1900.	Difference.		Remarks.
			Increase.	Decrease.	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Recovery of gas	.....	15 0 0	.....	15 0 0
Fees for producing office record	5 0 0	25 0 0	.....	20 0 0
Fees for producing duplicate copies of receipts ...	4 1 6	1 8 0	2 9 6	.....
Miscellaneous (Bribe offered to Peons) ..	10 0 0	3 0 0	7 0 0	.....
Sale proceeds of wood of trees in the Crawford Markets and Pedder Market compound	22 4 0	.....	22 4 0	.....
Total ...	1,938 14 0	2,161 3 6	31 13 6	254 3 0

7. Since there is no appreciable difference in the revenue under the miscellaneous heads in the above statement, the detailed explanation is not necessary.

Slaughter Fees, Butchers' License Fees, &c., &c.

8. The total collection under these heads amounted to Rs. 1,60,086-11-0, against Rs. 1,73,455-10-5 in the previous year, showing a decrease of Rs. 13,368-15-5 as contrasted in the following statement :—

Particulars.	1900-1901.	1899-1900.	Difference.	
			Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Slaughter fees	1,39,008 3 0	1,51,252 9 0	.....	12,244 6 0
License fees	15,466 8 0	16,290 8 0	.....	824 0 0
Carriage of meat for Commissariat Contractor	48 0 0	48 0 0	.....	.....
Ground rent	72 0 0	72 0 0	.....	.....
Chawl rent...	2,312 0 0	2,334 0 0	.....	22 0 0

Do. Brigadier-General	.....	263 9 5	.....	263 9 5
Proceeds of blood from the Contractor, Mr. K.D. Framji	180 0 0	195 0 0	.....	15 0 0
Total ...	3,180 0 0	3,458 9 5	.....	278 9 5
GRAND TOTAL ...	1,60,086 11 0	1,73,455 10 5	.....	13,368 15 5

9. It will be observed on reference to the above statement that the Slaughter Fees shew a large deficit of Rs. 12,224-6-0. This is due to the fact that the importation of animals on to the Bandora Fair Ground by the sheep and cattle dealers was not so large as was in the previous year. This had resulted in the decrease in the slaughter of animals, as will appear from the statement in the margin. The chief decrease is in the slaughter of buffaloes, which alone accounts for the large falling off in the yield from the Slaughter Fees, the fee being Rs. 10 per head. Owing to the scarcity of these animals, the butchers, who used to slaughter buffaloes, had to slaughter cows and bullocks for consumption in the markets. In Appendix **A** is shown in detail the total number of animals slaughtered, removed for private slaughter within the meaning of Section 403 (2) (*e*) of the Act, by private individuals, removed by the Fadkarees (sheep dealers) for disposal at the DeLisle Road Sheep Market, &c., &c., each month during the year under report and the amount of fees levied thereon. The decrease in the importation of animals on to the Bandora Fair Ground (*vide* para. 13) coupled with the decrease in the slaughter of animals, clearly go to shew that the Fair Ground Contractor had to work the right of collecting Fair Ground rent and feeding fees with a small margin of profit, and if this state of things continue, it is feared the yield from this head next year will go down considerably.

Description of animals.	Number Slaughtered in 1900-1901.	Number Slaughtered in 1899-1900.	Increase.	Decrease.
Buffaloes	1,198	2,483	...	1,285
Cows, Bullocks and Calves.	42,349	40,454	1,895	...
Sheep and goats ...	6,21,367	6,31,190	...	9,823

10. The other decrease is in the head of License Fees, which is due to some of the sheep dealers having given up their trade during the year under report for scarcity of animals.

11. No rent was recovered from the Brigadier-General during the year under report, the portion sub-let to him out of the grazing ground at Bandora, having been resumed by Government.

12. It will be seen on reference to the several foregoing statements that the total receipts under all the heads detailed therein amounted to Rs. 4,19,096-1-4, against Rs. 4,20,155-13-2, showing a small decrease of Rs. 1,059-11-3 only.

13. During the year under report 1,273 buffaloes, 50,511 horned cattle and 7,06,903 sheep and goats were brought on the Bandora Fair Ground for examination and disposal, out of which 77 buffaloes, 4,451 horned cattle and 32,870 sheep and goats were found unfit for slaughter on inspection, and were consequently rejected, as shewn in

the following comparative statement. The remainder were either slaughtered for the markets, or were otherwise disposed of, the details of which are shewn in Appendix **A**.

Year.	Animals presented for examination.			Animals rejected.		
	Buffaloes.	Horned cattle.	Sheep and goats.	Buffaloes.	Horned cattle.	Sheep and goats.
1900-1901	1,273	50,511	7,06,903	77	4,451	32,870
1899-1900	2,654	48,063	7,27,333	181	5,578	42,113

14. The total amount of refunds, for which certificates were granted on account of Slaughter Fees in respect of the animals that were removed from the Slaughter-houses Compound for shippng requirements, was Rs. 4,492-8-0, the details of which are as under :—

Number of Cows, Bullocks or Calves removed.	Amount of refund.	Number of Sheep and Goats removed.	Amount of refund.	Number of Pigs removed.	Amount of refund.	Total amount of refund.
	Rs. a. p.		Rs. a. p.		Rs. a. p.	Rs. a. p.
225	1,125 0 0	6,719	3,359 8 0	4	8 0 0	4,492 8 0

15. The quantity of unwholesome food, particularly meat and fish, destroyed during the year under report as unfit for human consumption, under the provisions of Sections 415 and 416 of the Act, was 156,208 lbs. against 185,144 lbs. in the previous year.

16. The fines inflicted by the Presidency Magistrates for the infringement of the provisions of the Sections of the Municipal Act and the By-laws pertaining to Markets and Slaughter-houses, amounted to Rs. 510 during the year under report, as detailed below :—

Section 411 (*a*).	Section 411 (*b*).	By-laws Chapter II, Clause 18.	Section 412.	Total amount of fines.
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
5 0 0	55 0 0	10 0 0	440 0 0	510 0 0

General Remarks.

17. The beef and mutton supply during the year under report was fairly good—also the fruit and vegetable supply was up to mark.

18. In conclusion I would take this opportunity of mentioning that numerically the executive staff in connection with the Markets and Bandora Abattoires is weak, and in submitting the Market Budget for the ensuing year I shall dwell upon this matter.

Appendix A.

STATEMENT showing the number of animals slaughtered, removed for private slaughter, &c., during the year 1900-1901.

Description of Animals.	Months.												Total number of animals.	Total amount of slaughter fees.			Remarks.

5.—REPORT ON THE WORKING OF THE MUNICIPAL HOSPITAL FOR INFECTIOUS DISEASES AT ARTHUR ROAD FOR THE YEAR 1900.

I.—1. The report deals with the year 1900 and has been brought up to the end of May 1901.

II.—Grounds and Buildings.

2. The accommodation became greatly reduced owing to the collapse of all the temporary wards, except one, during the monsoon of 1900. And as none of them were rebuilt, the institution could not accommodate more than 200 patients as against 580 during the previous year. This, however, sufficed for all requirements during the plague epidemic of 1900-1901.

3. All the structures, permanent as well as temporary, were kept in a proper state of repair.

4. The only additional new structure erected was a temporary chawl consisting of 26 rooms for the hospital servants and sweepers.

III.—Conservancy and Water Supply.

5. These remained the same as during the previous years.

IV.—Medical Staff, Establishment and Nursing.

6. *Assistant Medical Officer.*—As the number of patients decreased greatly after the cholera epidemic of 1900, the services of Dr. D. C. Sethna were dispensed with from November 1900, and I continued to be in sole charge.

7. *Hospital Assistants.*—The number of Hospital Assistants remained the same as during the previous year.

8. *Nursing.*—The demands on the nursing staff were not so great as in 1899-1900 on account of the admission from all diseases having fallen considerably below the average.

9. *Establishment.*—The following was effective from February to April 1901:—

Special Assistant Health Officer in charge	1	Ayahs	12
Hospital Assistants	3	Cooks...	3
English Nurses	3	Dhobies	3
Local Nurses	4	Bhistee	1
Store-keeper	1	Dispensary Servant	1
Clerk	1	Ambulance Men	4
Compounder	1	Police Ramosses	4
Telephone Clerk	1	Coolies for Sterilizer... ...	2
Driver of Sterilizer	1	Malee...	1
Ward Boys	39	Sweepers (Male and Female) .	23

V.—Medical History of the Year 1900-1901.

10. *Plague.*—There was scarcely any recrudescence of plague after the epidemic of 1899-1900 and cholera appeared soon after its subsidence. And although the epidemic of 1900-1901 began fairly early (the C Ward reporting a heavy mortality in November and December) the hospital admissions bore no relation to its prevalence, in fact the total admissions from plague numbered 17 only during the two months. This was due mainly to the new regulations then promulgated by H. E. the Viceroy and their effect was observed to the full extent as the epidemic advanced. During the five months beginning with January 1901, there were 411 admissions only from plague, as against 750 during the same period in 1900. The largest number of admissions was as usual in February and March, (as in 1899 and 1900), and the epidemic was most virulent during the latter month. By the end of May it practically subsided.

11. As regards the nature of the epidemic, the characteristics most marked in the cases admitted, and their detailed description—all these will be found fully described in the special report on serum treatment submitted to the Municipal Commissioner. The nature of the disease was undoubtedly most virulent, complications were present in greater frequency, and the mortality rate also higher.

12. *Relapsing Fever.*—This affection continued in an epidemic form much longer in 1900 than in 1899, and it was only when the cholera epidemic made itself felt, that the admissions decreased suddenly. There were 964 admissions from January to June 1900, the number admitted in the latter month being 123. They fell to 27 only in July and 1 in August, and 2 in September. The admissions during the first five months of the current year have been 367, as against 841 during the same period last year. Relapsing fever still persists in the city, and every thing tends to point that it is mainly responsible for the heavy death-rate which is

generally registered under remittent fever. The affection has, however, become severe in its fatality, not so much from a change in its type or virulence, as from the low and debilitated condition of the lower classes, in whom it mostly prevails. Successive bad seasons, insufficient food and insanitary surroundings have left hardly any stamina in them to resist the infection. And hence the mortality rate among them has been higher than at any time previously.

13. *Cholera.*—The cholera epidemic of 1900 began practically in May, during which there were 43 admissions. In June there were 76, in July, 239, in August, 230, and in September, 26, a total of 614. During a similar visitation of cholera in 1897, extending over a shorter period, there were 251 admissions only and the epidemic was neither so extensive nor so prolonged. The mortality rate in 1899 was 71·36 per cent. as against 76·04 in 1900. There have been practically no admissions from cholera since October, and 3 sporadic cases were admitted this year in May.

14. *Small-pox.*—The small-pox epidemic of 1900 expended itself by the beginning of June and there has been no recrudescence. There have been however 75 admissions during the first five months of the current year, but they were mostly sporadic cases.

15. *Chicken-pox and Measles.*—These diseases prevailed more or less as usual, but call for no special remarks.

16. The year 1900-1901 although not so disastrous on public health on account of the multiplicity of epidemics as in 1899-1900 was by no means either uneventful or the less prejudicial on the whole. If a number of epidemics did not prevail at the same time, those that did (plague and relapsing fever) contributed to a greatly enhanced mortality than in any previous year. There is not the least doubt that both these affections have made greater ravages than before, and the latter still continues its hold. It was at one time thought that relapsing fever was a disease peculiar to the lower classes only and did not affect those better circumstanced. Such does not now appear to be the case, and it has been observed amongst Parsees, who certainly live and fare better than the lower classes. In the absence of any other epidemic, the public health has greatly improved and although plague has by no means totally disappeared, the excess of mortality at present (July) may safely be divided between it and relapsing fever. As to what is in store in the immediate future, it would be hazardous to forecast.

VI.—General Statistics.

17. The total admissions from all diseases during 1900 were 3,626, and for the first five months of 1901, 977 ; a gross total of 4,603 patients.

The following table shows the details of admissions month by month:—

Months.	Plague.	Relapsing Fever.	Cholera.	Small-pox.	Chicken-pox.	Measles.	Observation.	Total.
January 1900	120	191	...	276	42	20	38	687

GRAND TOTAL...	1,223	1,466	636	861	149	64	204	4,603

VII.—PLAGUE.

18. The total admissions from plague during 1900 numbered 812, of whom 609 died, and 203 recovered, the mortality rate being 75·60 per cent. During the first five months of the current year, there were 411 with 312 deaths and 99 recoveries, being equivalent to a mortality rate of 75·91 per cent.

19. The following table shows the details for the above period :—

Months.	Admitted.	Died within 24 hours.	Died within 48 hours.	Total deaths.	Recovered.	Percentage of Mortality.
January 1900	120	37	30	85	35	70·83
February „	176	62	36	137	39	77·84
March „	230	60	44	165	65	71·73
April „	160	46	34	123	37	76·87
May „	64	23	11	51	13	79·61
June „	16	5	3	13	3	81·25
July „	9	3	...	5	4	55·55
August „	4	3	...	3	1	75·00
September „	11	3	2	8	3	72·72
October „	5	2	1	4	1	80·00
November „	4	1	2	4	...	100·00
December „	13	3	2	11	2	84·61
Total ...	812	248	165	609	203	75·00
January 1901	48	10	6	32	16	66·66
February „	132	38	25	99	33	75·00
March „	141	34	30	115	26	81·56
April „	73	16	15	52	21	71·26
May „	17	5	4	14	3	82·35
Total ...	411	103	80	312	99	75·91
GRAND TOTAL ...	1,223	351	245	921	302	75·30

20. The total number of admissions from plague since it began (September 1896) now amounts to 6,364 patients; there were 4,672 deaths and 1,692 recoveries amongst them; and the rate of mortality comes to 73·41 per cent. This rate may therefore be adopted as the average of hospital case mortality including convalescent and semi-convalescent admissions in five epidemics. If they were to be excluded, it would stand at 75·00 per cent.

21. *Prof. Lustig's Serum.*—A full report comprising the details of the work done for the year ending 31st May 1901 has been submitted to the Municipal Commissioner (*vide* para. 11).

22. The following table shows the mortality rate by castes in all the plague patients admitted into the Hospital from September 1896 to June 1901 :—

Castes.	No.	Died.	Recovered.	Percentage of Mortality.
Hindus	5,365	4,017	1,348	74·87
Mahomedans	404	268	136	66·33
Native Christians	535	350	185	65·42
Parsees	36	21	15	58·33
Beni-Israels	23	15	8	65·21
Chinese	1	1	.....	100·00
Total ...	6,364	4,672	1,692	73·41

The Hindus formed over 84 per cent. of all admissions and had a mortality rate of 74·87 per cent. as compared with 66·33 per cent. among Mahomedans and 65·42 per cent. among Native Christians. The Parsees had the lowest mortality rate, 58·33 per cent., but as the admissions were too few no comparison is possible.

23. *Mortality Rates by Sexes.*—The following table shows the mortality rates by sexes in all castes :—

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	4,461	3,338	1,123	74·82
Females	1,287	935	352	72·64
Children	616	399	217	64·77
Total ...	6,364	4,672	1,692	73·41

A comparison of the mortality rates shows that children have the lowest rate, the difference between them and the adults being about 10 per cent. in the case of males, and 8 per cent. in females. This difference seems to prevail even when individual castes are analysed separately as under :—

Hindus.

Sex.	No.	Died.	Recovered.	Percentage of Mortality.
Males	3,726	2,858	868	76·70
Females	1,113	813	300	73·04
Children	526	346	180	65·57
Total ...	5,365	4,017	1,348	74·87

Mahomedans.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	331	219	112	66·16
Females	47	36	11	76·59
Children	26	13	13	50·00
Total ...	404	268	136	66·33

Native Christians.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	367	239	128	65·12
Females	113	76	37	67·25
Children	55	35	20	63·63
Total ...	535	350	185	65·42

The foregoing tables demonstrate the comparatively lower mortality rate among children in all castes, and also the fact that whereas amongst the Hindus, the mortality rate was highest among males, it was the reverse in Mahomedans and Native Christians who showed a higher rate in the females.

VIII.—Relapsing Fever.

24. The total admissions from this disease numbered 1,099 during 1900 and 367 during the first five months of the current year. Their particulars are as under :—

Months.	No.	Died.	Recovered.	Percentage of Mortality.
January 1900	191	69	122	36·12
February „	103	45	58	43·68
March „	139	41	98	29·49
April „	235	56	179	23·82
May „	173	64	109	36·99
June „	123	40	83	32·52
July „	27	8	19	29·62
August „	1	1	...	100·00
September „	2	2	...	100·00
October „	18	7	11	38·88
November „	33	20	13	60·60
December „	54	26	28	48·14
Total ...	1,099	379	720	34·48
January 1901	107	40	67	37·38
February „	63	29	34	46·03
March „	59	24	35	40·67
April „	83	36	47	43·37
May „	55	41	14	74·54
Total ...	367	549	197	46·32
Grand Total ...	1,466	549	917	37·44
Recorded in 1897, 1898 and 1899	3,033	654	2,379	21·56
Grand Total ...	4,499	1,203	3,296	26·73

25. Of the 1,099 admissions during 1900, there were 379 deaths and 720 recoveries, the mortality being 34·48 per cent. Of those admitted from January to June 1901, 170 died, and 197 recovered, the mortality rate being 46·32 per cent.

26. In the report for 1899-1900, reference was made to the steadily increasing mortality rate of relapsing fever, and a comparison from 1897 to 1901 shows that the statement has been confirmed by further experience :—

1897	...	15·08	per cent.
1898	...	20·80	„
1899	...	25·80	„
1900	...	34·48	„
(Five months) 1901	...	46·32	„

It is apparent from the above figures that the incidence of the disease falling as it does upon the most helpless, and destitute,—those who have been utterly exhausted by long continued privation—is indeed heavy and is getting heavier and heavier day by day.

27. The disease affects mostly the lower classes of Hindus, and comparatively fewer Mahomedans and Native Christians suffer from it.

The following table shows the details according to castes :—

Castes.	Number.	Died.	Recovered.	Percentage of Mortality.
Hindus	4,101	1,078	3,023	26·28
Mahomedans	319	100	219	31·34
Native Christians	74	24	50	32·43
Parsees	2	.....	2	.....
Beni-Israels	3	1	2	33·33
Total ...	4,499	1,203	3,296	26·73

Thus out of a total of 4,499 patients, the Hindus numbered 4,101, and their mortality rate was 26·28 per cent.

28. Arranged according to sexes, it is found that the incidence of mortality amongst children is extremely low, 11·63 per cent. as against 27·72 per cent. in adults :—

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	3,013	834	2,179	27·68
Females	727	202	525	27·78
Children	361	42	319	11·63
Total ...	4,101	1,078	3,023	26·28

IX.—Cholera.

29. The total admissions from cholera during 1900 were 633, of whom 487 died and 146 recovered, the mortality rate being 76·93 per cent. No sporadic cases were admitted after the epidemic ceased until May 1901, when there were 3 admissions, of whom one died and 2 recovered.

The following table shows the admissions, deaths and recoveries month by month for 1900 :—

Months.	Numbers.	Died.	Recovered.	Percentage of Mortality.
January 1900	...	...	...	...
February „	1	1	...	100·00
March „	2	1	1	50·00
April „	14	11	3	78·57
May „	43	37	6	86·04
June „	76	71	5	93·42
July „	239	184	55	76·98
August „	230	165	65	71·73
September „	26	15	11	57·69
October „	2	2	...	100·00
November „	...	...	...	...
December „	...	...	...	...
Total ...	633	487	146	76·93

The mortality rate was highest at the very beginning of the epidemic (June) when it reached to 93·42 per cent. and declined gradually to 57·69 per cent. in September.

30. The following table shows the mortality by castes :—

Castes.	Number.	Died.	Recovered.	Percentage of Mortality.
Hindus	516	401	115	77·71
Mahomedans	79	55	24	69·62
Native Christians	40	31	9	77·50
Chinese	1	.....	1	.....
Total ...	636	487	149	76·57

The mortality rates amongst Hindus and Native Christians was about the same, whereas amongst Mahomedans it was less by about 8 per cent.

31. Arranged according to sexes in each caste, the classification is as follows :—

Hindus.

Sexes.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	336	266	70	79·13
Females	119	95	24	79·73
Children...	61	40	21	65·57
Total ...	516	401	115	77·71

Mahomedans.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	64	45	19	70·31
Females	8	5	3	62·50
Children...	7	5	2	71·42
Total ...	79	55	24	69·62

Native Christians.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	30	24	6	80·00
Females	5	5	...	100·00
Children	5	2	3	40·00
Total ...	40	31	9	77·50

The lowest mortality rate was as usual amongst children. The Hindu children had a rate of 65·57 per cent. as against 79·13 and 79·73 per cent. in males and females respectively. The number amongst other castes are too small for any accurate comparison.

X.—Small-pox.

32. The total number of admissions from small-pox in 1900 was 786 and during the first five months of the current year 75. The following table shows the details of admissions, deaths and recoveries month by month :—

Months.	Number.	Died.	Recovered.	Percentage of Mortality.
January 1900	276	72	204	26·08
February "	267	72	195	26·96
March "	123	35	88	28·45
April "	60	19	41	31·66
May "	40	8	32	20·00
June "	8	1	7	12·50
July "	6	2	4	33·33
August "	3	...	3	...
September "	1	...	1	.....
October "	...	...	...	.....
November "	1	...	1	.....
December "	1	...	1	.....
Total	786	209	579	26·59
January 1901	19	5	14	26·31
February "	15	7	8	46·66
March "	13	3	10	23·07
April "	14	3	11	21·42
May "	14	2	12	14·28
Total	75	20	55	26·66
GRAND TOTAL	861	229	632	26·59

33. The following table shows the admissions from various castes in the 95 patients admitted from June 1900 to May 1901. The details about the rest were given in the last report :—

Caste.	Number.	Died.	Recovered.	Percentage of Mortality.
Hindus ...	55	13	49	23·63
Mahomedans ...	14	4	10	28·57
Native Christians ...	26	6	20	23·07
Total ...	95	23	72	24·20

34. In the report for 1899-1900, the mortality rate for the vaccinated and unvaccinated was put down as 17·91 and 30·95 per cent., respectively. Amongst the above 95 admissions, there were 39 vaccinated, and 56 unvaccinated. The former lost 5 only and the latter 18, the mortality being 12·82 per cent. in the vaccinated and 32·13 per cent. in the unvaccinated.

35. *Chicken-pox and Measles* do not require any special remarks. They were mild as usual, and there was scarcely any mortality. 149 cases of chicken-pox and 64 cases of measles were admitted. There was only one death in the former from dysenteric diarrhœa and 9 in the latter.

36. *The Observation Cases* numbered 204, and comprised the usual general diseases.

XI.—Comparative Statistics from 1896-1900.

37. The following table shows the work of the Hospital from 1896 to 1900 :—

Diseases.	1896.	1897.	1898.	1899.	1900.	Total.
Plague	297	1,270	2,187	1,387	812	5,953
Relapsing Fever	.....	464	1,581	988	1,099	4,132
Cholera	93	251	6	2	633	985

XII.—Conduct of the Establishment.

38. The Hospital Assistants and staff worked as usual with zeal and ability.

N. H. CHOKSY, M. D. (*Hon: Caus:*) Freiburg,
Special Assistant Health Officer,
Arthur Road Hospital.

29th July 1901.

EDUCATIONAL.

REPORT OF THE JOINT SCHOOLS COMMITTEE, forwarded by the Committee's Secretary under his No. 401 of 17th June 1901.

THE JOINT SCHOOLS COMMITTEE'S OFFICE,
MUNICIPAL OFFICE, FORT,
BOMBAY, 22*nd May* 1901.

REPORT ON THE ADMINISTRATION OF THE JOINT SCHOOLS COMMITTEE FOR THE YEAR 1900-1901.

Personnel of the Committee.

At the commencement of the year the Joint Schools Committee consisted of the following members :—

Appointed by Government.	*Appointed by the Corporation.*
MR. CHIMANLAL H. SETALWAD, B.A., LL.B.	HON. MR. IBRAHIM RAHIMTOOLA
KHAN BAHADUR DARASHA R. CHICHGUR.	MR. KAIKHOSRO N. KABRAJI.
PRINCIPAL M. MACMILLAN, M.A.	PROFESSOR O. V. MULLER, M.A.
MR. NANU N. KOTHARE.	MR. DINSHA E. WACHA.

The two senior members, who retired during the year, under Section 39 (3) of the Bombay Municipal Act, were Mr. Setalwad and the Hon. Mr. Ibrahim, who were both re-appointed to the Committee by the Government and the Corporation, respectively.

Professor Muller having resigned his seat on the Board, the Corporation elected Mr. James MacDonald in his place. Principal Macmillan also resigned, prior to his departure to Europe on furlough, and the Government appointed Principal W. H. Sharp, M.A., to succeed him as a member of the Committee.

The Committee placed on record their appreciation of the services rendered by the retiring members to the cause of primary education. The Committee also recorded their deep sense of regret at the death of Mr. Geary, who had been a member for over ten years and had rendered very useful service.

Mr. Kothare was re-elected Chairman of the Committee for the year 1901.

Finance.

It will be seen from the statement of Income and Expenditure given in Appendix **A** that the opening workable balance to the credit of the School Fund was Rs. 64,639 against Rs. 62,538 for the preceding year. Owing to the disorganization caused by plague, there was no occasion to incur expenditure up to the limit of the estimates under various heads. The balance is being utilized every year towards meeting a portion of the expenditure, and it was accordingly reduced this year by Rs. 2,308. The total receipts for the year amounted to Rs. 1,38,973, as against Rs. 1,36,664 for 1899-1900 ; and the total expenditure was Rs. 1,41,281 against Rs. 1,34,563 for the preceding year. The year closed with a balance of Rs. 62,331.

Municipal Schools.

Both in progress and average attendance the Municipal Schools showed an improvement over the previous year. The teachers, with a few exceptions, were reported to have done satisfactory work, and it is expected that when means are provided for the exercise of more vigilant supervision, the standard of efficiency of Municipal Schools will further improve. The scale of pay, which the Committee have adopted, has been attracting a better class of qualified teachers to their service, and as the old untrained teachers will be succeeded by better paid certificated masters, there will doubtless be a perceptible improvement in the quality of the instruction imparted in the Municipal Schools. A beginning has already been made in the direction of the kindergarten method of instruction, which can only be introduced in its entirety, with the requisite appliances, when the majority of the teachers in the employment of the Committee are well able to follow it.

Two new Urdoo Schools were opened during the year, one for boys in Rangari Street, and another for girls in Nizampura. The total number of Urdu Schools will thus be 18. The number of Municipal Urdu Schools has risen within the last five years from 4 to 18, and they are being availed of by the comparatively intelligent portion of the Mahomedan Community in preference to the purely Koran Schools. Of the 1,201 pupils attending these schools only 81 are in the upper primary stage. It is hoped that in course of time, the proportion of pupils in the higher standards will be greater.

In response to a petition from some inhabitants of Walkeshwar, a Gujarati class was tentatively opened there, but owing to failure of attendance, it had to be closed.

The following table shows the number of Municipal schools and scholars during the year under report, as contrasted with the figures for 1899-1900 :—

Class of Schools.	Municipal.			
	1899-1900.		1900-1901.	
	Schools.	Pupils.	Schools.	Pupils.
MARATHI.				
Day Schools.				
Middle Schools	3	51	3	60
Primary for boys	30	2,077	30	2,044
for girls	9	236	9	255
Total ...	42	2,364	42	2,359
Night Schools ...	.....	.....	.....	.....

Total of Urdu Schools ...	16	1,170	18	1,201
Grand Total of M., G. & U. Schools ...	81	5,018	82	5,484

No change is to be noted in the Marathi Schools. Owing to the closing of the Walkeshwar School, the number of Gujarati Schools has declined from 23 to 22. The number of pupils has nevertheless increased from 1,484 to 1,924. Although there has been an addition of two new Urdu Schools during the year, there has been an increase of only 31 in the number of pupils, as compared with the total for the previous year. On the whole, there has been a net increase of one school and 466 pupils.

The average cost per pupil was Rs. 21·9 as against Rs. 22·8 in 1899-1900 and was distributed as under :—

Teaching	Rs.	14·3
tent.....	„	5·6
Miscellaneous.....	„	2·0
Total	Rs.	21·9

Revision of the Vernacular Standards.

During the year under report the Committee revised the standards of primary education, and they are glad to note that the amendments proposed by them have met with the approval of the Director of Public Instruction. Under the revised course, the primary course has been limited to the fourth standard; uniformity of instruction has been secured for the Marathi, Gujerati and Urdu Schools, and the burden of study on the children has, in some measure, been lightened. Further, in view of the peculiar circumstances of Bombay, it has been provided that the rudiments of English may be taught in the fourth standard. A little knowledge of English in a city like Bombay is a growing necessity, and parents are naturally anxious that their children should commence acquiring it at an early age. Not only is it found necessary in the case of operatives and artisans, but a slight acquaintance with it is considered desirable in the case of peons and messengers. It may be added that the Aided Schools will be given the option of following the existing departmental standards, if they choose.

Pictorial Books and Charts.

The Ravi Varma Press which has been turning out some very good work in the shape of wall charts and illustrated school books, has published an illustrated Infant Reader for Marathi children which has been introduced by the Committee in their Marathi Schools. The press has also issued pictorial alphabetical charts which the Committee have supplied to all their schools.

Physical Training.

The Committee have introduced light physical training in their schools and have appointed a special drill master to supervise it, as well as train the teachers in the exercises to be performed by the pupils. Dumb-bells and bar-bells have been supplied to schools, a few of the bigger ones being also provided with cricket apparatus. The experiment, thus far, has proved fairly successful, and with more active and intelligent co-operation on the part of teachers, it will result in still greater benefit.

School Buildings and Accommodation.

The difficulties of securing suitable accommodation for schools have been repeatedly dwelt upon in previous reports. There has been great improvement in this respect since the transfer of the schools to the Municipality, and every year the Committee have been removing some of their schools to better quarters. During the year, the Chinchpoogli and the Varli Koliwada schools were removed to more commodious and suitable buildings, and increased accommodation was provided for the Parel, Sion, and Kamathipura Nirashrit Schools.

The Committee have requested the Chairman of the Bombay Improvement Trust to supply them with plans of such localities as may be taken up by that body from time to time. The idea of the Committee is to reserve a few good sites for their schools and have model buildings thereon, provided means are forthcoming for that purpose.

Aided Schools.

There are 90 Aided Schools registered by the Joint Schools Committee for receiving grant-in-aid. The total amount paid to them was Rs. 15,927, besides a fixed annual grant of Rs. 5,000 paid to the Anjuman-i-Islam Schools. The number of these schools would have been larger, had not some of the poorer class of these establishments been swept away by the plague. During the year under report, the Gilder Street and the Curry Road Indigenous Schools having ceased to exist, were struck off the list. On the other hand, the St. Andrew's Girls' School, which had been registered as an elementary school under Chapter VI of the Grant-in-Aid Code, was transferred to the list of schools to which payments are made according to their examination results under Chapter V of the Code. The standard of teaching and general efficiency is higher in these schools than in the indigenous or elementary schools which are allowed, according to merit, a lump sum up to Rs. 60. The following table shows the number of Aided Schools and Scholars, as contrasted with those for the preceding year:—

Class of Schools.	Aided.			
	1899-1900.		1900-1901.	
	Schools.	Pupils.	Schools.	Pupils.

Night Schools	...	...	...	...
Total of Urdu Schools... ...	...	...	2	375
Grand total of M., G. and U. Schools ...	89	6,651	90	7,773

The two Urdu Schools noted this year belong to the Anjuman-i-Islam and are under the supervision of the Department. As may be seen, there is an increase of one school and 1,122 pupils over the figures for the year 1899-1900.

Plague.

Although plague was about as bad as ever during the cold season the exodus from the city did not approach the extent of the previous years, and consequently there was a better attendance than before throughout the year. Owing to this cause, there was an increase in the fee receipts from Rs. 12,424 in 1899-1900 to Rs. 13,416 in 1900-1901, and to the same cause is to be attributed the increase in the amount of the grant paid to the Aided Schools, namely, Rs. 20,927 as against Rs. 19,992 in the previous year.

The Death Roll.

The Committee regret to report the death of 16 teachers and 4 peons during the year. Of these seven persons died from plague, including Mr. Ganpat Nagu, Acting Head Master, Varli Koliwada School, who was himself a Koli by caste, and was taking great interest in the welfare of the school. Earlier in the year, the same school lost its permanent Head Master, Mr. Sakharam V. Kale, a very zealous and painstaking teacher. The death from phthisis of Bai Parvatibai Nathji, Head Mistress, Rangari Street School, at the early age of nineteen has deprived the Department of a trained teacher of great promise and intelligence. Another teacher, Mr. Dalabhai Dwarkadas who died during the year, had distinguished himself by his quiet and useful work as head of the Nal Bazar School.

Retirement.

Mr. Atmaram Kuberdas, Head Master, Mahim School, having completed his full period of pensionable service, retired during the year.

Prizes and Scholarships.

Mr. N. V. Mandlik, executor of the Rehatsek Estate, made a donation of Rs. 500 this year to the Joint Schools Committee for the distribution of money prizes among deserving children. The contribution was accepted with thanks.

A pupil of the S. S. Bengalee Girls' School, and another of the Kalbadevi Marathi Girls' School, were able to win the scholarships awarded by the National Indian Association. Both these schools have been very favourably reported by the Inspectors on account of their high state of efficiency and discipline.

Three out of the four Government Middle School scholarships were won by pupils of Municipal Schools. One of them belonged to the Girgaum School, and another to the Dongri 2nd Grade A. V. School, which is doing excellent work under its Head Master, Mr. Suktankar, B.A. It is satisfactory to note that for the first time in the history of Urdu Schools one of these scholarships was won this year by a pupil of the Municipal Nagpada Urdu School.

The Backward Classes.

For the benefit of children belonging to the inferior castes the Committee have now three schools under them, at Crawford Market, Kamathipura and Dharavi, respectively. The total attendance in these schools has risen from 284 in 1899-1900 to 346 in the following year.

There has likewise been an increase from 23 to 49 in the number of children belonging to the aboriginal and hill tribes. Most of them attend the Varli Koliwada School, which is primarily intended for the fishing population of the locality.

Classification according to Race.

The classification of the children according to race is as under :—

Race.	1899-1900.			1900-1901.		
	Municipal.	Aided.	Total.	Municipal.	Aided.	Total.
Europeans and Eurasians	1	....	1	...	1	1
Portuguese and Native Christians.	48	488	536	40	639	679
Jews	71	439	510	67	550	617
Parsis	234	2,069	2,303	255	2,075	2,330
Mahomedans...	1,413	517	1,930	1,476	921	2,397
Hindus	3,226	3,137	6,363	3,593	3,585	7,178
Aboriginal and Hill tribes... ...	23	...	23	49	...	49
Others	2	1	3	4	2	6
Total...	5,018	6,651	11,669	5,484	7,773	13,257

The total attendance in both Municipal and Aided Schools has risen from 11,669 to 13,257. An increase of 1,588 in one year is fairly satisfactory, and there is no doubt that the progress will be more marked on the disappearance of plague.

ANNUAL REPORT

OF THE

MUNICIPAL AUDITORS,

1900-1901.

To

M. N. WADIA, Esq.,
Municipal Secretary,
BOMBAY.

We have the honour to forward herewith our reports on the Municipal Accounts and the Joint Schools Committee's Accounts for the year 1900-1901, in view to their being printed and placed before the Corporation as usual.

We are, Sir,
Your obedient servants,

A. THOMSON,
DINANATH HARISCHANDRA,
Municipal Auditors.

BOMBAY, *2nd September* 1901.

REPORT OF THE AUDITORS OF MUNICIPAL ACCOUNTS FOR THE YEAR 1900-1901.

No. 1345. For the audit of the accounts of the year under review, we were appointed Auditors by the Corporation at their ordinary monthly meeting held on the 8th March 1900 by their Resolution quoted in the margin.

2. As usual all the vouchers and papers relating to both the receipts and disbursements of 1900-1901 have been compared by us with the Day Books and Subsidiary Ledgers or compilations of charges; the General Ledger postings have also been checked with the entries in the Day Books and those in the Journal with the Subsidiary and General Ledgers.

3. The Bank's receipts of investments on account of Sinking Funds of the different loans, also of Municipal Buildings Fire Insurance School Buildings, Worn-out Mains Renewal, and Premia, &c., funds as well as Securities from contractors in Government Port Trust and Municipal Bonds deposited with the Bank of Bombay and the Pass Books of the various Banks have been examined by us and found to be correct and in order.

4. In accordance with the directions of the Corporation contained in their Resolution passed on the 19th November 1888, which were communicated to the Auditors under the Municipal Secretary's letter No. 5374, dated 30th idem, all Sinking Fund investments pertaining to the year were examined and we certify that they have all been duly and properly made.

5. The weekly statements of receipts and charges of Municipal Funds were examined by us as they were prepared, and prior to their publication in the *Government Gazette*.

6. The auditorial duties have, it will be observed from the figures given below, been heavier than in the previous year, owing principally to a larger number of refunds on acount of town duty.

		1899-1900.	1900-1901.
Receipts Vouchers	Nos.	25,044	25,093
Disbursements	„	61,429	109,685
		86,473	134,778

7. The total receipts of Municipal Revenue from all sources, including water-tax and other water works revenue, interest and profit on investments in 1900-1901 amounted to :—

Rs. 88,29,817-1-2 in 1899-1900
„ 84,02,848-4-2 in 1900-1901

being Rs. 4,26,968-13-0 less than those of the previous year.

8. The total disbursements from Municipal Funds, including Water Works accounts, amounted to Rs. 85,84,058-7-4 against Rs. 73,92,479-7-4 in 1899-1900.

9. The opening Cash Balance on 1st April 1900, *vide* statement D of the Chief Accountant's Report, stood at Rs. 38,85,367-10-8, which um, *plus* the gross receipts of the year, gives Rs. 1,22,88,215-14-10 gainst the gross disbursements of Rs. 85,84,058-7-4, thus leaving a redit balance of Rs. 37,04,157-7-6.

11. The total expenditure under the head "Plague," which has been compiled to 30th March 1901, amounts to Rs. 50,77,738-7-4, inclusive of Rs. 6,80,425-3-8, the expenditure of 1900-1901. Against the total expenditure above given, the sum of Rs. 26,50,000 has been written off, and the balance of Rs. 24,27,738-7-4 has been transferred to a suspense account "Plague Expenditure—Suspense Adjustment Account" pending the settlement of the source from which the expenditure is to be finally adjusted.

12. The amount of permanent advances made to Municipal officers to meet contingent expenditure, also the sums which have been carried to this head pending adjustment, amounted, on 31st March 1901, to Rs. 47,017-4-1 against Rs. 14,466-4-8 on the same date in the previous year.

13. The value of stock on hand on the 31st March 1901 as ascertained from the accounts rendered to the Chief Accountant's Office, was as under :—

	1900-1901.	1899-1900.
	Rs. a. p.	Rs. a. p.
Executive Engineer	17,437 11 5	17,220 12 11
Drainage "	3,04,603 1 7	3,64,424 2 3
Water "	3,76,838 8 6	4,05,647 12 0
General Stock	20,196 9 2	46,341 2 2
Parel Stores, Plague	1,380 11 10	.....
Total Rs. ...	7,20,456 10 6	8,33,633 13 4

14. The following figures taken from the Chief Accountant's books show the Assets and Liabilities of the year as compared with those of the preceding year :—

	1899-1900.	1900-1901.
	Rs. a. p.	Rs. a. p.
Assets ...	5,99,27,037 2 3	6,06,80,111 8 1*
Liabilities ...	4,54,09,090 6 11	4,50,52,755 15 2
Difference ...	1,45,27,946 11 4	1,56,27,355 8 11

15. *Scrutiny of Collections and of Outstanding Bills of Rates and Taxes for the year* 1900-1901 *and of previous years.*

Collections.—During the year under report there were issued by the Assessor and Collector 92,505 net demand assessment bills for Property and Wheel Tax of the value of Rs. 54,19,802-5-8, and 2,563 bills for meter hire for the same year of the value of Rs. 20,996-13-7.

*Excludes Plague expenses.

The following figures give the particulars of the bills and collections :—

		Rs.	a.	p.	Rs.	a.	p.
92,047	bills for Property and Wheel Tax were issued for 1900-1901 of the value of				54,02,195	7	9
2,563	bills for meter hire for 1900-1901...				20,996	13	7
	414 bills for the year 1899-1900	17,293	6	1			
	44 " " 1898-1899	313	7	10			
458					17,606	13	11
95,068	Total number of bills for 1900-1901 ...				54,40,799	3	3
Add—Government and Port Trust contributions.		3,95,794	0	0			
Outstandings on 31st March 1900		1,81,561	3	9			
					5,77,355	3	9
Total amount to be collected in 1900-1901					60,18,154	7	0
Less—Collection made by the Assessor and Collector.		52,21,986	13	11			
Paid by Government and Port Trust		3,95,794	0	0			
					56,17,780	13	11
					4,00,373	9	1
Deduct—Amount of bills recalled, amended, and cancelled for all years from 1893-94 to 1899-1900					26,139	6	1
Total outstandings on the 31st March 1901 ...				Rs.	3,74,234	3	0

16. During the year under report, a change which has been introduced under the sanction accorded in Standing Committee Resolution No. 7469, dated 4th October 1900, has been brought into effect from the 18th March 1901. Under the present procedure all passed bills, &c., are charged off at once in the accounts under service heads whether discharged or not. This system no doubt has its advantages, but notwithstanding these, it causes much increase of audit labour as in most cases the vouchers have to be twice examined by us, *i. e.*, in the first instance the ordinary audit scrutiny has to be exercised, and in the second it becomes necessary to see that a proper discharge is obtained after payment is made whenever that may be.

A. THOMSON,
DINANATH HARISCHANDRA,
Municipal Auditors.

BOMBAY, *2nd September* 1901.

To

M. N. WADIA, Esq.,

MUNICIPAL SECRETARY,

BOMBAY.

Sir,

In accordance with Section 137 of the Bombay Municipal Act of 1888, we have the honor to forward three Appendices, marked A, B and C, containing the result of our scrutiny of the outstanding bills of Rates and Taxes, which were in the hands of Ward Clerks and in the Office of the Assessor and Collector on the 31st March 1901.

These Appendices form part of our Annual Report on the Municipal Accounts for the year 1900-1901, now under preparation.

We have the honour to be,

Sir,

Your obedient Servants,

A. THOMSON,

DINANATH HARISCHANDRA,

Municipal Auditors.

BOMBAY, 1*st July* 1901.

A. THOMSON,
DINANATH HARISCHANDRA
Municipal Auditors.

BOMBAY, 1st *July* 1901.

REPORT ON THE ACCOUNTS OF THE JOINT SCHOOLS COMMITTEE.

In accordance with Bye-law No. 15 of the Joint Schools Committee we beg to report that we have audited the accounts, and examined all the vouchers and papers relating to the receipts and disbursements of the School Fund in charge of the Joint Schools Committee from 1st April 1900 to 31st March 1901.

The opening balance of the Income and Expenditure Account on 1st April 1900 was Rs. 64,639-2-0.

The total receipts of the Joint Schools Committee for the year 1900-1901 amounted to Rs. 1,38,973-5-0, against Rs. 1,36,664-13-11 in 1899-1900, being Rs. 2,308-7-1 more than in the previous year.

The total expenditure incurred was Rs. 1,41,281-6-9, against Rs. 1,34,563-14-5, being Rs. 6,717-8-4 in excess of the previous year. The excess expenditure was due to opening of two new schools and increased charges on account of masters and teachers, Grant-in-aid to Primary Schools and repairs to Municipal Schools.

The credit balance of the Income and Expenditure Account on 31st March 1901 was Rs. 62,331-0-3, being Rs. 2,308-1-9 less than in the preceding year.

The funds at the disposal of or belonging to the Joint Schools Committee on 31st March 1901 were as under :—

Government, &c., paper with the Bank of Bombay on account of S. S. Bengali School Building and various prize funds Deposits	Rs.	27,000	0 0
Government, &c., paper with the Bank of Bombay on account of investment of Surplus Cash Balance (cost price of which is Rs. 39,674-6-0)	„	38,000	0 0
Cash Balance—			
In Bank of Bombay	Rs.	25,967 15 10	
In Office Treasury	„	3 2 4	
		25,971	2 2
Total Rs. ...		90,971	2 2

The accounts have as usual been carefully kept.
